

DULLES VETOES RED CHINA BID

UN Charter Change Sought By Senate

WASHINGTON (AP) — Secretary of State Dulles said Monday Red China fails to qualify for membership in the United Nations because it does not respect "the elemental decencies of international conduct."

Dulles spoke out in a prepared statement to a Senate foreign relations subcommittee which began considering possible ways of amending the United Nations charter.

Sen. Wiley (R-Wis.), chairman of the committee, agreed with Dulles in a statement that the U.N. had "shortcomings and weaknesses."

But Wiley said proposals to amend the U.N. charter, as called for under the charter itself, should be aimed at preserving and strengthening the international organization—not at undercutting it or wiping it out.

Dulles, suggesting some possible charter revisions the Senate might like to consider, said a "special organ" might be created in line with President Eisenhower's atom-for-peace proposal.

ARMAMENT

This U.N. agency, Dulles said, could deal permanently with the problem of armament which carries so hideous a threat to the hopes of the peoples expressed in the preamble to the charter.

Dulles then referred to "the President's epoch-making proposal of Dec. 8, 1953, to the United Nations suggesting the creation of an international atomic energy agency."

Under the President's proposal, nations like the United States and Russia would contribute atomic material and knowledge to an atomic energy pool for peaceful purposes. The idea was proposed as a possible means of ironing out differences arising from the atomic arms race—a sort of pacelining attack on the Cold War problem.

Dulles and Soviet Ambassador Georgi M. Zarubin have held one conference aimed at setting a time, place and agenda for talks on the Eisenhower proposal.

Dulles, in his statement to the committee, said he must admit the high hopes of those who found the U.N. at San Francisco in 1945 have not been realized. He said there were two reasons: Over-optimism on all sides at the start, and Soviet lack of cooperation to the point of violating "the spirit and indeed the language of the charter."

Nevertheless, the secretary said, the U.N. "has a record of conspicuous accomplishment." Among these he listed the Israeli-Arab armistice, withdrawal of Soviet forces from Iran, aid to Communist-threatened Greece, creation of the Republic of Korea and the Republic of Indonesia, creation of the state of Libya and effective resistance to the armed aggression in Korea.

WEAKNESS

Dulles said "the greatest weakness" of the U.N. charter was the Security Council's "inability to discharge its 'primary responsibility for the maintenance of international peace and security.'"

This inability, he said, arises principally from the Soviet's frequent use of the veto power.

The Soviet veto, he said, has excluded from the U.N. "family of nations" Austria, Cambodia, Ceylon, Finland, Elre, Italy, Japan, Jordan, South Korea, Laos, Libya, Nepal, Portugal and Vietnam.

Dulles stressed that the U. N. must keep its "universality." Otherwise he said—that is, if it were restricted only to nations which got along together—the U. N. would lack "the character of an alliance."

He commented: "It is, of course, unlikely that there will be universality in the complete and literal sense. . . . Unfortunately, there are governments or rulers who do not respect the elemental decencies of international conduct, so that they can properly be brought into the organized family of nations. . . . That is illustrated by the regime which now rules the China mainland."

Day's News

By FRANK JENKINS

Stock market opens this morning on the higher side, but irregular after the first trading, however, remains active.

Hold higher. Cattle are wholesale meats are a few cents higher, but soybeans move higher, but beans hold at or around previous levels.

There is little strong demand for offerings in all the Chicago trade pits are very quiet.

The early morning disbursements in the agricultural market is acting might be expected to be quiet, which was the case when the market opened.

The Eisenhower administration is expected to export surplus products to friendly nations in the next three years.

The surplus off the market would tend to bring supply and demand more nearly into balance, leading to strengthen prices.

In the morning: Agriculture Secretary Benson appeared before the Senate Agriculture Committee and disclosed that administration will soon ask Congress for authority to use up to \$1 billion worth of surplus products to bolster the economies of friendly countries.

