Chavez Wins Test Vote In Senate

WASHINGTON (AP)—A solid phalanx of Senate Democrats has turned back a Republican attempt to unseat veteran Sen. Chavez (D-NM). By so doing, they successfully defended their slim one-vote margin over the GOP in the Senate.

All of Chavez' 47 Democratic colleagues joined with five Republicans and independent Sen. Morse of Oregon last night to defeat the ouster resolution 53-36. Chavez did not vote.

As a result, Chavez now has a firm hold on the Senate seat he has occupied since 1935 and the Democrats still outnumber the Republicans in the Senate 48-47.

The defeated resolution declared that the 1952 election in which Chavez outran Republican Patrick J. Hurley by about 5,000 votes was "No contest" and that Chavez' seat was vacant.

The resolution was based on the report of the Republican majority of the Senate elections subcommittee, which said after a 14-month probe that there were so many flagrant violations of New Mexican election law in 1952, it was impossible to tell who really won. The subcommittee majority at no point criticized Chavez' own conduct.

Chavez hailed the vote as a vindication of "the honor and the reputation of my state and 7,000 election officials . . . who participated in the conduct of the 1952 election."

Had Chavez been thrown out of his seat, New Mexico's Republican Gov. Edwin L. Mechem could have named a Republican to fill the vacancy.

Just before the vote on the resolution was taken, the Senate struck down by an identical 53-36 vote a compromise offer by the Republicans to leave the seat vacant until a special election.

Chairman Barrett (R-Wyo.) of the elections subcommittee said after the two votes he believes the New Mexico election issue is set-

led as far as the Senate is concerned. However, Justice Department lawyers plan to go before a grand jury in Albuquerque to establish that an investigation is under way and thus to lay the basis for getting impounded 1952 election ballots for study after the Senate committee is finished with them. The subcommittee, following its

\$200,000 investigation, concluded ballots cast in New Mexico were that about one third of the 240,000 invalid.
