SKYROCKETING DEMAND for '54 Buick has exploded Buick into third place in sales among all cars. In the entire state of California, mind you, not just in one "hand-picked" isolated area.

Why is Buick selling right alongside the very lowest priced cars? For one thing, record-breaking thousands fell in love with the sheer, bold, completely new beauty of Buick.

And, they acclaimed the host of spectacular, new features... such as the wrap-around, panoramic windshield... the surging, stepped-up power and practical economy of the new Fireball V-8 engines.

Buick's rising popularity means Buick dealers are more than ever volume dealers... that means top trade-in to you. The result... you're the one who profits!

See Buick... drive Buick. Then you'll buy Buick.
