

### New Live Polio Vaccine May Be Good For Lifetime

DETROIT (AP) — Dr. Albert B. Sabin, Cincinnati virus expert, today reported big steps toward a new kind of polio vaccine which might give lifelong protection.

He announced finding "tame" living polio viruses which have been used successfully in vaccine tests on monkeys.

Although still alive, these viruses are harmless "cousins" of regular polio virus, and don't cause sickness. Because they are alive, they presumably would be far more powerful in creating protective antibodies than killed viruses, such as used in the Salk vaccine.

The antibodies created by living virus could last for years even perhaps a lifetime.

Much more work needs to be done on this type of vaccine, Dr. Sabin, of the University of Cincinnati Medical College, told the Michigan Foundation for Medical and Health Education.

He expressed opinion there are still some unanswered technical questions about the vaccine developed by Dr. Jonas E. Salk of Pittsburgh.

A main question is how effective killed viruses are in creating antibodies, and how long such antibodies last, he said.

Another is how many thousands or millions of killed viruses are needed for one vaccination. If the number is too high, it may be impossible to supply enough virus to vaccinate millions of children and young adults, Dr. Sabin said.

The virus for vaccines now is grown only in monkey kidney tissue, he explained, and there is a limit to its availability.

Dr. Salk is expected to report new findings on just such questions at a meeting tonight in New Orleans.

Dr. Sabin's prepared paper did not imply that the Salk vaccine is not safe.

He said the final answer whether any vaccine actually gives protection can come only from carefully controlled experiments on hundreds of thousands of children. Such tests of the Salk vaccine are scheduled soon, with support of the National Foundation for Infantile Paralysis. The foundation supports the studies of both Salk and Sabin.

The "tame" viruses appeared when huge numbers of dangerous virus were being grown on kidney tissue.

By special methods, Dr. Sabin and co-workers found that some had changed or mutated—become genetically different—so they lost their polio punch, and these strains were separated and continued.

The studies must continue to learn whether there is any chance these viruses could change back again to become dangerous. Also, a search is being made to learn if nature already has created, in humans, any better strains of tame virus.

**POLITICAL TOUR**  
BUENOS AIRES, Argentina (AP)—Leaders of President Juan Peron's all-powerful government party today launched a vigorous campaign tour Thursday in preparation for vice presidential and congressional elections April 25 as they are sure to win.

### Church To Hold Concert

The 33 voices a cappella choir of the Multnomah School of the Bible, Portland, Oregon, will present a sacred music concert at 7:30 p.m. Friday, March 12, in the Bible Baptist Church, 2244 Ward.

Lauren B. Sykes, director of the choir, has attained an outstanding reputation among Northwest music circles in serving as Northwest Regional chairman for the American Guild of Organists, associate conductor and organist for the Portland Symphony Choir and as organist for the Portland Symphony Orchestra.

The concert program will feature many of the various liturgical themes in the field of sacred music including Bach's, "Now Shall the Grace" (Cantata No. 80); Scott's, "The Creation," and also the popular Negro spiritual by Bron-Wright, "Wish I was in Heaven Bet'n Down."

Music critics of Oregon and Washington have widely acclaimed the pleasant and artistic manner of singing by this outstanding choral group. Arrangements are delivered by the choir to appeal not only to the musical tastes of the audience but also to their intelligent comprehension of the program.

Assisting in narrating the different phases of the choir's presentation will be Wilma Miner, of Bellingham, Washington; Kenton Thielen, of Albany; Robert Brichoux, of Woodlake, California. There will be no admission charge, and the public is cordially invited to attend.

### Farm Loan Group Plans Meeting

The Klamath-Lake National Farm Loan Association will hold its annual directors meeting in the banquet room of the Willard Hotel, Saturday, March 13, according to Secretary-Treasurer H. E. Hamaker.

The association, formed in 1927, is a member of the National Farm Loan Association, and Hamaker has served the organization as secretary-treasurer since 1939.

C. D. Putz, regional manager for Oregon, from the Federal Land Bank at Spokane will be the principal speaker.

The meeting will start with a luncheon at noon, for stockholders and guests. Courtesy parking stickers have been sent out with invitations, Hamaker stated.

### Tear Gas, Fire Hoses Used To Halt Rioting Prisoners

CHICAGO (AP)—Nineteen prisoners in Cook County's overcrowded jail rioted for more than seven hours yesterday before they surrendered after a barrage of tear gas shells and streams of water from high-pressure fire hoses.

The disheveled prisoners, soaking, shivering and gasping, stumbled out of a cell-block dayroom on the jail's third floor after a final hour of defiance late last night.

Three of the 19 suffered injuries in the stormy battle the inmates had waged with guards, police and firemen. Four guards also were injured, none seriously.

The thwarting of a jail break was blamed by Sheriff John E. Babby for touching off the siege by the prisoners. All were confined to the maximum security section of the jail and were considered dangerous. The ringleaders were described by officials as

a condemned murderer and a bank robber, who was overcome by tear gas fumes in leading the assault against the prisoners, had steadfastly refused to bargain with the rioters.

"They will get a diet of tear gas—no food," he said. Another jail official said overcrowding of the jail, which houses nearly 2,000 inmates, contributed to the riot. The jail was built to accommodate 1,305 prisoners.

More than 52 tear gas shells were fired into the dayroom, which measures 30 by 100 feet. Firemen poured water in through broken windows and through ports inside the building.

Chief Patrick Tuohy of the sheriff's police finally yelled to the rioters: "All right, any of you that want to come out, walk out backward one at a time."

right, we give up. We're coming out." Earlier the prisoners had cursed and shouted at guards and police who had attempted to persuade them to return to their cells.

And each time the officers attempted to storm the door of the dayroom they were met with a barrage of debris and sharp jagged pieces of porcelain broken from toilet fixtures. When gas shells were fired the prisoners would cover themselves with wet blankets.

The prelude to the riot occurred when guards discovered a 2½ by 5-foot panel removed from the ceiling of one prisoner's cell. The 28 inmates in tier O3 were searched and ordered to their cells. Only seven complied. Two others, at their own request, were removed to other tiers.

The remaining 19 barricaded refused to come out unless they were guaranteed no punishment

and would not be blamed for an attempted jail break.

### Loggers Escape Death in Fire

CARY, Miss. (AP)—Fifteen loggers escaped flaming death last night by swimming a river minutes ahead of a vast forest fire.

Forester Mac McMillan said the men pulled themselves from the Sunflower River as flames swept to the edge of the opposite shore. Four loggers who escaped earlier said the men's lives depended on whether they could reach the river before being cut off by the converging flames.
