

JERRY RAJNUS will be on hand at the Rotary sponsored Junior Livestock Show August 23-25 with this Hereford entry. Jerry is a Malin lad. — Photo by Underwood

PETUNIA IS THE NAME and she's all set to go at the Junior Livestock show slated later this month. Petunia is the pig entry of Larry Ash of Wocus.

Rogue Forest Earnings Told

Earnings from sale of timber, grazing fees, and other forest uses on the Rogue River National Forest reached \$1,461,846.94 for the fiscal year ending June 30, 1953. This is the highest earning for a similar period in the history of the forest, according to Supervisor J. H. Wood. Receipts for the previous fiscal year totaled \$1,370,600.00.

The sale of timber accounts for \$1,447,207.92 of the total receipts this year, with \$8,576.92 derived from grazing fees and \$6,062.10 from other land use.

Each year 25 per cent of national forest earnings are returned to the counties in which the national forest lies. Approximately \$365,000.00 from the Rogue River forest earnings will be distributed this year among Jackson, Klamath, Josephine, and Douglas counties in Oregon, and Siskiyou county in

California. Similar distribution will be made by other national forests lying within these counties. Last year Jackson county received about \$163,600.00 and Klamath County \$325,500.

Wheat Quota Figure Set For Nevada

State wheat acreage allotments for next year's crop were determined by the USDA this week. Nevada's acreage was set at 15,591 acres—a drop of 4,326 acres or 21.6 per cent from the amount planted this year. The national wheat acreage to be planted for the 1954 crop totals 62 million acres—or 78.8 per cent of this year's 78.6 million acres.

State and county committees of the USDA's Production and Marketing Administration have broken down the State allotment to counties and individual farms so that each producer in the State could be notified of his allotment, stated E. A. Seitelmeier, Nevada State chairman of PMA.

And each wheat grower has been advised of his acreage allotment. On Aug. 14, the nation's wheat farmers vote on a wheat marketing referendum to determine whether or not they, as a group, favor marketing quotas and at what level wheat support prices should be set. If more than one-third of the farmers voting disfavor marketing quotas, the support price on the 1954 crop will drop to 50 per cent of parity.

POLISHING EGGS PAYS \$9.00 AN HOUR

Robert Marshall of Tompkins County in New York State scrubs eggs with an automatic washer; cleans five dozen an hour. He gets 6 cents a dozen premium and finds that polishing pays him \$9.00 an hour. More proof that imagination applied on the farm pays a profit!

Wonder if he's putting all those eggs in one basket? You can — if you're using A.C. machinery. It pays you a premium through lower original cost, lower operating cost, and longer life.
