

# Senators Oppose Foreign Veto On Use Of H-Bomb

By JACK BELL  
WASHINGTON (AP)—Key senators of both parties made it clear today they are opposed to giving Great Britain or any other ally a veto

on American use of the hydrogen bomb.  
Sen. Hickenlooper (R-Iowa) pointed out the issue with a declaration in the Senate yesterday that former President Truman was "not correct" in saying that a World War II American-British agreement not to use the atomic bomb without the other's consent still was in effect.

Truman, in Kansas City, had "no comment" on Hickenlooper's contradiction of his statement, but said, "The record speaks for itself." Truman and others agreed the 1943 understanding would not cover the H-bomb.

**NOT SATISFACTORY**  
Asserting that Hickenlooper was "absolutely right," Sen. Knowland of California, the GOP floor lead-

er, said in an interview that the agreement was "not satisfactory and was changed." He added that he wants no future agreement of that kind.

British officials have given their opinion that the former agreement no longer holds.

"Any agreement that gives any other nation a veto on our use of atomic weapons, on which our very existence may exist, cannot be justified," Knowland declared.

Sen. Byrd (D-Va.), a member of the Senate Armed Services Committee, said that as he understands the Eisenhower administration's military policy "there will be no massive retaliation unless the Russians attack us."

"If we have time to consult with our allies, well and good," he said.

"But if we are attacked, we will strike back and there will be no time for any consultation."

**RETALIATION**  
Secretary of State Dulles has indicated that a situation might arise in which such retaliation would be launched in response to communist aggression which did not involve a direct attack on this country.

Sen. Maybank (D-SC) said he

thinks it proper to consult with allies about attempts to outlaw use of hydrogen weapons. But if war comes, he said, it will be all-out from the start "and we can't afford to have any commitments that would tie us down."

Chairman Wiley (R-Wis) of the Senate Foreign Relations committee said the 1943 agreement has served its purpose and he sees no reason to renew it now.

Wiley said it is obvious, however, that the British would have

to be consulted on American use of their bases to launch H-bomb or A-bomb attacks in case of war, and Knowland agreed.

But Sen. Kefauver (D-Tenn) said "I certainly think Britain should be consulted before we use the

hydrogen bomb," and added: "In fact, I think the decision on its use ought to be made through the North Atlantic Treaty Organization."

Kefauver's apparently was a minority voice among his colleagues.

## Doctors Approve Interest In Sex

CHICAGO (AP)—Two doctors said today the resumption of sex life seems more important to heart-attack victims than when they can go back to work.

"It is a welcome sign of good adjustment," Dr. Jerome G. Kaufman of New York and Dr. Marvin Becker of Newark, N.J., told the American College of Physicians.

"If the sex drive is greater than the fear of sudden death, one has good material for rehabilitation."

# We Graduated With 3 Degrees

For we have to know a lot about Meats—Fruits and Vegetables—and Groceries! For you want the finest quality possible in all three — at low everyday prices. We know that you want to buy ALL your needs at one time — and you want to save time

doing it. Then, in addition, you want good assortments. Add all this to EASY PARKING and you have the recipe for a good place to trade—every week!

Specials THURS., FRIDAY & SATURDAY
