

MAN IN THE DUNCE CAP above is Bob Mest, operator of the S. 6th Street Dodge. Mest offered a used car for sale at \$147 and gagged it up by offering \$10 for each member of any family purchasing the car. Mr. and Mrs. Jose Herrera have 14 children, making 16 family members. And 10 times 16 amounts to \$160. So Mest will give the Herreras the 1941 Chrysler and then kick in with some cash to boot. The dunce cap is entirely appropriate.

Interior Fund Cut In Mill Already

WASHINGTON (AP) — House leaders Tuesday were reported to be aiming at a 30 per cent cut in Interior Department appropriations.

Milk Marketing Position Filled

PORTLAND (AP) — William S. Weidel Monday was named Oregon state milk marketing administrator.

The State Board of Agriculture appointed him to the \$550-a-month job after accepting the resignation of Thomas L. Ohlsen. Weidel has been Ohlsen's assistant since 1951. Ohlsen, who has been associated with milk marketing since the state began controls in 1933, will continue as an agricultural economist to study milk problems. He also will assist Weidel.

proposed by former President Truman.

The estimate was made Tuesday by an official who, while asking to remain unidentified, holds an authoritative position on Capitol Hill and knows what is being decided there.

Such a slash would be one of the deepest proposed for any government department.

The cut must be reckoned from the proposed budget Truman submitted to Congress early in January. Departmental and agency proposals for funds under the Republican administration so far have not gone much below 15 per cent of the Truman estimates.

Secretary of Interior McKay two weeks ago suggested a nine per cent reduction in the \$607,000,000

in new money asked for his department for the fiscal year beginning July 1. This would be about \$4 million dollars. Twenty per cent would be over 21 million.

reclamation during the fiscal year beginning July 1. The congressional official said he was convinced that "no good, sound reclamation projects" will suffer from budget reductions. It was indicated that cuts would be spread more or less across the board, and that considerable savings would be achieved by reducing interior personnel.
