'Pot Of Gold' Sells Woman On Fund Drive

In spite of the concentration on rocket ships, men from mars, and all the rest of modern boy's increased vocabulary, fairy stories are still in circulation. Here is proof, as told by Mrs. Alice Lamm, volunteer worker for the United Fund-Red Cross drive:

"After tossing around for what seemed hours the other night while I worried about the UF-RC campaign drive, I finally fell asleep.

"Hours later, or so it seemed, I thought I heard a small voice. At first I thought I was dreaming, but then I realized that I could make out what it was saying, if I listened hard.

"'A pot of gold,' it kept repeating, 'A pot of gold.'

"Then I heard it clearly, 'I am your pot of gold, Grandma. I am your pot of gold.'

'It was my little granddaughter to whom I had read the fable of the Rainbow before she went to bed. . . .

"Finally I fell asleep again thinking about all those little girls in institutions who were not anybody's 'pot of gold.' At least we could make them a lot happier by giving generously to the United Fund-Red Cross campaign."

Dye also emphasized that the payroll deduction plan is meeting with acceptance in most places, even in small firms with few employes. He told the group of one grocery store with three employes who had signed up 100 per cent for the one hour's pay per month plan. The firm, Peterson's Grocery on South Sixth, was awarded one of the "oscars," a wooden "UP" on a standard, at Wednesday's noon report meeting. June Peterson was present to accept the oscar for her firm.

One hundred oscars are being presented to firms based on increased employe participation, percentage of increase and amount of gifts. Receiving the awards at Wednesday's noon report meeting were Petersen's Market, Midland Empire Insurance Co. and the Junior Chamber of Commerce.

At Tuesday's meeting, an oscar was presented Russell Tisdale for First National Bank for their increase from $166 last year to $770 this year through the payroll deduction plan.

The campaign head urged chairman and their workers to have their reports ready for the daily noon meetings so that the United Fund Committee would know exactly how the drive was progressing.

"The reports so far aren't complete enough or big enough if we are going to wind up this drive in one week," Dye warned.

The drive has been scheduled for a one-week run, beginning Monday, Oct. 26. This year's quota for the joint United Fund-Red Cross drive is $109,563.

Merrill, Malin Offices To Close

The farm labor offices at Merrill and Malin which were opened for the onion and potato harvest, will close this week, Friday will be the last day of operation.

The local Oregon State Employment office will resume regular hours. It has been opened six days a week, from 6:30 a.m. until 5 p.m. It will be oper. now from 8 a.m. to 5 p.m.

The Malin camp has been filled all season with about 400 pickers living there.

There were shortages at times, but the growers got through in good shape, according to the employment office officials. The onion harvest is practically finished and by the end of this week the spud crop should be 90 per cent complete.

MINERAL CLUB

Harold Ashley, outstanding amateur photographer, will show slides of geological interest at the meeting of the Klamath Mineral Club. This club is meeting Thursday, Oct. 29, 8 p.m. in the Chamber of Commerce. Phil Schroeder, 1321 Pacific Terrace, is president of the club and cordially invites the public to attend this meeting.

44,000 Tax Statements Are Mailed

By LYLE DOWNING

County Assessor A. R. Dickson announced Wednesday that 44,000 tax statements have been mailed to property owners in Klamath County.

Dickson estimated the returns would bring in approximately $3,335,041.73 needed to operate county schools, city governments in the county and the county government itself.

The assessor also announced that the reappraisal of all farm lands, homes and business property which was completed by the State Tax Commission last year, resulted in new assessed valuations which have been placed on the tax rolls.

Dickson explained it was the first reappraisal by the commission in Klamath County since 1932. It was started two years ago. The purpose of the reappraisal, he said, was to equalize assessed values.

Many buildings, according to the assessor, which were started 15 years ago were enlarged from year to year with no change in the assessed valuation. He also pointed out that considerable property had increased in value in recent years but the assessments remained unchanged.

According to the assessor's records, approximately 18 per cent of the current tax statements reflect an increase in assessed valuation.

The total assessed valuation this year is $50,027,885.54. Dickson stated that due to the assessment of public utilities this year being increased by more than one million, the tax levies all over Klamath County, with two exceptions, were lowered.

"The millage," he declared, "depends on the amount of money to be raised and the total assessed valuation. This year the total county budgeted expenses were practically the same as last year and the total assessed valuation was increased $770,788.04."

SCIENCE DISCOVERS "MAGIC STITCH" CONSTRUCTION
FIRST BIG HOSIERY CHANGE IN OVER 100 YEARS

Picturesque Hosiery Company States, "Stitch Makes Difference"

1. The stitch of the stocking you're wearing today with shortened loops which stretch so far, no further, and do not spring back

2. The new "Magic Stitch" with elongated loops for greater stretch, greater elasticity.

THE "MAGIC STITCH" DRAWING ABOVE TAKEN FROM THE U.S. PATENT, NO. 2,591,566, SHOWS LONG THIN VERTICAL STITCH WHICH MAKES ELASTIC ACTION.

PICTURESQUE PATENTS THE "MAGIC STITCH"
This new stitch in hose construction has been found to be so important the manufacturer had it registered with the U. S. Patent Office. It's a radically new and improved method of constructing nylon hosiery. The principle involved in "Magic Stitch" is a very simple one. The stitches are set vertically and held in that position during stretch and tension. They are heat treated to permanently set stitch in long, thin, vertical position and when stocking is stretched laterally or horizontally, stitches jump back to their original position. This creates a spring elastic action that makes the stocking hug the leg, rough surface of any kind that may be encountered by the stocking. The part of the stocking that is tightly drawn across the leg is very seldom, if ever, subject to a snag and, when the entire stocking is tight to the leg, there is very little opportunity for it to snag. The second important cause of stocking wearing out is that they pop from strain at some

OVER 100,000 WOMEN HAVE TESTED AMAZING, NEW "MAGIC STITCH"
In the past two and one-half years, during the development of the new "Magic Stitch" Stocking, and since its introduction in several cities, over 100,000 women have worn and tested it and careful records were made of the results. From the survey these results were apparent. The wearer, upon putting on Magic Stitch Nylons for the first time, in nine cases out of ten, knows that she has on a stocking that is different from any other she has ever worn. Upon wearing for a short period of time she will notice most of the points claimed for the stocking and, in eight cases out of ten, all the points claimed. After wearing Magic Stitch many women will wear no other stocking.

AMAZING OFFER MADE TO "MAGIC STITCH" PURCHASERS
"Magic Stitch" Stockings are sold with a truly amazing offer. So certain are both this store and the manufacturer that women will be delighted with these new stockings that they make a unique offer. Anyone purchasing three pairs of "Magic Stitch" entitled to return two pairs and receive full refund on all three. It is expected that a great many women will feel that at long last they have found [illegible]

Stitch many women will wear no other stocking. These facts were noticed repeatedly. The seams stay straight in place and never [illegible] "MAGIC STITCH" EXCLUSIVE
