

Scholarship To Be Awarded

The Oregon Library Association will award the Marsha M. Hill Scholarship for \$150 to the outstanding applicant for one year's study at the University of Washington School of Librarianship.

The candidate should have completed four years of college, satisfied University of Washington School of Librarianship entrance requirements and indicate his intention to take a library job in Oregon for at least one year after receiving the library degree.

The Marsha M. Hill Scholarship is awarded each year to the person who shows promise of contributing most to the field of library service. Funds for this scholarship have been made available through the generous donations of library friends and librarians throughout the state. It is hoped that through donations of this type that this scholarship can be awarded annually and that it can be an important aid for encouraging high caliber people to enter the library profession.

Barley Seed Rates Proved

Work conducted by Tule Lake Farm Advisor, Ken Baggett, this year, on barley seeding rates proved that under 1953 growing conditions, a 75 pound per acre seeding rate of Hanchen barley produced higher yields than seeding rates up to 139 pounds per acre or seeding rates as low as 23 pounds per acre. The farm adviser says that most years a 75 pound seeding rate for Tulelake is sufficient. He suggests never seeding over 100 pounds per acre.

Cub Scouts Pack 73

Cubs and their families went to the "Land of Oz," made by the Cub Scouts, for the Riverside PTA Cub Scout pack No. 73 meeting on March 25 at the Riverside School gymnasium.

Every one put on glasses and hats with green designs made by the cubs. Mrs. Leonard Shill's den cubs made the "Cowardly Lion." Mrs. Alexander Luft's den cubs made the "Scarecrow" and the "Emerald City" scenery. Mrs. Lloyd Pepple's den cubs made the "Tin Woodman" and the "Rain-bow." Mrs. Irvin Warner's den cubs made the "Wizard" and a table display of the yellow brick road that led to the Emerald City.

THE FINAL TOUCH, a cherry crowning glory, and pineapple cottage cheese salad is ready for the table. The master chefs in "operation cherry" are Roy Billings, left, and Don Owens, members of the Lindley Heights Cooking Club. These and many other 4-H'ers gained practice Saturday in a Demonstration Day at Fyock's, preparatory to entering demonstration contests at the annual Spring Fair, April 22, 23 and 24. Spring Fair will give hundreds of 4-H'ers all over the county an opportunity to acquaint more people with their activities, to show the worthwhileness of 4-H by exhibiting their accomplishments, and to share with others the year-long projects of 4-H. Klamath County at large is invited to mark their calendars to include Spring Fair.

Coal Miners May Face Cut

WASHINGTON (AP)—Some soft coal producers were reported Wednesday considering asking John L. Lewis for a miners' wage cut but the big employer organizations which do the bargaining with Lewis are believed opposed to the idea.

Lewis, just back from a month-long vacation in Florida, is certain to fight any such proposal.

Still, the industry is seeing hard days. Production began to fall off with the loss of the industry's export market, when war-wrecked European mines were put back into operation. Now the business downturn, particularly as it affected the steel industry, is depressing coal even more.

Farmers Said Favoring SS

WASHINGTON (AP)—Rep. Secrest (D-Ohio) said Wednesday 89 per cent of farmers polled in his district favored coming under the social security program.

Secrest gave results of the poll in testimony prepared for the House Ways and Means Committee. He strongly supported President Eisenhower's proposal to expand social security coverage, benefits and taxes.

Coal production during the first three months of this year was down 19 per cent from last year, which was a poor year, too. Output for the first quarter is estimated by the Bureau of Mines at 90 million tons compared with 107 million in 1953.

AIR CRASH

PALMA DE MALLORCA, Spain (AP)—A French bomber with engine trouble crash landed on the beach of this Mediterranean island Wednesday killing five persons aboard. There were seven survivors. The plane was en route from Algiers to Paris.

Bagging production is hurting the mine owners, who pay members of Lewis' United Mine Workers (UMW) Union a basic daily wage of nearly \$20. Mines are averaging only two or three days work a week. Steel mills are producing

nearly enough in their own output to take care of their reduced mill demand, without buying from commercial mine operators as the steel industry normally does.

Library Group Plans Meeting

The importance of books and reading to Oregonians and the improvement of library services throughout the state will be the topic of discussion at a Library Institute to be held in the Klamath Falls City Library Saturday, April 10.

The institute is one of a series of 14 district meetings being held in Oregon this spring under the sponsorship of the Oregon State Library and the Oregon Library Association. The Lake County Library, the Klamath Falls City Library and the Klamath County Library are sponsoring the program in this area.

Refugee Flies To Mexico

MEXICO CITY (AP)—Latin America's most famous political refugee, Victor Raul Haya de la Torre of Peru, flew toward exile in Mexico Wednesday following his release from five years and three months of virtual house arrest in the Colombian embassy in Lima.

Carrying out its recent agreement with Colombia, the Peruvian government let the 59-year-old leader of the outlawed Aprista Party take a commercial plane for Mexico City Tuesday night.
