MARKETS AND FINANCE

Stocks

WALL STREET

NEW YORK (AP) — The stock market rallied Wednesday and pulled itself out of an early slump.

The turn ahead lacked any dramatic quality, but the pace of trading improved on the rise.

The range of change was around 2 points either way with the emphasis on the higher side of the list.

Trading amounted to an estimated 1,700,000 shares for the day, that compares with 1,870,000 shares traded Tuesday when the market slipped off into the sharpest drop of this year.

Grains

PORTLAND GRAIN

PORTLAND (AP) — No bids on coarse grains.

Wheat (bid) to arrive market, basis No. 1 bulk, delivered coast: Soft White 2.34; Soft White (excluding Rex) 2.34; White Club 2.54.

Hard Red Winter: Ordinary 2.24.

Wednesday's car receipts: wheat 3; barley 4; flour 11; mill feed 13.

CHICAGO GRAIN

CHICAGO (AP) — Buying by flour mills lifted wheat out of the doldrums on the board of trade Wednesday, cancelling losses running to more than a cent and substituting small gains.

Mill buying didn't start until late in the session and it was not as pronounced at Chicago as at Minneapolis, where prices jumped several cents at one time. It reflected an expansion in flour sales after a reduction on spring wheat bakery grades.

Other cereals followed wheat higher although in some cases early losses were not entirely made up.

Wheat closed 1 1/2-2 1/4 higher, March 2.15 5/8-1/2; corn 3/4-1 3/8 higher, March 1.52 1/2-5/8; oats 3/4-1 3/8 higher, March 77 3/8-1/2; rye 1/4-3/4 higher, March 1.19; soybeans 1/4 to — cents higher, March 3.27-3.26 1/2, and lard 7 to 20 cents a hundred pounds higher, March 16.85-16.82.

Tribal Election To Be Probed

WASHINGTON (AP) — An Indian Bureau official said Wednesday the Interior Department has sent an investigator to look into a complaint of irregularities in the tribal election of the Klamath Indians at Klamath Falls, Ore.

The official said the Interior Department, not the Indian Bureau, is conducting the inquiry. He said a defeated candidate for tribal delegate filed a complaint but added he knew no further details.

It was understood the complaint was made by Wade Crawford, former superintendent of the Klamath Agency.

Engine Recovery Progresses

MAUPIN, Ore. (AP) — Huge tractors, their strength increased by an arrangement of pulleys, pulled a 125-ton Spokane, Portland and Seattle Railroad diesel engine into a shallow stretch of the Deschutes River Tuesday.

Then a 2-inch steel cable snapped and work was halted temporarily.

The cab still was not out of water to make it possible to determine whether the bodies of the engineer and firemen were there.

The engine plunged into the swift stream the night of Jan. 31 when it hit a slide after rounding a curve. The two crewmen went down with the engine.

The current is so swift it was not possible to send down a diver to attempt recovery of the bodies.

Grain Growers To Hold Meet

TULELAKE — A group meeting called by the Tulelake Farm Center and the Newell Grain Growers Association, will be held Friday evening, February 19, at 7:30 p.m. in the Newell Elementary School.

The purpose of the meeting is to discuss the future of the small seed industry, with particular emphasis on alsike and red clover, and to conduct the first official meeting of Grain Growers Association. Since many farmers are interested in both clover and Hannchen barley it was decided to hold both meetings together.

Milton Miller, farm adviser of Glenn County, former extension agronomist, will report on his recent six month trip throughout the Midwest where he studied the future of the small seed industry. Ed Lewis, manager of Cal-Ore Rice Growers Association, Dos Palos, California, will discuss the future of cooperative marketing. Cal-Ore is one of the many successful cooperative associations in California. Lewis will answer any questions regarding marketing and management of a cooperative.

Stan Buckingham, just returned in Washington D. C., will present the results of the hearing. A short Alsike Clover Cooperative will be presented. Financially, this has been one of Cal-Approved's most successful years.

The recently incorporated Newell Grain Growers Association has filed with the California secretary of state, their articles in incorporation. The by-laws of this organization and marketing agreement have been drawn up by their legal counsel, Francis Kerner of Berkeley. The by-laws and marketing agreement will be discussed in detail.

