German Boss Faces Battle

BONN, Germany (AP) — Foes of Chancellor Konrad Adenauer seized on Moscow's new "peace offensive" Friday to step up their fight against his plan to rearm West Germany as part of the Western defense front. ... West Germany's neutralist "All-German People's Party" demanded that the West accept Russia's gesture "as a last chance for peaceful agreement." ... The neutralists also accused Adenauer and the Western Allies of having spoiled some previous Russian overtures by setting too high a price for negotiations. ... But from the German government side came a warning that "the cold war has by no means ended" and that the changes for a real settlement with Moscow "can come only through further strengthening of the West." ... With a national election due this year, observers here felt that the fight against Adenauer's rearmament plans would be stepped up sharply if Moscow should make a new bid to the Western Bloc Three for conference on reunification of Germany. ... Some quarters here believe that Moscow soon may come along with such an offer, possibly while Adenauer is conferring with President Eisenhower. The chancellor is now on the Atlantic, bound for Washington.

Harney Basin Water Is Low

BURNS (AP) — Farmers of the Harney Basin can expect the water supply for the next six months to be from poor to a little below normal, depending on which drainage serves them. ... That was the conclusion from the survey made here Wednesday at the annual water forecast committee meeting. ... The flow from the Silvies and Donner and Blitzen Rivers and Trout Creek were forecast below normal for the April to September period, according to Snow Survey Leader W. T. Frost of Medford and Don Kuehl of Portland's Weather Bureau river forecast center. ... Henry Griffith of the PMA office reported that although both the Silvies River and Silver Creek are now at their peak, they are not as high as last year. ... One flood irrigation is expected in the upper valley of Silver Creek, but probably there will be little or no irrigation in the Warm Springs area, according to John Scharif, superintendent of the Malheur Wildlife Refuge. ... The group agreed that unless there are unusual weather conditions during the next six months, approximately 9,000 acres of the lower valley of Silver Creek will be short of water. ... Harney Basin irrigation and agricultural representatives agreed that the shorter and earlier run-
