

# Grain Support Prices Listed

Grain support prices are available to producers again in 1953, according to William J. Burnett, chairman of the Klamath county PMA committee.

The support rate or loan rate on grain per hundredweight is as follows: US No. 1 grade wheat, \$3.55; No. 2 grade or better wheat, \$3.25; No. 3 grade or better wheat, \$2.75. There is a discount of a few cents per hundredweight on grain grading lower than shown above.

Price support may be obtained by either taking a commodity loan or signing a purchase agreement. Under commodity loan, the grain must be stored in either an approved warehouse or in approved farm storage. An approved warehouse is one which has signed the Uniform Grain Storage Agreement with CCC. Approved farm storage consists of good, safe storage, on or off the farm, (excluding public warehouses) and required county PMA committee approval.

Under purchase agreement, there are no restrictions on storing. It is merely an agreement between the producer and the government that the government will buy the grain on April 30, 1954, if the producer has not disposed of it in commercial channels.

Following are some other provisions of the price support program: (1) Loans and purchase agreements must be completed not later than Jan. 31, 1954. (2) Maturity date of the loans is April 30, 1954. The grain goes to the government at that time unless repaid before then. (3) Interest on loans is 4 percent if liquidated by repayment. (4) All farm - stored grain must be stored for 30 days prior to sampling, measuring, and sealing. (5) Service charge is 1 cent per bushel on farm stored and 1/2 cent per bushel on warehouse-stored loans.

**CHICAGO GRAIN**

CHICAGO (U) - Grains churned about erratically in a nervous market on the board of trade Friday. During the session they fell to new seasonal lows and wheat sold at its lowest price for the week, but these losses were reduced before the close.

Lard continued its sharp advance, all contracts scoring new seasonal highs. A feature of the trade was the strength in September corn, reflecting a strong demand for the cash grain. There have been good shipping sales of corn out of Chicago this week.

Wheat closed unchanged to 1/4 higher, Sept. 1.83 1/4-1.83, corn unchanged to 1/4 higher, Sept. 1.48 1/4-1.48, oats unchanged to 1/4 higher, Sept. 1.91 1/4-1.91, soybeans 2.46 1/4-2.47, and lard 17 to 95 cents a hundred pounds higher, Sept. 15.70.

Well over \$1 million of federal funds has been earmarked for Oregon and Washington state forestry organizations to assist in control of forest fires during the current fiscal year. The funds are an annual allotment under the Clarke-McNary Law of 1924.

Oregon will receive \$591,056 and Washington \$541,227. The Forest Service announced today. Forty-one other states and the Territory of Hawaii receive federal fire control funds.

No furniture was removed from the burning house but some contents of the living room were not seriously damaged.