Optional methods of financing or securing the plant will be presented. Since attendance at this meeting may determine the size of the plant, as well as to the location of the plant, it is important that a general cross-section of interested grain growers be present. Individual financial declarations must be determined as the success of this project depends upon these declarations.

Thomas Hall, in charge of the grain branch of the USDA, Washington, D. C., met with the Newell Grain Growers Association Committee on Saturday, February 13. Hall impressed the group that the future of the Hannchen market is dependent upon the sale of high quality Hannchen, which is in demand by the maltsters. Hall also said that the association would prove beneficial in the marketing of Hannchen.

All grain growers and clover seed growers are welcome to attend this meeting whether or not formal notices have been received by them.

Recruiting Head Visits Klamath

Major Max Weaver, commanding officer of the U. S. Army and U. S. Air Force recruiting main station in Portland and officer-in-charge of recruiting stations throughout Oregon and Southern Washington, arrived in Klamath Falls this morning on a routine inspection of recruiting installations.

He visited the local station in the Post Office Building.

Accompanying him back to Portland this evening will be Sgt. Donald Adams, local recruiting noncommissioned officer, who will spend Thursday there on business.

The Klamath Falls recruiting office will be closed Thursday and will reopen Friday morning.

Former Resident Dies In South

Word has been received here of the death of Joseph E. Bick, retired Southern Pacific agent, on February 11 in the Campbell Rest Home, Sunnyvale, California. He was 75 years old at the time of his death.

Mr. Bick was an S.P. agent in Klamath Falls for 10 years. He retired August 1, 1948, and moved to 861 Acatia Avenue, Sunnyvale, California.

Requiem Mass was celebrated at 9 a.m. in St. Martin's Church. Interment was in Santa Clara Cemetery.

Survivors include his widow, Calla F. Bick, Sunnyvale; three daughters, Mrs. Mary J. Pace, Santa Clara, California, Mrs. Claudia Loynd, Truckee, California, Mrs. Betty Molthan, San Francisco, California; and a brother, Robert Bick, a Southern Pacific agent in Truckee.

OFFICE MACHINES and supplies are now available from Bill Lehr at his establishment at 2013 South Sixth. Lehr is listed as agent for Royal typewriters, Dictaphone, Marchant calculators, Gestetner Stencil Duplicator and Steel Case office furniture. Factory trained service is offered by Lehr in all fields.

Testimony Heard In Damage Case

Attorneys for two men being sued for $10,000 as the result of an automobile collision on the Merrill-Tulelake highway in December, 1952, began interrogating witnesses Wednesday in Circuit Judge David R. Vandenberg's court.

The defendants, Walter T. Moore and Carl Gibson, are represented by Attorneys Edwin E. Driscoll and Ben Goddard.

The action was brought by Inez Lane, who claims she was injured in the crash. Her counsel is Attorney U.S. Balentine.

Tuesday the court and jury visited the scene of the accident a quarter of a mile east of Merrill.

John O'Neill, in front of whose home the accident occurred, testified that the highway was slick and snow was blowing at the time of the crash.

Another witness, Charles Caesar, told the court he was at the scene after the accident and observed road conditions were bad.

Before the testimony started Wednesday morning, Judge Vandenberg denied two defense motions to dismiss the action.

Two Men Face Check Charge

Two San Quentin Prison parolees were in Klamath county jail Wednesday awaiting arraignment in Circuit Judge David R. Vandenberg's court on bogus check charges.

The accused penmen, returned from the California prison to Klamath Falls Tuesday night by Deputy Sheriff Dal Reed, are Edward A. Hooper, 27, and Jerry Lee Maxwell, 26.

Hooper was indicted by the county grand jury on a charge of forgery. An indictment charging Maxwell with knowingly uttering and publishing a forged check was also returned by the grand jury.

Both accused men are alleged to have passed spurious checks at a Klamath Falls market in 1951.

KASRU Outing Scheduled

Pilots and guests participating in the Klamath Air Search and Rescue Unit fly-in to the Century Ranch are asked to be at the airport before 7:30 a.m. Sunday. Take-off time is scheduled for 7:30.

The Century Ranch, located about 90 miles from Klamath Falls at the edge of the high desert, is a land development project promoted by P.H. (Phil) Pitman.

Three hundred and fifty invitations have been sent to persons in Washington, California, Nevada, Utah, Idaho and Oregon, and about 200 planes are expected to be on hand for the all-day outing.

