## New Service Station Set

C. F. Leitboff, district sales manager for Union Oil Company in Klamath Falls announces that work has started this week on dismantling the Union Service Station at South Sixth Street and Klamath Avenue. Union has purchased the property adjoining the present structure and is expanding to make room for a new modern service station.

Work will begin on the new structure as soon as the old building is removed and completion has been set for June 1.

The new service station will be a large unit of the most modern design and includes two service bays and two pump islands. It will feature the new trapezoid shaped canopy which will cover the entire service area and will afford protection to the customer. This style of construction is being featured in all new construction by Union Oil and this new unit will lend a great deal to modernize and make more beautiful the business district of Klamath Falls.

## Dining Hall Contract Eyed

CRATER LAKE — The government dining hall operation at Crater Lake National Park may be placed under contract for the 1953 operation season, it has been announced by Superintendent John B. Wosky.