The proposed use of government surplus would be in addition to some \$2 billion worth of surplus to be kept off regular markets. These would be used for disaster relief, the federal lunch program and for poultry stockpiling.

ing the surplus, you say? I don't think more intelligent DESTROYING IT — or letting it rot or be ruined by the weather.

all this market stuff? REFLECTS WHAT THE PEOPLE ARE THINKING AND ABOUT BUSINESS.

I'm sure, is more important than what the crystal ballers say, and I think it's more important than what the government proposes to do. Whether or not we have a depression will depend on what the PEOPLE think and do. If they hope and act hopefully, pretty certain we'll come safely through the necessary period of adjustment from a dozen years continuous war boom.

ag-in-on-ag-in-note: Indian command in Korea is siding with the communists that release of the untried war prisoners would be the Korean truce terms. The reduction, which would result in milk costing 23 cents in stores and 23 1/2 cents per quart when delivered at home, was urged by William Weidel, state milk marketing administrator.

Weidel said the present price "reflects unfavorably against the marketing administration and the industry." The state-established minimum for this area is 22 1/2 cents a quart in stores and 23 cents for home delivered.

If the reduced price works a hardship on the producers and distributors, they can ask a hearing on having the price increased, Weidel said.

Northwest Buried By Heavy Snow

By THE ASSOCIATED PRESS

Another 5 to 18 inches of new snow was reported in the winter-weary Pacific Northwest Monday and the weather bureau said more heavy snow can be expected by Tuesday night.

At least three deaths were linked directly to the weather conditions in Washington State.

A child on a sled was killed by a car at Walla Walla; a woman was killed by a car on the Seattle-Tacoma Highway when snow impaired the driver's vision, and a workman was killed by a hoist at Bellingham.

The latter was Axel Hortlund, 52-year-old millwright. He was killed Monday morning when a frozen two-ton hoist on which he was working suddenly thawed and dropped four feet onto his head. He was employed by the Pacific Veneer and Plywood Corp.

Bonners Ferry in northern Idaho had 18 inches overnight and schools were closed at least until Wednesday. Schools were also shut down at Grangeville, Idaho, where drifting snow clogged roads.

A brief spell of relief from snow was forecast for Monday but it's expected to be the same old story Tuesday with a new storm moving in.

Spokane, which had 5 inches in 24 hours, had 11 on the ground and traffic was moving slowly. Seattle wrestled with 10 inches of snow on the ground. Pocatello, Idaho, had 36.

St. Maries, Idaho, Monday reported 18 inches since noon Sunday.

Temperatures ranged from a low of 8 at Omak to Olympia's 30. It was 10 at Harrington, 11 at Ephrata, 13 at Yakima, 14 at Spokane and in the mid-20's in the Coast.

Strong winds that whipped heavy snow last week had died down and highway crews were hopeful of keeping main thoroughfares open. County roads were closed in many places and travel was discouraged in others.

Porterfield Reports: Porterfield Has High Time In Nation's Capital; FBI Inspected, Benson Visited

(Editor's Note: This is the fifth in a series of stories by Rex Porterfield, Klamath-sponsored 4-H spud king of the nation, describing his recent trip to Washington D. C.)

By REX PORTERFIELD

January 14, 1954

A Cadillac met us at the hotel door and then asked us which way we wanted to go. Gee, it was some car! At first I was scared but I couldn't stand it any longer and started pushing seat buttons. A glass door ran up and shut the driver off from us. I brought it back down again and Bryant asked the driver what all the buttons were for and he told us to try them all out. I'd sure like to catch some guy's head in the window and push the button.