Activities for the day include group hunts for rabbits, coyotes, wild horses, arrowheads, or deer count and survey. Barbecued beef will be served at 1 p.m.

Planes are scheduled to leave for home between 3 and 4 p.m.

Elk Shipped To Midwest Ranch

A trio of white elk, a male and two females, left the Black and White Ranch, Poe Valley, Tuesday, for Oklahoma City where they are expected to start a new herd for the owner of a steel mill, R. W. Robberson. The young animals were sold by Mr. and Mrs. Melvin Feigl.

The animals were loaded on a truck by two employes of Robberson, Melvin Hoover and H. Spinill for the long trek south.

Robberson is expanding his private zoo which now includes a herd of buffalo in addition to numerous other species of animals and fowls.

One white elk has also been shipped to the Hill City Zoo, Rapid City, South Dakota, six went to a zoo in Calgary, Canada and a pair was given to the Washington Park Zoo, Portland. Six animals are left in the herd at the ranch in Poe Valley. Several young are expected this spring.

Death Claims Local Woman

A resident of Klamath Falls for 42 years, Mrs. Mary Vitoria Nani, died at Klamath Valley Hospital, Tuesday, February 16, following a week's illness. She was 62 years old and was a native of Alano di Piave, Italy. She came to America in 1912.

Mrs. Nani was a member of Sacred Heart Church and Camelia Chapter, Daughters of Italy.

The family home is at 3416 Lakeport Boulevard.

Surviving are her widower, Giovanni Nani, Klamath Falls; three daughters, Mrs. Russell Cotter and Mrs. Sandrino Pinelli, this city and Mrs. Pasquale Sartor, Weed; two sons, Harry, of Richmond, California and John, of Los Angeles; a sister, Mrs. A. Masocco, of Australia; an aunt, Mrs. G. Cometto, Klamath Falls; also nine grandchildren.

Recitation of the Rosary will be at 8 p.m. Friday, February 19, at Ward's Klamath Funeral Home. Funeral services will be held at 9 a.m. Saturday, February 20, from Sacred Heart Church. Final rites and interment in Mt. Calvary Cemetery.

New Benson Aide Heads Price Plan

By OVID A. MARTIN

WASHINGTON (AP) — Present controversial farm price support and crop control programs were turned over Wednesday to a new government official who has denounced them as measures designed to "socialize agriculture."

These programs have strong backing in Congress, in both Republican and Democratic parties.

The new official is James A. McConnell, a New York State farm leader named last Friday by Secretary Benson to be administrator of the Agriculture Department's Commodity Stabilization Service. He succeeds Howard H. Gordon, a North Carolinian who resigned over policy differences.

McConnell, a former official of the Grange League Federation Exchange, a big farm marketing organization with headquarters at Ithaca, N. Y., moved into his new office Tuesday and arranged to take over full control Wednesday.

The new administrator outlined his philosophy on government farm programs in a speech at Syracuse, N. Y., last Nov. 30.

In that speech, McConnell said the present wheat program "is one of the best examples of modern socialism we have in this country."

The wheat program, featuring production controls and high level price supports, was approved by more than 80 per cent of the wheat growers voting in a referendum last summer.

Benson has attacked present farm programs largely on the ground that they tend to price crops out of markets and create surpluses.

In his Syracuse speech, McConnell said wheat and cotton growers really do not want the present high supports extended despite some claims to the contrary, and he added:

"They are largely innocent dupes being manipulated by very clever professional socialists."

Union Leader Urges Action

VANCOUVER, B.C. (AP) — Organized labor in both the United States and Canada is entering a "year of destiny," Al Hartung, International president of the International Woodworkers of America (CIO-CCL), said here Tuesday.

Speaking before the 17th annual convention of the B.C. district of the IWA, Hartung, of Portland, said the union must adopt a firm course of political action.

Results of the November Senate and congressional elections in the U.S. would have far-reaching effects in Canada as well as the U.S., he said.

If the "reactionary" forces are not defeated in November, "you haven't seen anything yet of what they'll do to crucify labor."

Hartung said the IWA needs a strike fund now and will need one "more and more." He said it was the responsibility of the membership to set a fund up and he hoped such action would be taken at the next international convention "to see that the bosses don't win their battles because of starvation."

