By DOROTHY ROE  
AP Women's Editor

If more American husbands would teach their wives the ABCs of finance, there would be fewer divorcees, in the opinion of Margaret E. Kennedy, one of the few women in the country in active partnership in a New York Stock Exchange member firm.

**KLAMATH COUNTY COUNCIL**  
By Mrs. Hagen Moore

The topic for discussion at the meeting Tuesday, March 2, at the Klamath County Council PTA meeting Tuesday, March 2, at the YMCA, was the series of articles on education that are running in Collier's magazine.

Carl Hovind, superintendent of Klamath County Schools, explained that articles of this type will continue for the next 10 to 20 years. Through these situations do not apply to Klamath County schools, many people may think they do. How said he felt there may be a need for explanation of interpretations and opinions and the school board is willing to give time for discussion on any given point of education. He said, "As PTA officers, don't let these things worry you."

Charles McLin, principal of Pelican School, recommended that discussion sessions be conducted to acquaint parents with true facts concerning articles of this type.

The meeting was conducted by the president, Mrs. Hagen Moore. Mrs. Moore announced that applications for PTA scholarships must be in the Portland PTA office by April 1. "I'm constantly amazed," says this pink-checked petticoat tycoon "at the number of otherwise intelligent, capable women who haven't the faintest idea where the family money comes from, how much there is of it, or what they would do if their husbands suddenly dropped dead."

Mrs. Kennedy, a young and feminine-looking widow and mother of two children, has established two financial "firsts" for women. She was the first woman account executive of the investment counsel firm of Van Strum and Towne, first woman to be appointed a vice president of a large mutual fund sponsor and several years ago became the first woman wholesaler of mutual funds in the country when she formed her own firm, Margaret Kennedy Co. Last year she was admitted as an active general partner in the Stock Exchange member firm of Seligman, Lubetkin and Co.

A specialist in finance management, she makes frequent lecture tours around the country explaining her "woman's dollar" program. She explains:

"This all came about when I realized the awful paradox that, although women spend most of the family money, they often know little about the family's future planning, and aren't hep to the best ways of investing for the future."

"There are too many men who say to their wives—'Go ahead and buy what you want; I'll pay for it.' Often the wives have no idea how much the family can afford to spend, whether their husbands have unlimited funds or whether they are on the edge of bankruptcy."

"There was, for instance, the case of the wife of a client of our firm who called frantically on Christmas Eve to say that her husband had just had a heart attack and was in the hospital. Although there was a \$5,000 diamond bracelet under the Christmas tree for her from her husband, she didn't know whether the family had money enough for the hospital bill. When her husband's firm reassured her, she still was worried."

"But when the husband recovered, do you think he explained anything to her about their finances? No indeed. He just said—'Now don't you worry, honey, I'll take care of everything.'"

"That's the trouble with American husbands. By being too protective, they are making financial morons out of their wives. Under such circumstances, who can blame the wife who spends money faster than her husband can make it? She just doesn't know any better."

at the home of Mrs. Dannelley, Wednesday March 10.

Room decorations were won by Mrs. Taylor's fourth grade. Another prize was won by Mrs. Goodard. Mrs. Ross won a floral arrangement for proximity of a birthday to Founders Day, February 17.

It was announced that Mrs. Ralph W. Stearns will show her colored pictures of her 1893 European trip at the next meeting.

A group of girls, Gail Nersteth, Phyllis Dannelley, Sue Ramsby, Cheryl Metler, Margaret Scholer and Joan Meador, sang, Ann Henderson sang at the piano.

The dining room was decorated with spring flowers for the refreshment hour. A Founders Day cake was served and past presidents were seated at a special table. Chairman of the refreshment committee was Mrs. C. E. Pierce, assisted by Mrs. E. Meador and fourth grade mothers assisting.

**CONGER**

## Color TV Seen For Oregon

**PORTLAND (AP)**—Network color television programs will be available on two channels in Oregon and Washington by December, the Pacific Telephone & Telegraph Co. reported here Thursday.

The present channel, which now takes only black and white, will be converted to color use by the time a second new channel is ready before the end of the year, the company announcement said.

This is for the coaxial cable service from Sacramento running now to KBEZ at Medford and to the Portland stations by way of Eugene and Salem. The same color service then will go north to Tacoma and Seattle by microwave relay.

The office here said it had no information on when color would be available on the Seattle-Yakima-Spokane line but assumed planning for it was in the program.

Since the color system approved by the Communications Commission is received on regular sets as black and white, present sets will not be affected—although they will not receive color. Sets which will receive color cost around \$1,000 and have a small screen.
