

Oregon Supreme Court Ends Year of Important Rulings

By PAUL W. HARVEY JR. SALEM (AP) — The Oregon Supreme Court has just closed a year in which it handed down more important decisions than it has in many recent years.

And these historic decisions prove two things: That the court has decided to interpret the state Constitution strictly, and that it is going all out in protecting the rights of an individual.

Witnesses Hold Big Baptismal

NEW YORK (AP) — An all-time attendance record of 132,811 was set yesterday at the World Assembly of Jehovah's Witnesses, the fourth day of the religious sect's eight-day meeting.

Officials said the count included 75,186 persons inside Yankee Stadium and 56,625 reached by loudspeakers in nearby lots and by direct telephone wire to a public address system at Traller City, New Market, N. J.

The attendance announcement came after a day of convention activity featuring what was termed the largest mass baptismal service of modern times.

Using an upper Manhattan swimming pool, a dozen ministers baptized 4,640 men, women and children.

Republican Has Explanation For Demo Walkout

WASHINGTON (AP) — Sen. Potter (R-Mich.), a member, doesn't agree with Chairman McCarthy (R-Wis.) about why the three Democratic members quit the Senate investigations subcommittee.

"Nothing sinister in their investigation," Potter said last night on an ABC radio interview.

McCarthy had said the Democrats resigned because they feared exposing the committee while it was "exposing graft and corruption" of the Truman regime would hurt their political futures.

The Democrats—Senators Symington (Mo.), McClellan (Ark.) and Henry Jackson (Wash.)—quit after the Republican majority gave McCarthy sole power to hire and fire staff personnel. They said they could not accept responsibility without a voice in such matters.

Laboratory Car Handles Itself

NEW YORK (AP) — Maybe there's a rosy tinge to your driving future. A laboratory car at RCA's David Sarnoff Research Center in Princeton, N. J., can:

1. Steer itself along a prescribed route.
2. Stop when it approaches a metal obstacle.
3. Turn out to pass a slower car.

According to an announcement yesterday about the five-foot electronic auto, you'd have no driving worries at all, including being cracked up by careless drivers.

The whole system involves electric cables under specially constructed highways, with electronic equipment controlling the steering gear and picking up wave impulses from the cables.

Stassen Favors More Eisenhower

WASHINGTON (AP) — Harold E. Stassen, who ran for the Republican presidential nomination last year, says he "definitely" wants President Eisenhower re-elected in 1956.

But Stassen, Eisenhower's foreign aid chief, told NBC radio interviewers last night: "It's a question of whether the American people will draft him again."

ALEX RICHARD BRYANT, alias Fred Bryant, Aleck Bryant, Fred Bryant, "Red," and others. WANTED for interstate transportation of a motor vehicle, unlawful flight to avoid prosecution on the charge of armed robbery. He has spent all but seven months of his adult life in prison. He escaped from Michigan State Prison in January 1952 after kidnapping a guard and a driver of a station wagon and threatening their lives. He is a convicted rapist and armed robber. Bryant is 47 years old, five feet eight inches tall, weighs about 150 pounds and has red hair. CAUTION. He should be considered extremely dangerous. He has often used a knife in his criminal acts. If you can help locate him, NOTIFY the Federal Bureau of Investigation, Department of Justice, Washington, D. C., or the FBI agent nearest your community.

Frost, Sommer, Wetter, Showers Appear in Order

ST. CHARLES, Mo. (AP) — Babies must be pretty good weather forecasters. At least they're beginning to think so at St. Joseph's Hospital.

A cool spell came early this month after the arrival of baby Frost. Warm days followed baby Sommer. Then baby Wetter and Showers arrived a few days later.

Three inches of rain flooded the streets at almost the same time—and then baby Flood arrived.

Quality of Dr. Lindstrom's Fame Improves

PITTSBURGH (AP) — Dr. Peter Lindstrom, chief neurosurgeon at Aspinwall (Pa.) Veterans Hospital, has been invited to give a paper before the Scandinavian Neurological Society in Helsinki, Finland, Aug. 29-30 on advanced research he has been conducting.

Dr. Lindstrom, former husband of screen actress Ingrid Bergman, has been studying a method of controlling pain with superconductivity, an announcement by the Addison H. Gibson Laboratory at the University of Pittsburgh said yesterday. That will be the topic of his paper.

Enlargement Set For Ike Museum

ABILENE, Kan. (AP) — Plans are under way to enlarge the Eisenhower Museum and expand the activities of the Eisenhower Foundation.

Kansas Gov. Edward Arn and other officials met in Abilene, the President's boyhood home, yesterday and mapped the construction of a second wing for the museum.

The main foyer and one wing have been completed. President Eisenhower has promised to make available a large part of his million-dollar collection of souvenirs for the museum.

No date has been set for opening the museum.

Churchill Much Better

LONDON (AP) — Sir Winston Churchill today was reported so much improved in health that he plans to set up a "little Downing Street" within the next week at Chequer's British Prime Minister's official London residence 25 miles from London.

R. A. Butler, chancellor of the Exchequer, told the House of Commons last night Churchill is "ever so much better now."

A Churchill aide denied a report in the Paris newspaper, Paris Presse that Churchill is completely paralyzed though retaining his "intellectual lucidity." The newspaper said the report was made by Ambassador Rene Massigli to the French government.

When a reporter asked the aide if Churchill had been struck by paralysis in any way, he replied: "I am not in a position to answer that question." He added, though,

that Churchill walked in the garden at Chartwell yesterday afternoon and saw a movie last night. Churchill's doctors on June 28 ordered him to take a complete rest for a month at least. The precise nature of his illness has not been announced.
