Big Blowoff Set For Wednesday
TOKYO (H)—Japanese railroad engineers want a raise in pay so bad they just have to let off a little steam.
 They decided to do it all together at noon next Wednesday. They will blow the whistle of 5,000 locomotives for one full minute.
 The engineers' chapter of the National Railway Workers Union said this will cost the government, which operates the railroads, 130 million (about 30 cents) per engine, or the equivalent of \$1,500.

Judge Slaps Fine on UAW

COLUMBUS, Ohio (H)—A judge, who said two union officials had tried to intimidate him, Friday night fined local 927 of the CIO United Auto Workers \$30,000 for strike violence at the North American Aviation plant here.
 Judge Joseph K. Hartger suspended half the fine on condition of "good behavior" and provided the union make restitution for damages.
 The judge found the union in contempt of his order limiting picketing and banning interference with workers entering the plant.
 Negotiations will resume Monday in Los Angeles covering the strike at North American's Columbus, Los Angeles and Fremo, Calif., plants. The union's national officers will take part for the first time.
 The union seeks a 26-cent hourly wage boost. The company has offered a four per cent increase on wages ranging from \$1.42 to \$2.32 an hour.

Judge Heads County Men

PORTLAND (H)—Garnet Barrat of Heppner, Morrow County judge, is the new president of the Association of Oregon Counties.
 Others elected at the organization's convention here: George I. McBeck, Corvallis, vice president; Roy R. Rice, Salem, Marion County F. L. Phillips, The Dalles, executive secretary.
 Other county officials meeting here elected these officers:
 County Treasurers — Wayne LaGarge, Clackamas County, president; T. J. Summerville, Multnomah County, vice president; Nora Anderson, Wallowa County, secretary.

Speed Law Seen For Oregon Soon

PORTLAND (H)—Gov. Paul Patterson and state traffic officials said Friday that the next Legislature probably will be asked to approve a speed limit law.
 "The state now has a 'basic rule' that permits high speed providing the car is kept under control."
 The statement was made at a meeting of the Highway Livesavers an organization attempting to reduce traffic accidents. Other speakers were Walter Lansing, of the state police and director of traffic safety, and R. H. Baldock, State Highway Department engineer.

Purchasing Power Of Farmer Down

THE DALES (H)—Farmers' purchasing power has been reduced by falling farm produce prices, Sen. Wayne Morse said here Friday.
 Speaking at the Lions Club, the Oregon senator said that on a recent speaking tour of the Midwest he had noticed the effects of reduced purchasing, particularly in the farm machinery line.
 "More a critic of many Eisenhower administration policies, said "The Republicans promised not only 50 per cent of parity prices, but full parity, and I intend to hold them to it."

HOAX

GENEVA (H)—Geneva's major newspaper, La Suisse, said like beer cakes this morning.
 The placard advertising the paper throughout the city announced: "Flying Saucer Lands at Geneva Airport."
 Hundreds of disappointed readers who found no reference to any flying saucer in the paper telephoned the editorial offices. They were told the placards were counterfeit, posted during the night by Geneva University students.

GRACEFUL CELESTE WINKLEMAN will dance in several numbers Sunday night, Nov. 22, in the Tableau Vivant to be presented in Mills School Auditorium, 7:30 p.m. under the direction of Rubye Kujac. The cast will include about 70 children and the specialty numbers will be presented by guest artists from all parts of the Klamath Basin.

California Turkey Grower Experts Breed Heavier, More Costly Fowl Now

SAN FRANCISCO (H)—California — the nation's biggest turkey state — is producing fewer drumsticks this year for Thanksgiving feasts, but there'll be more eating mileage per leg, so don't worry.
 Growers turned to heavier-weight breeds this year.
 It seems too many light weight breeds were raised last year, so breeder hens were reduced about 50 per cent.
 California ships turkeys all over the country. This was a \$64,045,000 industry last year for the state's

Weapons Used Gangs Shown

WASHINGTON (H)—Spectators gasped during Friday's juvenile delinquency hearing when a witness produced a homemade "zip gun" that shoots .22 cartridges, an automatic pistol, a dagger, an ice pick, a switchblade knife and a 2 1/2 foot sword.
 Kenneth Marshall, 26-year-old Negro associated with the New York city youth board, used the arsenal to point out how rival juvenile gangs engage in no-holds-barred mass fights called "rumble." But sometimes the gangs just have a "fair" fight, he said — two individuals picked from each group have it out by themselves.
 Why do they fight, the Senate judiciary subcommittee wanted to know. The group is investigating juvenile delinquency throughout the country to see what the federal government can do to help reduce it.
 "To assert themselves, their status... to blow off steam," Marshall said. "If you ask most of them what the fight is about, you'll find they don't know or care."

