House Committee Votes To Continue Corporation Tax

WASHINGTON (AP)—The House Ways and Means Committee voted Tuesday to continue the present corporation income tax for one more year, and wipe out a two billion dollar reduction scheduled automatically under present law for April 1.

Only two Democrats—Rep. Mills of Arkansas and Gregory of Kentucky—voted against the move, strongly urged by President Eisenhower.

The committee decided to put the corporate rate into a general 800-page bill overhauling almost all of the nation's tax laws.

Under present law, a number of cuts are scheduled April 1 in the excise rates, sometimes called sales taxes.

The top corporation income tax rate, now 52 per cent, is scheduled to drop automatically to 47 per cent April 1. President Eisenhower has urged a one-year extension of the present rate to help reduce the federal deficit.

At one time the President's proposal had stirred strong opposition, including promises of a fight by Rep. Daniel A. Reed (R-N.Y.), Ways and Means chairman. Also, there was widespread talk of a compromise at a 50 per cent corporation income tax rate.

Committee members said much of the corporation tax had melted, however, because of other tax cuts in effect or planned this year, notably business benefits provided in the general tax revision measure. If approved by the House and Senate, it would reduce revenues from individuals and business by about \$1,300,000,000 the first year and more later, chiefly through more liberal deductions.

Previously, Republican committee members had ruled out any effort to deal with major tax rates in the revision bill. The evident decision to shift tactics came at a private caucus late yesterday, after a series of meetings involving Republican congressional leaders, President Eisenhower and Secretary of the Treasury Humphrey.

jewelry, women's handbags, furs, cosmetics, luggage, sporting goods and other items.

Plans call for it to provide also for cancellation of reductions scheduled April 1 on other goods—liquor, automobiles, gasoline, tobacco, beer and wine.

In all this maneuvering, Republicans are hoping to build up strength to try to defeat a Democratic move to write into the revision bill an increase from \$600 to \$700 in individual income tax exemptions. This would cut income taxes by 2 1/2 billion dollars a year.

The exemption increase is strongly opposed by the administration.
