

Neutral Commission Says Allies Stall Explanations

SEOUL (AP)—The Neutral Nations Repatriation Commission today accused the Allies of trying to stall away more of the dwindling 90-day period allotted for interviews with 23,000 war prisoners who refuse to return to their homelands.

The NNRC told the UNC pointedly that the Reds offered to take only four days to build an explanation center which the Allies estimated would require a month.

Truce terms specify that the explanation period end Christmas Eve. The Allies have turned down repeated NNRC and Red requests for an extension.

In a letter to the UNC Thursday, the NNRC said bluntly:

"The commission is not prepared to be a party to the curtailment of the period... particularly in view of the fact that the U. N. Command is unable to agree to an extension."

The construction of a satisfactory explanation center has delayed the start of persuasion attempts since Sept. 26, and apparently is the only remaining obstacle.

Meanwhile, another Indian letter rejected the Allied charge that the commission was operating on the

theory that most of the prisoners "actually desire repatriation."

The Indian chairman of the five-nation commission, Lt. Gen. K. S. Thimayya, said the commission "made no such assumption."

Thimayya also rejected a Communist charge that the captives have not been allowed "to express their free will."

Thimayya said, in a letter replying to one from the former U. N. commander, Gen. Mark Clark, that the commission had kept an "open mind" and is determined to gain for the prisoners "complete freedom of choice without duress or coercion."

He also noted that the 117 captives who have already changed their minds indicate that not all of the 22,900 Red POWs want to refuse repatriation.

He said none of the prisoners in the camp "dared openly" to ask for repatriation for fear of reprisals from other captives.

An Allied spokesman said there would be no immediate comment from the UNC on either of the Indian letters.

Neither of the Indian statements referred to a growing nervousness over South Korean demonstrations and actions aimed at the Indian custodial force.
