Sudan Riots Cause Rift

KHARTOUM, Sudan (AP) — A serious rift was reported Wednesday between Sudanese Premier Ismael El Azhary and Gov. Gen. Sir Robert Howe.

It was believed El Azhary disapproved of the governor's proclamation of a state of emergency and the postponement of the inauguration of parliament following Monday's bloody riots over the visit of Egyptian President Mohammed Naguib.

El Azhary's cabinet met Wednesday to discuss the dispute.

Authorities reported four more persons wounded in the riots had died, bringing the death toll to 34. They said 117 persons were still in hospital while the number of those with minor injuries was estimated around 200.

More than 250 were arrested in connection with the riots, authorities said, but only 34 still were being held.

Throughout Tuesday trainloads of fiery anti-Egyptian tribesmen who touched off Monday's riots left this capital. About 11,000 followers of the Proumma Ansari religious sect, clad in their white nightgown-like gallabiahs, were dispatched out of the city Tuesday and more were expected to leave Wednesday.

From Cairo Tuesday night Naguib in a nationwide radio broadcast implied that the riots Monday might have been fomented by the British. He referred to the British in the Sudan only as the "occupier."

Chicago Digging Out After Snow

CHICAGO (AP) — Chicago's worst snowstorm in 15 years left the city buried under a paralyzing foot of snow today.

The storm hit late yesterday and picked up momentum during the night. Traffic was tied in knots on boulevards and side streets. Hundreds of cars were stalled and had to be rescued by snow plows.

The storm blanketed the entire northern half of Illinois and main highways were blocked or limited to one-way travel some 40 miles south of Chicago.

Chinese Warn Of Russian Aims

TAIPEH, Formosa (AP)—Nationalist China's Premier Chen Cheng said today Russia is using the possibility of an Indochina armistice as bait to lure France from the Western camp and block ratification of European defense plans.

But, he told Nationalist officials, he doesn't think the French will bite.

He predicted that Russia will be forced to show her hand on Asian questions at the Geneva conference on Korea next month.

President Hits

pear before congressional investigators.

And he declared that no one has ever been "authorized to suggest that any subordinate, for any reason whatsoever, violate his convictions or principles or submit to any kind of personal humiliation."

The President said it is up to Congress to see that its procedures are "proper and fair" but for the government employes under him he set out these rules:

1. "Every governmental employee in the executive branch whether civilian or in the armed services, is expected to respond cheerfully and completely to the requests of Congress and its several committees. . . It is, of course, assumed that they will be accorded the same respect and courtesy that I require that they show to members of the legislative body."

2. "Officials in the executive branch of the government will have my unqualified support in insisting that employees in the executive branch who appear before any type of executive or congressional investigative body be treated fairly."

McCARTHY CONFERENCE

McCarthy promptly called a news conference at the capitol to read his own statement.

"Apparently," he said, "the President and I now agree on the necessity of getting rid of Communists. We apparently disagree only on how we should handle those who protect Communists."

McCarthy said he intends to go right on investigating communism, and added:

"If a stupid, arrogant or witless man in a position of power appears before our committee and is found aiding the Communist Party, he will be exposed. The fact that he might be a general places him in no special class so far as I am concerned."

The senator said he has no present intention of calling Secretary Stevens before his investigating committee this week, but that he may call some winesses connected with the Peress affair.

He declined to identify them.

McCarthy had tentatively scheduled a session with Stevens for Thursday but called it off. He said Sen. Symington (D-Mo), who is in Europe, had asked that it be deferred until he returns. Symington is due back Saturday.

3 POINT CODE

In his 800-word statement, Eisenhower outlined a three-point code he said ought to be followed in combatting internal communism:

"1. We must be unceasingly vigilant in every phase of governmental activity to make certain that there is no subversive penetration.

"2. In opposing communism, we are defeating ourselves if either by design or through carelessness we use methods that do not conform to the American sense of justice and fair play.

"3. The conscience of America will clearly discern when we are exercising proper vigilance without being unfair. That conscience is reflected in the body of the United States Congress. We can be certain that its members will respond to Americans' convictions and beliefs in this regard."

Eisenhower said he and everybody in the executive departments recognizes Congress' right to "investigate into every phase of our public operations."

Observing that there ought to be a true spirit of cooperation between the branches of government, he said such cooperation "is possible only in an atmosphere of mutual respect."

Eisenhower took another indirect swipe at McCarthy in replying to the first question put to him when he finished reading his prepared statement.

The President was asked for comment on McCarthy's demand for an explanation of why R. W. Scott McLeod was stripped of his hiring-firing authority by Secretary of State Dulles.

Eisenhower shot back that the responsibility for administrative assignments within any particular department is the sole responsibility of the head of the department.