The president disclosed that the IWA is now engaged in a program of buying stock in big lumbering companies in the U.S. Northwest and B.C. so union negotiating committees could get complete financial reports sent to stockholders.

Potent New Hydrogen Bomb Hinted At By Specialist

CHICAGO (AP) A congressional atomic specialist hinted Wednesday the United States may have hydrogen weapons even more potent than a device that nearly 18 months ago tore a hole a mile wide and 175 feet deep in the floor of the Pacific Ocean.

Rep. Cole R-NY), chairman of the Senate-House Atomic Energy Committee, gave details never before discussed publicly of a 1952 thermonuclear test in the Marshall Islands. President Eisenhower has termed that test a first step in the nation's hydrogen program.

Cole said in a speech prepared for a joint luncheon of the 38th annual National Sand and Gravel Assn. convention and the 24th annual National Ready Mixed Concrete Assn. convention:

"That thermonuclear test of 1952 completely obliterated the test island in the Eniwetok Atoll.

"It tore a cavity in the floor of the ocean—a crater measuring a full mile in diameter and 175 feet in depth at its lowest point.

"Within . . . this crater, one could place 140 structures the size of our nation's capitol."

If this blast had been touched off in a modern city, Cole said, the resultant heat and blast would have completely devastated an area three miles in all directions from the point of explosion.

In all, he said, the 1952 blast would have blanketed an area of 300 square miles.

But this test was held almost a year and a half ago, Cole said, and he added:

"Security keeps me from commenting on where our hydrogen weapons program now stands, and from outlining the directions in which it is now moving. But I can assure you that it is moving."

Cole said this country has "in being" an entire family of atomic weapons, some of them 25 times more powerful than the missile that wrecked the Japanese city of Hiroshima in the late stages of World War II.

"We must now adjust our thinking to the prospect of an entire family of hydrogen weapons," he said.

Red Testimony Held Secret

WASHINGTON (AP) — Chairman Jenner (R-Ind) of the Senate Internal Security Subcommittee said Wednesday he does not know if he ever will seek Canadian permission to make public testimony from Igor Gouzenko.

Gouzenko is a former code clerk in the Soviet embassy in Ottawa given asylum by Canadian authorities in September 1945. He furnished them with evidence against a Red spy ring with contacts in this country.

Jenner and Sen. McCarran (D-Nev) went to Canada and secretly questioned Gouzenko on Jan. 4 under an arrangement, reluctantly accepted by the subcommittee, giving the Canadian government a veto over publication of any of his testimony.

Last week the Canadian Press reported that Canada was willing for Gouzenko's testimony to be made public if the subcommittee so requested. It asked only that 53 words be omitted, saying these involved names of persons against whom no charges could be proved.

Jenner confirmed he has not asked permission to make the testimony public, adding he didn't know if he ever would. In an interview, he gave no reason.

Iron Workers Out In Portland

PORTLAND (AP) — Wages, health and welfare benefits and vacation pay were in dispute at three struck Portland plants Wednesday.

The Schmitt Steel Co. had two disputes which closed it Tuesday. Boilermakers struck over wages and iron workers over a health and welfare plan.

The Poole, McGonigle and Dick steel plant was closed, also because of disagreement on health and welfare benefits.

The Portland Casket Co. was closed by a grievance strike, workers demanding that a discharged employe be given accrued vacation pay.

Democrats Hit Support Cuts

WASHINGTON (AP) — Sen. Aiken (R-Vt) said Wednesday some Democratic senators are playing politics with the decision of Secretary of Agriculture Benson to lower government butter price supports on April 1.

"Apparently some of my Democratic colleagues are running scared the way they get up and froth at the mouth," Aiken said in an interview. He is chairman of the Senate Agriculture Committee.

Half a dozen Democratic senators, headed by Sen. Humphrey (Minn), used the butter price reduction as a basis for slashing attacks in the Senate Tuesday on Benson and farm proposals of President Eisenhower.

Benson announced Monday that the government price support would drop from about 66 to 58 cents a pound, or from 90 per cent of parity to 75 per cent. Parity is a price standard designed to give farmers a fair return in relation to the prices they must pay.

Humphrey told the Senate this would be "a death blow" to the dairy industry and added that an administration "that can't figure out what to do with too much food, certainly never will be able to balance a budget."