Atom Info Swap Talked

WASHINGTON (H)—The United States is arranging to exchange information with Canada and Britain on the "effects of atomic weapons on human beings and their environment."
 The swap of data between the wartime atomic partners will "not involve information as to weapons Atomic Energy Commission said in a statement.
 It noted that AEC Chairman Lewis Strauss had referred to this "additional exchange" in an address at Richmond, Va., Thursday night. In that speech, Strauss said the swap was "for the purpose of improving our ability to defend ourselves against the effects of atomic weapons."
 Asked if a "definite meeting" of representatives of the three nations had been scheduled to bring about the exchange of information, an AEC information spokesman said: "Not to our knowledge." He added:
 "Probably one would have to be arranged although it might be that the exchange could be carried on by mail, I don't know."
 In using the term "additional" atomic information, the AEC statement offered no detail of what type of information is exchanged.
 The White House, in a response to queries, said it knew of no plans for a meeting on the exchange of atomic information. The British Foreign Office in London said it had nothing to add to Strauss' statement Thursday night.

Burglars Please Obey Advice

HAMILTON, Ohio (H)—Note to the next burglar of the MacGregor Ice Cream Co.:
 Please shut the door to the refrigerator.
 The guy who broke into the plant stole only \$37.91 from the office, but his failure to close a door cost \$50 in melted ice cream, company officials said.

City's Blast At Show For Royalty May End Benefits

By BOB THOMAS
HOLLYWOOD (H)—The week's work—
 The city fathers of Los Angeles aroused a teapot tempest over their claims the show for the King and Queen of Greece was in bad taste. It was the last straw for many performers who have donated their services for nothing.
 Many of these stars have long given their talents to entertain visiting royalty, high executives, sales conventions, beauty contests and other such events. When they work for free and then get criticized, the performers naturally are peeved.
 Everyone else who works those affairs gets paid, argued one top performer. "The doormen, waiters, bus boys and musicians get their money. The entertainers get nothing but abuse. It ain't right."
 It's going to be increasingly hard to obtain stars for any free shows but the most legitimate of charities.
 Actually both sides were in the

Kalamazoo Ain't No Joke, Sister

LANSING, Mich. (H)—Jennie Tourel, opera and concert singer, has learned Kalamazoo is no joke. And that goes for Oshkosh, too.
 Miss Tourel, being driven to Michigan State College for a concert, exclaimed: "Why there's that name on the street sign." It was Kalamazoo Street.
 "You know," she confessed, I had always thought the word 'Kalamazoo' was just a funny joke until my manager sent me a contract. Then I found it was a town I was going to sing in."
 Oshkosh was another joke, she said, until she was booked for a concert there, too.
 (Kalamazoo, incidentally, is a city of 57,704 in southwestern Michigan. Oshkosh's population is 41,048 and it's in eastern Wisconsin.)

Wright In Greek Controversy

The politics were upgraded to all that's free talent. And some of the performers failed to remember the best entertainment is good entertainment.
 The fan mag photographed tossed a dandy ball for dozens of stars gladly paid for couple. The players realize they can be their best friends or worst enemies.
 Such get-ups you have seen, Jeffrey Hunter and Barbara Rush came as a couple of penguins from a Charles Addams cartoon. Vera-Ellen in an obvious play "While Christmas" was attired in a white bathing suit bedecked with dozens of Christmas balls. She even had Christmas tree bulbs in her hair. Humphrey Bogart arrived late, disguised as Humphrey Bogart.
 Joan Crawford wore a costume from her latest picture, naïf, and Robert Cummings was wearing recognizable as a leopard, with kers and all. Marie Wilson, who cannot be disguised, was wearing a low-cut gown. Tony Curtis and Janet Leigh, who perhaps are angling for the forthcoming picture, came as Paris and Robert of Troy. Aldo Ray appeared in his brother's USC football uniform.
