

Jodays Women

By DOROTHY ROE
AP Women's Editor
A girl is destined to become a wife, an expert says, when she starts to plan a honeymoon. The bridegroom usually appears only on the second or third visit, after the bride has made up her mind.
Most young couples today want to combine a vacation and a honeymoon, says Mrs. White, and are interested in resort activities—skiing and skating in winter, swimming, tennis and riding in summer. They also prefer a spot where there will be other honeymooners, and contrary to popular legend, do not seek a place where they can be "alone at last."
The average couple plans a honeymoon on a week to 10 days, within 100 miles of home and costing from \$150 up.