He first took us to the Tomb of the Unknown Soldier and explained that to us and Lee's Mansion. Next we drove out to Mount Vernon and stopped and went through it. The weather was so bad that we didn't get to see much outside, but they

sure had a lot of nice things there. Then we came back to the Lincoln Memorial and took some pictures of it. The driver drove us back to Douglas McKay's office, drove down one of the ramps and the garage door flew open. He backed into the basement and we took a private elevator up to the secretary's office. We looked around a little and then went down getting our picture taken getting into the limousine. Our next stop was the Washington Monument. We went to the top of it and really could get a view of all the capitol grounds. But I was scared by this time because Bryant told me I had to give a talk at the Kiwanis luncheon. When we got back to the hotel we went into the office of the Kiwanis Club and they told us to go on downstairs. We sat at the head table and there were certainly a lot of men there — about 200. I didn't have to make a speech. All they did was tell everybody that I was potato champion from Oregon. The president told an awfully good story on the speaker. He was a man who talks on the radio and covers all the news in Washington — he said to me "Rex, we have a surprise for you on the program today, the speaker of the day is a common later." Everybody laughed a lot. They sure were nice to us, bought our lunch and everything.

After we finished lunch we went up to Mr. Coon's office and got all of the dope on meeting Secretary Benson tomorrow. We visited the FBI office but I'm going to save that for my story tomorrow.

January 15, 1954

We went to the Federal Bureau of Investigation and saw all the guns, etc. they had taken away from criminals; we saw pictures of the fellows that came in on a German submarine and were told how they were captured. He also showed us all of the cities that they had planned to blow up. The lady that is doing some of our work for us saw one of these men who came into her office and had a letter typed. The FBI missed him by a half hour. Not until she heard the radio at midnight the next night did she realize who this man was. It was Haupt.

We saw pictures of Dillinger and even a cast of his head showing where he was shot by the FBI and the clothes he wore were in the showcase. Then we went into a big room where they teach the men how to direct traffic and to raid buildings.

We were shown how they identified the fingerprints and why our fingerprints were all different. Then they took us to the basement where they have a firing range and one of the special agents shot a 38 revolver and a machine gun at a target of a man, then he gave us the target and signed his name on it for us.

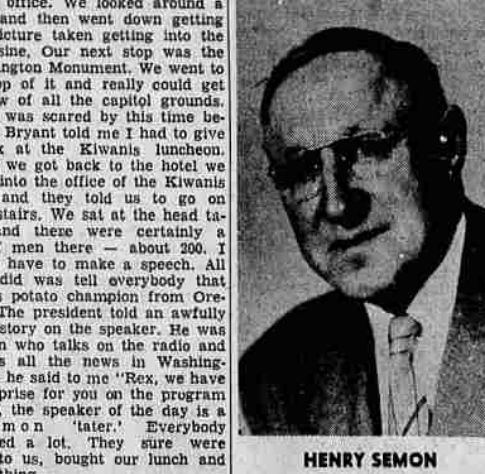

We had quite a tour of the place where they test blood and test the foods for poison on people that have been poisoned.

We went up to the Senate Office Building and saw all the pictures and trophies in Wayne Morris' office. Then we went to Mr. Alton's office, who is the 4-H club agent with extension service. He told us all about the workings of their office and that the building he works in holds 7,000 people and there are 8 miles of halls. They took us down to Secretary Benson's office and we waited for him until he was free and could take our potatoes. The photographer was there. Mr. Benson was sure nice. He autographed cards for us and wished us a lot of luck. His boys are in 4-H work too. Then we went to another office and gave some lady a story about the whole trip. I am so tired tonight that I can hardly see.

Hank Semon Will Seek 12th Term

A veteran Oregon state legislator, Henry "Hank" Semon, today announced his intention to file on the Democratic ticket for his 12th term in the Oregon State House of Representatives.

Semon, who has been a con-

HENRY SEMON

uous member of the powerful state Ways and Means Committee and chairman of that committee for five terms, has worked consistently for the "dollar and cents" interests of the taxpayer.

His work for the publication on official ballots of the amounts of state funds to be spent when an initiative or referendum is up for a vote of the constituents resulted in that action being taken at the last two elections. He also pushed through during the last term the amendment that provides for the publication of losses of state funds.

State finances next term, Semon stated, will loom large on the agenda of the legislators.

