Trailer Dwellers Paying Property Tax, But They Ain't In Favor Of It

SALEM (AP) - The people who live in trailers are having to pay property taxes now, and they don't like it...

Stewart said he can't see why people who live in house trailers shouldn't pay their share of the cost of schools and local government...

Until Jan. 1, residents of trailers paid only a \$10 vehicle license fee for using the highways...

But since then, under an act of the 1953 Legislature, they pay property taxes...

The assessors collect the tax on the spot because they fear that the trailers might be moved before the tax is paid...

Stewart said, "because trailer residents should pay taxes like anybody else..."

Stewart said there are many hundreds of trailers in the state which will be taxed...

Some school districts, he said, have had to go to much extra expense to educate children in trailer families...

The tax varies in each county, depending on the county's ratio of assessed valuation to true valuation...

An example: on a \$2,000 trailer in a county with a 50 per cent ratio and a tax rate of 75 mills...

New Concept For Defense Supported

By EDWIN B. HAAKINSON WASHINGTON (AP) - President Eisenhower's "new concept" for defense, emphasizing air power and new weapons while making a four-billion-dollar spending cut...

Many Democrats withheld fire, saying they wanted to study the complex multibillion-dollar budget, but Sen. Maybank (D-SC) in an interview asked "expansion of our air power as fast as we can..."

And Sen. Douglas (D-Ill) questioned plans to cut back ground forces of the Army and Marines...

Chairman Short (R-Mo) of the House Armed Services Committee said he does not expect any sharp fight in the House...

Short said in an interview he got the impression Wilson "feels he could cut the budget even more, but he knows what he can get away with..."

Labor Racket Probe Slated

WASHINGTON (AP) - Rep. Bender (R-Ohio) Friday promised a "non-partisan, dignified" investigation of reported labor racketeering in any city in the country...

The House Government Operations Committee this week assigned the investigation to a subcommittee which Bender heads...

He said in an interview he wants to follow a carefully planned routine in digging into complaints that union leaders have extorted funds from workers or employers...

to have economic strength," Short commented. In the budget for the fiscal year which begins July 1, the President stepped up spending plans for the Air Force as well as for arms of the Navy and Marines...

These increases were more than offset by plans for cutbacks in manpower and spending of the Army and Navy. As a result, recommended outlays were held to about \$7 1/2 billions compared with about \$11 1/2, estimated for the current fiscal year, which ends June 30...

Chairman Short (R-Mo) of the House Armed Services Committee said he does not expect any sharp fight in the House...

Short said in an interview he got the impression Wilson "feels he could cut the budget even more, but he knows what he can get away with..."

Distance Swim Held "Tough"

VICTORIA (AP) - Famed distance swimmer Florence Chadwick said here Thursday night her proposed 20-mile swim across the Strait of Juan de Fuca would be the most difficult and coldest of her career...

She's scheduled to make the crossing aboard a tug Friday to study water temperatures and currents before reaching a decision this week-end whether to go ahead with the swim this summer...

Miss Chadwick has been offered \$7,500 by a paint company here if she attempts the crossing and another \$2,500 if she makes it...

"I guess I'd better bring along a fur-lined bathing suit," she said Thursday night upon her arrival from Seattle...

"I expect to make the crossing myself," she added, "I think that's already established..."

At least three other swimmers have said they intended to join Miss Chadwick on the crossing...

The latest challenge was made by Roy Sutter, of Los Angeles, a United States Army veteran...
