

"THEY'RE DONE," comments Margaret Dotson, right, as Cheryl Wiley tests the steaming cupcakes just removed from the oven. The girls are members of Shasta 4-H Cooking Club. Practice at Fyock's in an all-day session gave club members experience in speaking and performing before an audience, gave added experience in demonstrating, and helped build confidence for entry in demonstration contests when Spring Fair rolls around. The annual fair this year is April 22, 23 and 24, and Basinites are cordially invited to attend any and all days. Part of the fair will be exhibits, part special contests, part demonstrations. Demonstrations are divided into several parts: introduction, the actual doing, summary, and followed by a question and answer session. Demonstrations are in many fields of activity, including cooking, sewing, forestry, sheep, knitting, dairy, etc.

Reds To Release U. S. Soldiers

BERLIN (AP) — Russian army headquarters notified U.S. officials here Tuesday they are releasing two American soldiers seized by a Soviet patrol on the East-West zonal border in Bavaria Monday. The men were seized by about 20 Russian soldiers and one Red

army officer 200 yards inside the Western frontier Monday afternoon, U. S. authorities said. They were on jeep patrol.

Alfalfa Meet To Be Held

A public meeting to discuss the establishment of alfalfa dehydration operations here will be held Friday evening, April 9, starting at 8 p.m. at the Henley Grange Hall.

British Economy Said Improving

LONDON (AP) — Chancellor of the Exchequer Richard A. Butler said Tuesday Britain is making steady progress toward better times, but warned "the present decline in U. S. activity must be closely watched."

He offered the nation a balanced budget with neither new taxes nor major tax relief in the 1954-55 fiscal year that opened April 1. "This is a moment when neither tax increases nor tax remissions are possible or called for," Butler told the House of Commons. "I shall make no changes for changes' sake and so for the second year in succession I shall raise no new taxes."

Following the film Conrad will speak and cover the following subject: types of equipment necessary to set up a dehydrating operation; cost of installation; operating labor requirement; acreage requirements for economical operation; speed of harvesting which may permit a possible third cutting each year; various types of finished products; processing costs.

A question and answer period will follow his talk. "The high protein content of hay in this area lends itself to selective market," stated Mack, who indicated that a study is being made of possible market outlets. Some of the growers have become sufficiently interested to make a survey last year to see how much alfalfa would be available on their acreages for dehydration, he added.

fact that the public is welcome to attend this meeting.
