

Red Tainted Unions Dying After Ouster From CIO

Nixon Tells Of Defense Planning

PHILADELPHIA (AP)—Vice President Nixon told a Philadelphia Bulletin Forum audience last night the United States has adjusted its thinking to the point "where we will now fight on our own terms."

Nixon, in the forum's keynote address, said U.S. armed strength and military planning is being rearranged "to carry out that policy," a plan which he said has already borne visible fruit.

"In not one area of the world," he said, "have the Reds gained this year—and in many areas we have made gains. For the first time in a generation we are experiencing peace and prosperity at the same time."

He said much of the credit for this successful shift can be traced to President Eisenhower as well as the National Security Council, Secretary of State John Foster Dulles and the "defense team" composed of Defense Secretary Charles E. Wilson, Army Secretary Robert T. Stevens and Navy Secretary Robert B. Anderson.

He said the United States must aid the Associated States in Indochina because a Red victory there would mean the eventual loss of all Asia to communism.

He said the present situation in the Far East can be summed up thus:

"If Southeast Asia falls, if it comes under the Communist domination or Communist orientation, what happens to Japan? Inevitably by necessity it must become an

more than four years ago on grounds of Communist domination are in trouble and fading fast—even before Congress gets very far in efforts to curb Red-run unions.

The workers themselves seem to be abandoning them as whole blocs shift into CIO or AFL unions. It remains to be seen whether union leaders suspected of communist sympathies are left behind or taken along.

Congress is studying proposals to empower the Subversive Activities Control Board to label Communist-dominated unions and to

deny them the legal right to operate until Communists are removed from leadership.

GENERAL ELECTRIC

For a good example, take what is happening at the General Electric Co.'s big plants at Schenectady, N.Y., where considerable electronic and experimental work is carried on.

This long has been the main stronghold of the United Electrical, Radio and Machine Workers (UE), which quit the CIO in 1945 while in the process of being expelled.

Officers of UE's Local 301 at Schenectady, representing 20,000 workers, recommended Monday a switch to the CIO's new International Union of Electrical Workers (IUE), and the CIO-IUE expects to take over after a membership meeting next Monday. This would be a heavy blow to UE, whose officers have repeatedly refused to tell congressional committees whether they were Communists.

600 members or more when ousted from the CIO. Reliable sources estimate they now are down to between 200,000 to 250,000.

The one CIO-ousted union which seems to be holding its own is Harry Bridges' International Longshoremen's and Warehousemen's Union, which still dominates the West Coast waterfront. It is listed in a Labor Department directory as claiming 65,000 members.

NEW AFFILIATIONS

Here is how some of the other CIO-ousted unions are doing:

Farm Equipment Workers—Absorbed by UE. Many locals were snatched by the CIO United Auto Workers.

Marine Cooks and Stewards—The AFL's Marine Cooks union is attempting to take over in a current NLRB election. Hugh Bryson, president of the CIO-ousted marine cooks union, is under federal indictment for allegedly false filing of a non-Communist affidavit with the NLRB.

Fur Workers—Ben Gold, the union's president, now is on trial here on charges of falsely filing a non-Communist affidavit.

Food-Tobacco Workers and Professional Workers—Memberships of both unions have been absorbed by other unions.

American Communications Assn.—Radio operators recently voted this union out of the American Cable & Radio Co., which carries overseas military messages.

Hollywood Said Good Church Town

STILLWATER, Okla. (AP)—A pastor who preached there for 12 years scoffed at reports of Hollywood's sinfulness.

"Hollywood," said the Rev. Louis H. Evans, a Presbyterian minister, "has more spiritual zip than any place I know."

Evans was a speaker at Oklahoma A&M's three-day observance of Religious Emphasis Week.

Apartment Renting New Bunko Game

DETROIT (AP)—A blonde with a pony-tail hairdo and her male companion were sought by police today after renting the same apartment eight times and bilking eight families of \$495 in deposits.

The pair rented a \$90-a-month apartment last Friday, police said, and then advertised it for rent at only \$65. They did a land-office business and fled a half hour before police arrived to collect them and their rental deposits.

MINE UNION

Another of the unions booted out of the CIO—the Mine, Mill and Smelter Workers—seems to be disintegrating too. Several major locals, including Mine Mill's No. 1 Local at Butte, Mont., have voted to join up with the CIO's steelworkers.

Workers will make official their choice between the Mine Mill union and CIO United Steelworkers at a National Labor Relations Board election March 22. Other Mine Mill union and CIO-United Steelworkers at a National Labor Relations Board election March 22. Other Mine Mill locals already have been absorbed by John L. Lewis' United Mine Workers.

These unions probably had 600,
