Reds To Return 12,736 POWs Including 3,313 Americans

MUNSAN (AP)—The secret record of the Panmunjom truce negotiations released today showed that the Communists have told the Allies they will return 12,736 prisoners of war—including 3,313 Americans.

The Communists gave this breakdown of the captives they will release:

3,313 Americans.
8,186 Koreans.
932 British.
12 French.
228 Turks.
40 Filipinos.
15 Australians.
14 Canadians.
22 Colombians.
6 South Africans.
1 Greek.
1 Belgian.
3 Japanese.

This makes a total of 4,577 prisoners of non-Korean nationality to be returned.

The Allies informed the Communists that about 5,000 Chinese prisoners and 69,000 North Korean captives will be returned to the Reds in the big exchange of prisoners.

The information was exchanged in a secret staff officers session held at Panmunjom July 22. Marine Col. James C. Murray spoke for the Allies and North Korean Col. Lee Pyong Il for the Reds.

The U. N. said that about 7,800 North Koreans and 14,500 Chinese captives will be turned over to the neutral nations repatriation commission. These prisoners have renounced communism and do not want to return to their homelands. The Communists said yesterday

they would return 300 prisoners a day, including sick and wounded. They did not give the number of disabled men they still hold.

The U. N. Command informed the Reds they will turn back the Communists captured at the rate of 2,400 able-bodied prisoners daily, plus 360 sick and wounded, each day until all the disabled are released. The Allies said they hold about 3,000 sick and wounded in U. N. camps.

The truce document requires that all prisoners desiring to return home be exchanged within 60 days after the signing.

The Allied officer at the session yesterday, Col. J. C. Friedersdorf, told the Communists the U. N. feels the proposed Communist rate of exchange of 300 prisoners daily "is unduly small in view of the numbers which we will deliver to you each day."

The Red staff officer, Chinese Col. Wang chun, replied that the Reds are "willing to complete repatriation of prisoners of war at the earliest date" and promised to "continue to study the situation of our transportation."

If possible, Wang said, our side is willing to change the number to be repatriated to your side daily.

The U. N. Command base camp spokesman said as far as is known no date has been set for beginning the mammoth task of exchanging the war prisoners.

The new figures released by the Communists on Allied prisoners they hold were surprisingly close to the figures announced Dec. 18, 1951, in the first prisoner lists.

The December, 1951, figures given by the Reds totaled 11,559, including 3,195 Americans and 7,142 South Koreans.

In the exchange of sick and wounded war prisoners last April, the Allies received a total of about 694 sick and wounded men, including slightly fewer than 150 Americans.
