Irrigation Not So Good In '53
 WASHINGTON (AP) — The Agriculture Department Thursday described irrigation water prospects for the Western States this year as "much less promising" than on April 1, 1952.

The annual spring forecast of the Soil Conservation Service said New Mexico, Southern Utah, Southern and Central Nevada and parts of Arizona are facing particularly threatening water shortages.

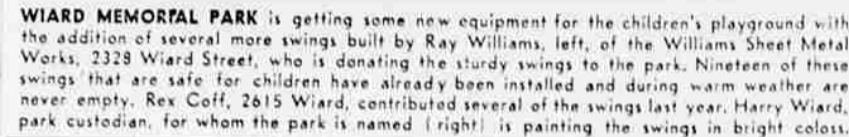

Below normal snow cover and stream flow, short reservoir storage and dry soils were cited in the water outlook report.

The report is based on snow surveys made during the winter by the Soil Conservation Service and cooperating federal and state agencies.

Dairy Products Contracts Given
 SEATTLE (AP) — Contracts for dairy products in the amount of \$158,000 have been awarded four Northwest concerns, the Navy reported here Wednesday.

Knap Dairyman's Association of Bremerton got one contract for \$42,500; Highland-Pacific Dairy, Inc., Mt. Vernon, another for \$35,000; a third went to Larson Dairy Co., Astoria, Ore., for \$25,500 and the fourth to Arden Farms Co., Seattle, for \$55,000.

Yes, it's "tailor made" to fit you when you insure with Hans Nordland, 627 Pine St.

WIARD MEMORIAL PARK is getting some new equipment for the children's playground with the addition of several more swings built by Ray Williams, left, of the Williams Sheet Metal Works, 2328 Wiard Street, who is donating the sturdy swings to the park. Nineteen of these swings that are safe for children have already been installed and during warm weather are never empty. Rex Coff, 2615 Wiard, contributed several of the swings last year. Harry Ward, park custodian, for whom the park is named (right) is painting the swings in bright colors.

Jazz Musician Turns To Dreams Of Classical Work
 BY BOB THOMAS
 HOLLYWOOD (AP) — Can a jazz musician make the change to a classical artist?
 Pianist George Shearing thinks so. He's planning to give up a successful career in theaters and night clubs and have a fling at the concert hall.
 "I won't happen for another year or so," he said. "I would like to have six or seven concerts under my fingertips before I start."

Each night after playing with his quintet before help audiences, he studies classical compositions. He reads them in Brazil, since he has been blind since he was a few weeks old.
 "I'd like to go into semiretirement," he told the over lunch. "I have a nice home in Englewood, N. Y., but I only see it about two months a year. I would like to spend more time there, going out on concert dates for four or five months of the year."
 "I plan to do the kind of program I have been doing at the Eastman School of Music at Rochester, N. Y., for the past two years. The school was kind enough to invite us to appear with the symphony orchestra. Even though we play a form of progressive jazz."
 The orchestra plays the first half of the program, and I join in a concerto. Then the quintet and I take over for some fairly solid pieces like "How High the Moon." I was surprised to find the audiences highly appreciative.
 English-born Shearing would be returning to a love he left at the age of 15.
 "I stopped studying the classics

Clock Switch Change Eyed
 PORTLAND (AP) — Many railroad, bus and air line schedules in the Pacific Northwest will change to conform with daylight saving time when the clock switch Sunday.

A number of Northwest business firms also propose to make the switch by changing the work day to start an hour earlier.

State law prescribes standard time for Oregon and Washington. At Olympia came a proposal to meet that by having the City Commission adopt Mountain Standard Time.

Western and United Air Lines said their flights from California to Oregon points would be an hour earlier. Flights east from Portland and Seattle will be on standard time until they reach Chicago.

Southern Pacific railroad and bus lines operating on the Coast also plan to move Oregon schedules up an hour.

Latest of business firms announcing plans to start the day an hour earlier are three auto parts firms in Bend, Ore.

McNary Dam Gates To Be Closed
 WALLA WALLA (AP) — Army Engineers planned to begin closing gates at the powerhouse of McNary Dam Thursday afternoon, an operation that will create a reservoir behind the dam in the Columbia River.

Late Friday water may begin to flow over the spillway and by Saturday noon the lake is expected to be high enough to put the navigation lock into operation.

Appropriation Needed For Pest Control In Forests

WASHINGTON (AP) — Experts have estimated appropriations of \$13,300,000 for the coming year would enable them to hold the line against forest pests which threaten to destroy Western timber worth more than a billion dollars.

This was disclosed in testimony of Agriculture Department officials at a hearing before a House appropriations subcommittee on the department's fund requests for the year beginning July 1. The testimony was made public Wednesday.

The department requested \$14,000,000 for building access roads in forests. Of this \$3,000,000 would be used primarily for roads needed for hauling fallen timber from forests in Montana and Idaho which are infested with the deadly Engelmann spruce bark beetle.

Since the hearing was held the full House Appropriations Committee has approved an immediate \$5 million dollar appropriation for access roads. If the House approves the supplemental appropriation bill the money will be available before July 1.

This would reduce the request to \$4,950,000.

Requested directly for forest pest control is \$3,350,000, closely related with a four million dollar request for fighting pine blister rust, a timber-killing disease.

Witnesses said beetles and worms have reached epidemic numbers in forests of Montana, Colorado, Washington and Oregon.

PORTLAND (AP) — Quotas for dairymen in the Portland market were shifted Wednesday to a new method of payment. Hereafter the payment will be on a milk-weight basis. Previously they were based on material production.
