To the Weaver, the Baker, the Beauty Maker

Rub-A-Dub-Dub, want a suit you can scrub, face cream, or a well-protected loaf? Then we can help you, for Standard Oil Company of California has put oil to work for the weaver, the baker, the beauty aid maker—and practically everyone else. This being Oil Progress Week, it's a good time to point out that oil men help bring you thousands of things you *don't* buy in a service station.

Suits, for instance! That wrinkle-resistant model you may be wearing was woven from an oil-born ingredient developed in our research laboratories. Bread, too! Millions of loaves were wrapped last year in paper coated with Standard wax. Whenever you light a candle, polish a shoe, or empty a milk carton, you may be using wax turned out by Standard Oilers. And when your wife creams her face we're involved, too. Each year we supply ½ million gallons of highly-refined oils to cosmetic makers—enough for 10 million jars of face cream. These examples of oil's place in modern living emphasize one important point: The oil industry has moved from kerosene to synthetic fabrics in one short generation—and so have you. Oil progress is *your* progress.

What comes from a drum of oil? Tires, medicines, nylons, detergents, plastics, paints, insecticides—and thousands of other products. That's because oil companies like Standard invest millions each year to find new ways to make oil serve you better. *Questions or comments about our Company are always welcome. Write: Standard Oil Company of California, P. O. Box 3495-E, San Francisco, Calif.*

STANDARD OIL COMPANY OF CALIFORNIA *plans ahead to serve you better*
