

The Klamath Sportsmen's Association and the Herald and News are cooperating in offering a "Sportsman of the Year" and a "Landowner of the Year" award this year, both categories to receive \$25 for top place and honorable mention for second. The Sportsmen prizes will be awarded for the outstanding example of sportsmanship displayed by a hunter during the current deer and migratory bird season. The Herald and News award will go to the landowner voted as showing the greatest cooperation and understanding toward the hunting public. Your nominations are asked in deciding the winners of these two awards. Just fill in the blank below and mail to HERALD and NEWS, marked SPORTSMEN'S CONTEST, before midnight, Jan. 10. Final choice will be made by a panel of judges from the Sportsmen's Association and will be announced, with pictures, in the Herald and News one week later.

Pope Labels Television As Both Good, Dangerous

VATICAN CITY (AP) — Pope Pius XII called television "both a precious and a dangerous instrument" Saturday. He said it is "frightening to think that through the medium of television it is possible to introduce into the home the same poison of materialism and hedonism that only too often appears on the (motion picture) screen."

Warning Center For CD Named

SALEM (AP) — Salem was made a key point warning center Monday in the Oregon civil defense communications system. The key points are connected by special telephone lines with the Air Force. The other key points are Portland, The Dalles, Pendleton, Medford and Eugene. To notify civil defense of an air raid alert, the Air Defense Command places a call to all key point warning centers. From these centers, the messages are relayed to each county, and then to communities. Tests are made daily to each key point.

Third Municipal Judge Takes Over

PORTLAND (AP) — Portland's third municipal judge took office Monday. The position was added recently when the number of cases became too much for two judges to handle. Most of them are traffic cases. The new judge is Philip Michael Bagley. He appeared fully recovered from a recent collapse from overwork.

Seattle Expands Now 17th City

SEATTLE (AP) — Seattle expanded its city limits at midnight Sunday and became the 17th largest city in the United States. City officials said 40,800 new residents were brought into the city by annexation of a 10-square mile area north of the city limits. The annexation, voted by residents of the area last September, boosted the population to 544,000, placing the city ahead of Cincinnati and Minneapolis, city officials said.

The pope made his comments in a statement addressed to Italian bishops on the eve of Italy's first regular TV broadcasts. He said television was both dangerous and precious "because of the deep reaction it is destined to exert on the public and private life of the nation."

"We recognize fully this new conquest of science," the Pope said. "It is not difficult to understand the innumerable advantages of television and the many services it can provide man for his perfection."

"In these days," the Pope declared, "the cinema, sports and the hard necessities of daily work tend to keep family members away from home more and more of the time and to upset the natural development of family life."

"Television can serve to bring the family together again in the home and to keep them from the dangers of unhealthy places."

The Pope asserted that it also could exert a "beneficial influence in relation to the culture and popular education of the people." The Pope added:

"This must not, however, make us blind to another aspect of this important and delicate subject."

"Unlike the theater and the cinema whose audiences are limited to those who wish to attend, television comes into the home and is seen by persons of all ages. . . . Television programs are, in the most part, made up of films and theatrical spectacles and the number that fully satisfy christian morality is still too small."