"With state income taxes taking a nose-dive over the previous year's high levels, legislators will be faced with two alternatives to keep the state on the black side of the ledger.

State operating expenses must be reduced by curtailing state-sponsored programs or by levying a small state property tax. The latter procedure has not been followed since 1947.

Constituents can help, Semon stated, by slacking off on demands for state funds.

Semon, pioneer Klamath County potato producer, member of the Farm Bureau and the Grange has also been pledged to help the farmer and today indicated his policy here and elsewhere in Oregon will not be altered if he is returned.

Three Die In Plains Storm

HELENA, Mont. (AP)—Montana dug out today after a new spearhead of an arctic storm battered the state, leaving three dead.

Strong winds, heavy falling snow and a winter thunderstorm which tossed lightning bolts yesterday combined to stall transportation and keep most of the state buttoned up for the third straight day.

Temperatures sank again early today to as low as 22 degrees below zero.

Two of the dead were killed in separate auto accidents attributed to hazardous driving conditions.

The third victim of the storm, Joe Ballzour, a 43-year-old ranch worker, died from exposure yesterday at Billings. He made his way to a ranch near there Friday with frostbitten hands and legs.

Snow, Ice Cover Roads

SALEM (AP)—Packed snow and ice made travel hazardous Monday on Oregon's mountain roads and at most Eastern Oregon points, the State Highway Commission said.

Between 7 and 16 inches of new snow fell overnight on the Cascade passes, and it was still snowing hard Monday morning.

Chains are needed for through traffic on the major highways except for the Oregon coast route.

The Pacific Highway was clear except for Siskiyou Summit.

Chains are required at Siskiyou Summit, Green Springs, Sisters, Santiam Pass, Willamette Pass and Ochoco Summit.

Motorists should carry chains in these areas: Government Camp, Timberline, Sunset Summit, Warm Springs Junction, Cascade Locks, The Dalles, Bend, Chemult, Meacham, La Grande and Astoria.

These points reported icy spots: Wilson River Summit, Astoria, Tillamook, Corvallis, Bly, Lakeview, Brothers, Pendleton, Baker, John Day, Enock and Basque.

The heaviest overnight snowfall was 24 inches at Wilson River Summit. The route was slushy.

Kidnap Pair Grabbed Quick

EUGENE (AP)—Police rescued Bobby Calvin Roberts, a 15-year-old service station attendant, one hour after he had been abducted by a robber Saturday.

The car carrying Roberts, Robert Lee Morris, 32, Florence, and Charles Roland Kibbe, 27, Eugene, was stopped by state police at Corvallis after an unidentified witness reported that the car driving north on the highway and that something apparently was wrong.

The boy said Morris took \$52.50 from the service station after threatening him with a pistol.

Morris was booked on a charge of armed robbery and kidnaping. Kibbe, who Sgt. Vern Hill said took no part in the affair, was booked on a charge of being drunk on a public highway.

Greenlease Tip Denied

LAS VEGAS, Nev. (AP)—The barber who claimed he saw a man take a suitcase from a police car at the time of the Greenlease kidnaping in St. Louis admitted to the FBI Saturday that his story was a hoax.

Frank Beninato, held here on a worthless check charge, now claims he was appearing in a Tampa, Fla., night club that night, and only told the story to get even with his wife and a former St. Louis police officer, Louis Shouder, who were, in Beninato's words, "mean to me." The FBI reported, Shouder said, Patrolman Elmer Dolan, who arrested kidnap-murderer Carl Austin Hall, have been indicted for perjury by a federal grand jury in connection with their testimony concerning their handling of two suitcases in which Hall said he carried the ransom money, of which more than \$300,000 is still missing.

Eugene Milk Price Drops

EUGENE (AP)—Milk will cost one cent a quart less beginning Feb. 1, Eugene producers and distributors decided Saturday.

The reduction, which would result in milk costing 23 cents in stores and 23 1/2 cents per quart when delivered at home, was urged by William Weidel, state milk marketing administrator.

