

Reuther Hits Ike's Aides, GOP Record At Home & Abroad, McCarthy Activities

WASHINGTON (AP) — CIO leaders bitterly attacked the Eisenhower administration and the Republican-controlled Congress Wednesday as they kicked off a campaign to elect a pro-labor House and Senate in 1954.

President Walter Reuther of the big labor organization set the tone when he told the CIO Political Action Committee that the administration's domestic and foreign records are both bad. "I still feel President Eisenhower is a basically decent person" but that he is "surrounded" by the wrong people. The committee unanimously adopted a resolution saying the first session of Congress "under the new leadership of the Republican Party has left behind it a disgraceful record of disregard for human welfare."

Here children in Chicago play amongst the potential "baby traps" before Illinois passed a law against indiscriminate discarding of icebox units. Russia To Get Less 'Voice'

WASHINGTON (AP) — A secret report made to President Eisenhower last month was disclosed Wednesday to have recommended cutting down on Voice of America broadcasts to Russia.

At the same time, the report on psychological warfare, only a fraction of which was made public, recommended keeping at present levels Voice broadcasts to Russia's European satellites.

This information was contained in a letter written Aug. 11 by Theodore C. Streibler, new head of the United States Information Agency (USIA), to Sen. McCarran (D-Nev.). McCarran made the letter available to a reporter.

Streibler wrote in part that "the Jackson Report on psychological warfare" advocated a reduction in some of the Russian languages while maintaining that the service to the satellites should be preserved.

No evidence was available at the USIA that this recommendation from high government officials has yet been followed. But its existence appeared to be an indication the new administration means to concentrate on encouraging anti-Red activity in Iron Curtain countries at the possible expense of U. S. propaganda aired to Russia proper.

The Jackson Report on how this country should wage psychological warfare was written by a committee of eight headed by William H. Jackson and including two of President Eisenhower's top advisers—C. D. Jackson, special presidential assistant, and Robert Cutler, White House liaison man with the National Security Council, Deputy Secretary of Defense Roger M. Yyes was also a member.

The report was given the President last month but only a small portion of it has been released to the public. A White House statement said many of its recommendations "are of a highly-classified nature."

Street Vacation Will End Town

SALEM (AP) — The town of Butteville in northern Marion County may soon disappear from the map. A petition filed with the Marion County Court Tuesday seeks the vacation of three streets and several alleys in the townsite. The petition was filed by Beryl and Ethel Breithaupt. If the request is granted the town will disappear as a corporate entity.

Butteville is one of the oldest towns in the Willamette Valley. The plat of the community was recorded May 30, 1860, and a revised plat was filed Dec. 2, 1870. Butteville was incorporated by an act of the Legislature in 1901.

Haymes, Wife Reach Pact

HOLLYWOOD (AP) — Attorneys representing crooner Dick Haymes and his estranged wife, Nora Edgington Flynn Haymes, have reached an agreement on alimony, but she has refused to divorce him in any state except California.

S. S. Hahn, Mrs. Haymes' lawyer, said he would not accede to Haymes' request that she obtain a quick divorce in Alabama or Nevada because California does not recognize the validity of such divorces.

Hahn said Mrs. Haymes had been offered a substantial cash settlement and a life income. The lawyer said the question of filing the suit in California had been referred to Harry Cram, New York attorney for Rita Hayworth. Haymes and Miss Hayworth reportedly plan to marry as soon as the divorce is granted.
