

### Seereration Building Begun

SALEM (AP) — Contractors began work Monday to complete the state penitentiary's 90-cell segregation building.

Scheduled for completion in 60 days, it will enable Warden Clarence T. Gladden to segregate such trouble makers as those who caused the four-day rebellion that ended a week ago.

Construction of the new unit had been bogged down by use of convict

labor. It originally had been scheduled for completion almost a year ago.

The board of control, deciding it is needed as soon as possible, called in contractors to rush it to completion.

E. E. Batterman, Salem, has the general contract, and he has engaged several other contractors to help him.

Warden Gladden said the prison is slowly returning to normal. The prison dining room was used Monday for the first time since the rebellion.

The dining room had been damaged considerably, especially by tear gas shells that correctional officers used to drive the convicts out into the open.

Gladden said 125 convicts still are locked up. They include the ring leaders of the rebellion, and those who had been segregated before the trouble started.

No visitors will be allowed to see the convicts until Wednesday, July 29.

The warden earlier had announced that visiting would be resumed July 27. The further delay was ordered because the officers who conduct the visits are off duty on Mondays and Tuesdays.

All prisoners, except those locked up, are on work details, much of their work being to clean up the damage they caused.

The cleanup should be completed by next Monday.

### Construction In NW Is Up

SEATTLE (AP) — Building construction continues to increase in the six Pacific Northwest states.

Construction News Bulletin, building trade journal, said Monday all records were broken during the first six months of 1953.

Permits issued totaled \$202,636,015, a gain of 11.8 per cent over the first half of 1952.

Editor Walter Averill commented that the total does not include military construction or privately or publicly financed buildings outside the jurisdiction of cities, towns or counties issuing building permits. He estimated if such construction were added, the total would likely approach the half-billion dollar mark.

Oregon had a percentage-wise gain of 24.3 per cent for a total of \$47,143,473.

Washington had the greatest volume, \$115,626,411, for a gain of 7 per cent.

Construction News Bulletin said one marked development has been the shifting of a larger volume of construction from the big cities to the rural areas.

The publication said influence upon the economy of south central Washington by the Hanford works of the Atomic Energy Commission and the Columbia Basin irrigation development is reflected by the fact that Pasco and Moses Lake rank 15th and 18th respectively, among the 96 permit-issuing agencies. Kennewick, across the Columbia River from Pasco, ranks 21st.

### Alaska Shooting Leaves One Dead

FAIRBANKS, Alaska (AP) — A night club has check girl was killed and an off-duty policeman, formerly of Baker, Ore., was wounded in a shooting here early Sunday.

Police arrested Donald Pratt, a cab driver, and accused him of firing the shots that killed Mrs. Annette May Wood, about 20, the hat check girl.

The first shot struck her arm. She screamed and ran down the night club floor. Two other shots were fired, one of them passing through her body and hitting Harlow Struble, the policeman who was having a cup of coffee in a nearby restaurant.

Both of Struble's legs were creased by the bullet. Struble, who was a policeman at Baker, was not seriously hurt.

### Actress Says She Was Robbed

WEST LOS ANGELES (AP) — Actress Andrea Leeds and her wealthy husband asked police for help Monday in locating \$71,450 in jewelry which they said disappeared from its hiding place in a portable radio.

The couple said they took the jewelry from the safe at the Bel Air Hotel so Miss Leeds could wear them to a party Thursday night. Later her husband, automobile heir Bob Howard, hid them in the back of a portable radio.

Twice he took the radio to the hotel pool. When he looked in the radio again the jewelry was missing, Howard said.

### Man Killed By Runaway Trailer

COTTAGE GROVE (AP) — Orval Ora Long, 46, of Yoncalla, was injured fatally Monday when he was run over by an empty logging truck trailer he was attempting to stop from running away.

He died in the Cottage Grove hospital two hours after the accident, which occurred in the woods northwest of Drain. Witnesses said Long jumped on the rolling trailer and tried to halt it by pushing the tongue in the ground, slipped and fell under the wheels.

### Hogs Reported In Good Health

NEW WESTMINSTER, B.C. (AP) — About 300 hogs got a clean bill of health here Monday after a 10-day quarantine for suspected epidemic animal diseases.

Dr. F. W. B. Smith, chief of the federal health of animals division here, said the federal science service in Ottawa had cleared the hogs and they will be released to packinghouses immediately.

Some of the hog showed lameness when they arrived here, en route to American markets. U. S. officials, suspecting "X-disease," prevalent in the U. S., barred the animals.

They imposed a regional "temporary suspension of inspections," which barred Canadian livestock. This was later lifted from cattle

but not from swine.

Dr. Smith said he expects that U. S. authorities will resume inspections and allow all Canadian exports to cross the border immediately.

He said the health branch had established that the pigs were "not sick, they have not got vesicular exanthema as first suspected nor have they had any of three or four other ailments we were

looking for."

He added that "X-disease" still "does not exist anywhere in Canada."