Weidel said the present price "reflects unfavorably against the marketing administration and the industry." The state-established minimum for this area is 22 1/2 cents a quart in stores and 23 cents for home delivered.

If the reduced price works a hardship on the producers and distributors, they can ask a hearing on having the price increased, Weidel said.

Moon Eclipse Occurs Tonight

NEW YORK (AP)—Tonight, if the skies are clear, you can watch a full eclipse of the moon.

Easterners will have plenty of time to finish the dishes before the earth's shadow turns the silvery moon to a deep copper at 9:17 p.m., EST.

The darkest part of the eclipse lasts a half-hour but that's the middle of it. Some darkening of the moon can be noticed with the naked eye from 7:50 p.m. (EST) on, although the eclipse starts for observers at 8:40 p.m.

The total part of Monday night's eclipse ends at 9:47 p.m. (EST). Although some darkening will be noticeable until 11:14 p.m. Officially, the eclipse ends 12:12 a.m.

Park Gets Six Inch Snowfall

Six inches of fresh snow fell at Crater Lake National Park in the 24 hours ending at 8 a.m. today, bringing the total to 106 inches on the ground, an inch more than at this date last year. The ranger station also reported that 23 inches of snow fell in the 24-hour period ending Sunday morning. There have been 70 inches of new snow since the 14th and it was snowing hard this morning.

The road from Annie Springs to the rim is closed and travel is not advised on Highway 62.

The rangers also reported a total of 43 inches of snow on the ground at Oregon Caves. Heavy snow was falling there this morning.

Benson Goes Before Congress To Support Eisenhower Proposal On Flexible Supports

WASHINGTON (AP)—Secretary of Agriculture Benson said Monday President Eisenhower still is pledged to 100 per cent parity for farmers in the market place working for it.

Benson also told members of the Senate Agriculture Committee that 90 per cent mandatory supports are not the way to get parity income for farmers. His first appearance before a presidential committee this session vigorously defended the farm program whose basic commodities, has aroused opposition.

Benson also told the senators Eisenhower soon will ask Congress for authority to use up to \$1 billion worth of surplus products to help strengthen economies of friendly countries.

Benson said in the 1952 campaign he favored 100 per cent basic commodities—wheat, cotton, corn, rice, peanuts and tobacco—but this expires at the end of the year, and a flexible provision for 75 to 90 per cent of parity is scheduled to go into effect. Parity is a standard said by law to provide farmers a fair price in relation to the cost of things they must buy.

Under Eisenhower's recommendations, the flexible provision would be allowed to operate. Many farm state lawmakers want the mandatory 90 per cent level extended, however, and contend they have the votes to do it.

Sen. Johnston (D-SC) demanded of Benson how Eisenhower could carry out his 100 per cent pledge under a flexible support system.

The secretary said farmers could "very well" get higher than 90 per cent parity income with a flexible support plan, commenting "there's no limit" under such a system.

The burden of Benson's argu-

Lewis And Clark Celebration Set

SALEM (AP)—Oregon's part in the 150th anniversary celebration of Lewis and Clark's arrival in the Northwest will be planned by a committee appointed Monday by Gov. Paul L. Patterson.

Members are Dr. Burt Brown Barker, Dr. Lancaster Pollard and Mrs. Kelsie Osborne, all Portland; and Dr. W. L. Hay, Astoria.

The committee will work with similar committees of Washington, Idaho and Montana.

Oregon's part in the celebration will come in 1955, the governor said.

Each state along the route of the celebration plans to have its celebration 150 years after that state, Montana, therefore, would celebrate this year.

TOO COLD

WATERBURY, Conn. (AP)—The Waterbury Fish and Game Protective Assn. called off its ice-fishing party yesterday.

Reason: too cold. Temperature: above zero.

Bend Gets 13 Inches Of Snowfall

By THE ASSOCIATED PRESS

Drifting snow closed Jefferson County schools in Central Oregon Monday, and forecasters warned that more snow was on the way for Central and Eastern Oregon.

