Subpoena Served On Harry Killed

KANSAS CITY (AP)—A Subpoena served on former President Harry S. Truman to explain why the United States quashed the Korean conflict was quashed Monday in U.S. District Court. The subpoena, served by Fyke Farmer, Nashville, Tenn., attorney, and leader in a world peace movement, had directed the former President to produce certain records of his administration. But Judge Albert A. Ridge held that Truman had submitted an affidavit to the court saying he was not now in possession of these documents and they are in control of the government. At the same time the judge stayed the taking of a deposition from the former President until a Federal Court in Nashville rules on a motion to dismiss the damage suit brought by Farmer against the government.

THE BEYOND
It seems such a little way to me across that strange country, The Beyond. And yet, not strange, for it has grown to be the home of those of whom I am so fond.

And so for me there is no Death: it is but crossing, with abated breath, A little strip of sea. To find one's loved ones waiting on the shore. More beautiful, more precious than before. (Ella Wheeler Wilcox)
