

Greek Toll Set At 600

ARGOSTOLION, Greece (AP)—New earth tremors including one rated as a strong earthquake wracked the stricken Ionian Sea islands today as officials estimated the toll from the week's devastation at some 600 dead and 700 seriously injured.

Fifteen new tremors were recorded during a 12-hour period last night and today. They heightened

the islanders' near-panicky desire to flee their homelands but otherwise could make little difference on the three islands, practically leveled by the past week of upheavals.

The new casualty estimates came from the Argostolion headquarters of Gen. Dimitrios Istrides, who is directing the Greek rescue work. Previously it was feared more than 1,000 persons had been killed.

The new figures were based on complete reports from the island of Ithaca and nearly complete reports from the other two stricken islands, Zakynthos and Kefallinia.

Three hundred of the badly injured have been moved by boat and plane to Athens. The others have been hospitalized in Patrai.

Fears of a typhoid outbreak still hung over the devastated area today, and one case of smallpox had been found.

Churchill Health Report Demanded

LONDON (AP)—The Daily Mirror demanded today an official "full statement" on the condition of ailing Prime Minister Churchill.

The tabloid said in a front-page editorial that Britons have been "driven to pick up their information at secondhand from tittle-tattle abroad."

It cited a report by American columnist Stewart Alsop that Churchill had suffered a slight stroke in June and said, "Even more alarming reports have appeared in the French press."

Churchill's doctors ordered him on June 27 to rest for at least one month. A government spokesman indicated he was suffering from extreme fatigue, but the exact nature of his illness never was announced.

Reds Defend US 'Progressives'

TOKYO (AP)—The Red Peiping radio put up a stout defense today for "progressives"—American prisoners who collaborated with the Reds in North Korean POW camps.

"United States authorities are preparing to persecute repatriated American POWs who tell of good treatment during their capture," the radio said in a broadcast heard here.

"They are branding those reluctant to invent mistreatment stories as traitors and are trying by every possible means to obtain from the repatriates evidence against them."

35 Die In Morocco Riots

CASABLANCA, Morocco (AP)—French soldiers and police kept an uneasy watch over the main cities of Morocco today, seeking to avoid new outbreaks of violence over religious leadership of the North African protectorate. Thirty-five persons died in bloody riots over the weekend.

The fighting followed a proclamation Saturday by some 300 Berber chieftains and the Pasha of Marrakech, Thami el Glaoui, that the Sultan of Morocco, Sidi Mohammed Ben Youssef, no longer was the religious leader of the Moslem country.

They named as imam—"leader of the faithful"—the Sultan's uncle, Moulay Mohammed Ben Arafa backed down, however, from a previous decision to install him as the new sultan.

The sultans previously have been considered both the temporal and spiritual rulers of the country. The move against Sidi Mohammed touched off riots in Marrakech Saturday night which claimed seven lives.

Sixteen more deaths were reported from Oujda, eastern Morocco, yesterday and 12 from Casa-

blanca. A curfew was installed in Oujda, and communication by telephone and telegraph was cut off.

All the demonstrations apparently were set off by supporters of the nationalist-minded Sultan, Trouble developed when the police tried to intervene.

The Sultan lashed back at El Glaoui yesterday. In a communication, he proclaimed himself the "only sovereign of Morocco, and its only spiritual chief." He claimed a separation of temporal and spiritual power was contrary to Islamic law.
