Little Stuff" Favored Steer

CHICAGO (AP) — The 54th annual International Livestock Exposition reached its climax Tuesday with the selection of the grand champion steer of North America. Girls of America's farm boys hoped to win this coveted title principally on "Little Stuff," an Aberdeen-Angus owned by Carnegie Greathouse, 18, of Hindsboro. Little Stuff came to the fore Sunday when the junior champion, "Blackie," an Aberdeen-Angus owned by 19-year-old Richard E. Carey of Mineral Point, Wis., was disqualified on the ground the animal was over age. The junior yearling class in which it had been entered. Little Stuff had been adjudged reserve junior champion in preliminary competition Saturday. The first big award of the exposition came Monday when "Ken-edy Colonel," a 102-pound south-west owned by the University of Kentucky was named grand champion. Oklahoma A&M College showed reserve grand champion with also a southdown.

Alaska Cars On Tough Old Trip

FAIRBANKS, Alaska (AP) — Mrs. Mel Granite's car was perking along when it ground to a stop here after a trip to Nenana today. Mrs. Granite, of Fairbanks, drove one of 165 cars carrying more than 100 Fairbanks residents in a caravan to Nenana and back over a wilderness trail local people hope will soon become a road. On the way back Mrs. Granite's car stalled because of cooling system trouble. But Yankee ingenuity came to the rescue. Out came the thermos bottles—temperature was around zero—into the radiator of Mrs. Granite's car went all the coffee members of the caravan hadn't already consumed. It worked and Mrs. Granite came home on a ping and a cuppa.

Shape Up Goes Out On Waterfront

NEW YORK (AP) — New York state and New Jersey today put into operation a sweeping reform movement designed to eliminate rackets from New York harbor. A new bistate waterfront commission's powers over pier employment became fully effective today after months of preparatory work. The shrill shapeup whistle ceased to be a lawful work call to longshoremen. Instead, dock workers looked to 13 new employment information centers, operated by the commission. Police had special orders to watch for trouble at the employment centers, which were opposed without success in a federal court battle by the independent International Longshoremen's Assn. All longshoremen must have work permits, and their employers must be licensed. Many former criminals faced exile from the piers. It was the start of a new waterfront era under laws enacted by New York and New Jersey after state and federal probes uncovered widespread crime and corruption on Fort of New York piers. The move was aimed at rackets which allegedly milked the seven-billion-dollar shipping industry here of 350 millions yearly. A chief target of the reform laws was the shapeup system of hiring which required longshoremen to line up each day for jobs while hiring bosses selected the men they wanted. The system was open to kick-back payments and gave loan sharks a chance to extract heavy fees.