Little if any snow was forecast for Western Oregon, but icy highways were in prospect. Forecasters said there probably would be rain, followed by freezing temperatures, to glaze the roads in Northwestern Oregon, particularly in the Portland area.

New snow in Central Oregon drifted Sunday night, and kept school buses from operating in Jefferson County Monday. Officials closed the schools until the roads can be opened.

Bend measured a total of 13 inches of snow on the ground Monday, but schools were operating there. Prineville had 3 inches of snow, but 30 miles east of Prineville the snow was 9 inches deep.

Portland had upwards of 7 inches of snow over the weekend, but it was melting Monday, and the pavement was bare on many streets.

Weather forecasters said there might be a few more snow flurries in that area, but rain was more likely with freezing temperatures Monday night.

The snow blanketed Northwestern Oregon, but did not extend far south into the Willamette Valley. Eugene was without snow and other points also reported mild weather.

Freak Storm Hits Tionesta

A freak storm that centered around Tionesta and Timber Mountain Saturday night and Sunday morning did considerable damage to California Oregon Power Co. lines, according to officials of the company this morning.

Wet snow that clung to power lines, followed by cold winds causing ice to form on the wires to as much as six inches in diameter, split cross arms, broke poles and left a mass of twisted wires between Tionesta and Timber Mountain for a distance of about seven miles.

The worst part of the storm seemed narrow in scope. Traveling north it struck the Tulake area around 8 a.m. Sunday morning and disrupted practically every circuit from the sub-station there, causing outages most of the forenoon.

North of Tulake the storm did some damage in the Adams Point district where high winds whipped wires together burning out a good many fuses. This area was without electricity intermittently until 3 p.m. Sunday.

Coppo crews have service restored throughout the valley except in the Tionesta area where it is expected the damage will be repaired tonight or tomorrow morning.

Lions' March Of Dimes Auction Loot Piling Up; Show Set Tuesday Evening

Merchandise items are piling up in the Lions' March of Dimes benefit radio auction scheduled for Tuesday, Jan. 19, from 9 to 10 over KPLW.

Latest contributions include a ten inch birthday cake, decorated to order, from Mrs. Glenn Scott, 3313 Altamont; St. Francis Service, 4330 So. 6th, donated \$10 worth of Mobilgas special; Ray Byrnes, Asphalt Paving, has given five yards of crushed rock, delivered anywhere in town or the south suburban area.

Smith Bates Printing Co. has donated one box of envelopes, two reams of paper and a box of pencil carbon; Parker Pontiac and employees, a 1941 Pontiac coupe, in good running condition; from Al Stone, Standard Oil, an Atlas battery (for George Williams' 1940 Dodge); and from the Bronco Room in the Old Fort Tavern, Fort Klamath, four dinners for two.

Other donors have not specified their contributions yet. Included are Harry Hafler Furniture, Army Store, Oregon Woolen Store, Long Bell Lumber Co., Swan Lake Moulding Co., Suburban Flower Shop, New Method Cleaners, Lucas Furniture, H. B. Dexter General Petroleum Distributor.

Hal's Sport Shop, Shaw's Stationery, Derby's Music Store, B and B Electric, Leo's Camera Shop, Cliff Yaden's Service, Pelican Cafe, Gandy Jar, Miller's Department Store.

Drew's Menswear, Don's Mens and Boys Wear, Emporium, Herman's Mens Store, Dick Reeder Store, Clothes Mart, Goeller's Paint Store, Mrs. Louise Strowbridge, 2211 Bienn.

If the Tuesday night auction time does not dispose of all the merchandise, KPLW will give another hour from 9 to 10 p.m. on Thursday. Any merchandise left after that will be taken to the Summers Lane Auction Mart where John Argeligner, who will be auctioneer on the radio show, will dispose of the items with proceeds going to the March of Dimes.
