### Truman Cites Manipulation Of Fear, Hysteria

NEW YORK (AP)—Former President Harry S. Truman says fear and hysteria "are being manipulated in this country today purely for political reasons."  
Truman spoke to 1,000 persons last night at a \$100-a-plate dinner to benefit the Hebrew University of Jerusalem. The university bestowed on Truman its Solomon Bublick Award for distinguished public service.  
The former President made no direct reference in his 15-minute speech to the controversy over the Harry Dexter White case.  
He said truth was the best answer to the propaganda of communism and added:  
"To find truth, men must be free from thought control, must be free of pressure from the state. Under Fascist and Nazi rule, the schools had to teach the false doctrine of prejudice and hate. . . . to teach what is popular but not true. Let's not do that here."  
The struggle for truth is the struggle for freedom, freedom to be obedient to humane laws and the moral code. We must try to preserve it from fear and hysteria, which are being manipulated in this country today for purely political reasons."

### Lumber Moves Heavy So Far

SEATTLE (AP) — Reports of heavy lumber movements during the first 10 months of 1953 came Thursday from both the West Coast Lumbermen's Assn. and the Pacific Northwest Lumbermen's Assn. The latter keeps an eye on carloadings for Washington, Oregon and North Idaho.  
The WCLA report said buyers ordered more Douglas fir lumber from Pacific Northwest mills in the 10 months than in the same period in either 1951 or 1952.  
The buying was up sharply in October, and Harris E. Smith, secretary of the association, said that as a result of the upswing the region's sawmills "will go into the winter season in pretty good balance."  
The Advisory Board reported the highest since 1942.  
Final carloadings for all commodities also were down from the past two years.  
A downward trend for log loadings was indicated for October and the 10 months.  
"Log inventories in the Puget Sound and Columbia River areas have been high, which has cut down rail movement," the report said.  
"Carloadings for logs for the year to date are the lowest since 1939."  
Figures include:  
Lumber and forest products — 34,227 cars in October, compared with 36,196 a year ago; 372,346 for 10 months, compared with 357,960 last year and highest since 377,113 in 1942.  
Logs — 180,363 cars for 10 months lowest since 163,435 in 1939.  
Coal — 618 in October compared with 789 a year ago; 6,000 for 10 months, compared with 8,026 last year and 14,479 in 1948.

### Case of Political Refugee Hiding At Home to go Before Tribunal

WASHINGTON (AP) — A well-known South American political figure, for five years a refugee from his country's police in the heart of his own capital, will have his strange case laid before a five-nation tribunal next week.  
Victor Raul Haya de la Torre, now 58, sought refuge at the Colombian Embassy in Lima, Peru, Jan. 3, 1949. He has lived there ever since, in a comfortable house surrounded by a lawn, a garden—and the Peruvian police.  
By long established Latin American practice, a political figure hunted by his enemies can always find asylum with a foreign diplomat. It's a custom that has many friends among politicians on a continent where changes in government are often sudden and sometimes violent.  
Haya, generally described as a leftist but not a Communist, was accused of taking part in a bloody uprising in Peru in 1948. Peruvian authorities asked Colombia to surrender him as a common criminal. But Colombia maintained he is a political refugee with a right to asylum.  
The Colombians noted that Haya has a long record as a political leader. His brand of "democratic collectivism" emphasizes the Indian tradition in Latin America and appeals strongly to the large Indian population. Haya is of Spanish origin himself.  
Peru and Colombia fought the case twice through the International Court of Justice at The Hague. The last ruling was that the asylum should come to an end, but that Colombia did not have to turn him over to Peru. Since then the two countries have tried in vain to reach agreement.  
Colombian Foreign Minister Evaristo Saurdis was due here today to put the matter before the Inter-American Peace Committee, consisting of the United States, Argentina, Mexico, Cuba and Brazil, on Tuesday.

### How Tired He Got Pulling In Trout!

DALLAS, Tex. (AP)—Sam Kellog, Corpus Christi, Tex., movie operator, was telling a Dallas man yesterday about a Gulf coast fishing trip.  
Kellog said he waded out in waist-deep water, dipped a hook and came up with a big trout. As fast as he could bait the hook and drop it back in the water, he got more trout. He pulled them in and pulled them in until he got tired, so stopped to smoke a cigarette.  
When he finished, the story went, he threw the butt on the water. Another big trout came out of the water and took the butt down.

### Teamsters' Beck A Humanitarian

LOS ANGELES (AP)—Dave Beck, president of the AFL International Teamsters Union, has received the City of Hope Hospital's Torch Award for humanitarian efforts to obtain health and welfare standards.  
The teamsters union gave the City of Hope a \$100,000 check and announced opening of a nationwide campaign to raise \$750,000 for support of the nonprofit hospital in nearby Duarte.  
Beck said he had received the award "with a great deal of pride and honor. It is a recognition of the fact that the teamsters union has been active in the field of humanitarian work for many years."  
The award was presented to Beck by Dr. J. H. Stafford, president of the City of Hope Hospital, in a ceremony held at the hospital's headquarters in Duarte.  
The award is given annually to individuals or organizations that have made a significant contribution to the health and welfare of the community.  
Beck has been active in many humanitarian projects, including the establishment of a teamsters union hospital in Duarte, Calif., and the support of the City of Hope Hospital in Duarte.  
He has also been active in the field of labor relations, and has worked to improve the conditions of the teamsters union members.  
Beck is a well-known figure in the labor movement, and has been a vocal advocate of workers' rights and social justice.  
He has been a member of the National Labor Relations Board, and has served on the National Labor Relations Board's National Labor Relations Commission.  
Beck is also a member of the American Labor Education Council, and has been active in the field of labor education.

### Trick Fooled Bandit Just Once

ST. LOUIS (AP)—Louis A. Klute pulled a fast one on a bandit once but it backfired the second time.  
Klute, 78-year-old collector for a real estate firm, stepped on a floor button which sounded like a buzzer in a rear room when the bandit entered his office last week. The man fled.  
But the same bandit returned yesterday and knew what to expect.  
Klute said he was a little farther from the buzzer and the man beat him to it, jerking the wires loose. Then Klute was hit on the head.  
The bandit escaped with \$91 from an open safe.

### Boys 12 and 13 Try Out Plane

GRANITE CITY, Ill. (AP) — A couple of youngsters spent a day watching activity at a nearby airport, slept in a plane overnight and then decided to take a solo ride.  
Here's what happened:  
The youths, 12 and 13 years old, got the Piper Cub started, taxied to one end of the field and turned for the takeoff. They got the plane slightly off the ground but it smashed into two parked planes. No one was injured but damage to the planes was estimated at \$1,500.  
Airport owner Omar Midyett said the boys told him they spent the night in the plane because they couldn't catch a ride back to their St. Louis homes. They decided on the flight when they woke up. Juvenile authorities turned them over to their parents.
