

CONSTRUCTION OF THE \$350,000 concrete grain storage elevator of the Winema Elevator Co., Tulelake, is well under way. The structure replaces the wooden elevator which burned to the ground last fall at a loss of \$1 million. The burned building was filled to the brim with grain.

**WALL STREET**  
NEW YORK (AP) — The stock market advanced on quickened trading Tuesday with the railroads in the lead.  
That put the market on average into new high ground for the year again in the rise that started a week ago.  
Gains were modest, usually between 1 and 2 points at the outside with most changes small.  
Trading came to an estimated two million shares for the day. That compares with 1,790,000 shares traded Monday when the market remained unchanged on average.  
The rails joined with the rails early in the advance, and steels followed along. Also displaying firmness were the motors, some aircrafts, a few metals, and the rubbers and utilities.

**CHICAGO GRAIN**  
CHICAGO (AP) — Feed grains pushed higher on the Board of Trade Tuesday while wheat held steady and soybeans slipped lower under the weight of profit taking.  
Small receipts of cash corn and a fairly good movement of cash oats out of Chicago supplied the stimulus for buying in feed grains.  
Wheat attracted limited buying on prospects of sales soon to West Germany, Spain and Japan. The advance was halted after the weekly weather bureau report noted material improvement in crop prospects in Texas and Oklahoma from week end rains.  
Wheat closed 1/4-1/2 higher, May 2.14 1/2; corn 1 to 2 cents higher, May 1.52 1/2; oats 1/4 lower to 1/2 higher, May 75; rye 1/2 to 1 cent higher, May 1.06; soybeans 1 1/2 lower to 2 cents higher, May 8.78 1/2; and lard 32 cents, lower to 7 cents a hundred pounds higher, May 21.10.

# McCarthy-Army Row Setup Eyed

WASHINGTON (AP) — Two Senate investigators' subcommittee aides go before their bosses today to discuss how they hope to back up the "blackmail" charges they helped Sen. McCarthy (R-Wis) level at Army officials.  
The two, Chief Counsel Roy M. Cohn and Chief of Staff Francis P. Carr, are key figures in the McCarthy-Army row which the subcommittee is exploring in public sessions starting April 22.  
McCarthy has stepped temporarily from the subcommittee's chairmanship while his fellow members investigate the dispute. He was reported "somewhere in Arizona" nursing a "throat ailment."  
Secretary of the Army Robert T. Stevens, a storm center in the dispute, was said to have agreed at a closed meeting with the subcommittee yesterday to give the senators an advance statement "of all the accusations" the Army will make against McCarthy, Cohn and Carr, together with a list of prospective witnesses.  
Ray H. Jenkins, special counsel for the inquiry, told a news conference he thought Carr and Cohn would appear as counsel for McCarthy. He withdrew that interpretation, however, when Sen. Mundt (R-SD) said McCarthy himself had not made exactly clear whether they would have authority to speak for him.  
Mundt, presiding over the inquiry, told newsmen the idea of getting the advance statements is to try to prevent either side from gaining an unfair advantage by springing a "surprise package" of testimony.

**MANEUVERS**  
TAIPEH, Formosa (AP) — President Chiang Kai-Shek and high-ranking American officers Tuesday watched 6,000 U. S.-equipped Nationalist marines seize a Formosan beach in realistic amphibious maneuvers.  
A U. S. destroyer joined Nationalist warships in a simulated bombardment of the beach before the Marines landed.

# Traffic Light Time Changed

Drivers in the business district of Klamath Falls will notice a new traffic signal plan in operation, to facilitate faster movement of cars on Main.  
A change in timing in the traffic signals will increase speed of cars in the business district from the original 12 miles per hour speed to 19 miles per hour.  
In order to effect this average speed increase, the timing on the traffic lights has been set so that two blocks will be on the same color simultaneously, rather than every other block the same color. The Sixth and Seventh Street intersection lights will be red or green at the same time; as will the Eighth and Ninth Street intersection lights.  
"Theoretically," says City Engineer E. A. (Taxi) Thomas, "under ideal conditions it should work. But the drivers will have to stop hesitating to window shop, look for parking places or get in the proper lane for a turn they must think about the drivers behind and increase their average speed."

# Coleman Quits State Police

Richard F. Coleman, for the past two and a half years a traffic officer for the Oregon State Police, has tendered his resignation effective April 23, according to Sergeant Tichenor.  
Coleman plans to move to Oregon City, with his wife and two children, where he will take over his father's hardware and sporting goods business. The elder Coleman is retiring due to poor health.  
Who will replace Coleman on the force here, if his resignation is accepted, has not been announced, Tichenor stated.

# Bright Lights Lead to Bash

EUGENE (AP) — Police said they were looking, but still hadn't found the truck driver who couldn't stand the bright lights of a following car any longer, and stopped and smashed them.  
Mrs. Ida Lewis of Ft. Lewis, Wash., made the report to state police here Monday. Her headlights were smashed.  
She said she had been following a truck for several miles with her lights on bright. South of here the truck stopped and forced her to halt. The driver said she hadn't come dimmed her lights, and she smashed them with an iron bar.

# Police Alert for Vandalism Suspects

The local state police office was notified this morning to be on the lookout for two young men, believed to be teenagers, who early this morning broke into a Union Service Station at Oak Ridge.  
Shortly after leaving the station a fire broke out and it is believed the robbers were responsible. The two lads were believed heading for Los Angeles and local authorities were asked to try and apprehend them here.

# APPEAL

ROME (AP) — The organ of Italian communism, the newspaper L'Unita, devoted half its front page Tuesday to appeals against the hydrogen bomb. It featured opinions of such widely divergent sources as party chief Palmiro Togliatti and the Vatican newspaper, L'Osservatore Romano.

# Al Ullman Speaks Here

Farm prices and power are the two major issues that the people will vote on in this year's election, according to Al Ullman, Democratic candidate for Congress, who spoke at the Langell Valley Community Center last night.  
The farm program of the present administration is taking us back down the road to subsistence agriculture," Ullman said. "The prosperity of this district will be completely undermined under that plan."  
Ullman is unopposed in the Democratic primaries. He is a realtor and builder from Baker, Oregon.  
Ullman assured his listeners that the federal program on the Columbia is not only sound business but sound American in the tradition of Teddy Roosevelt. The program is paying out years ahead of schedule and at the same time is providing the cheapest power in America for farms, homes and new industries.

# Scandal In Housing Told

WASHINGTON (AP) — President Eisenhower Tuesday named Norman P. Mason, 57, of North Chelmsford, Mass., to run the Federal Housing Administration while a variety of government agencies probe into possible multi-million dollar scandals running back into the Truman administration.  
The new acting FHA commissioner, a lumber dealer, succeeds Guy T. O. Hollyday, Baltimore mortgage banker whose resignation, accepted Monday, was the first signal of the swiftly developing affair.  
The allegations of irregularity, disclosed shortly afterward by Housing Administrator Albert M. Cole, centered on fleecing of home owners on loans for modernization and repair, and over-appraisal of apartment projects for mortgage insurance.

# French Still Holding Fort

HANOI, Indochina (AP) — Vietnamese artillery blasted the defenses of Dien Bien Phu again Tuesday but the Communist-led rebels still held back the massive all-out assaults the French Union forces expect before the weekend.  
Under a virtual umbrella of 75 and 105 millimeter batteries, the Vietnamese sent out squads to gather up the hundreds of their comrades killed or wounded in vain attempts earlier to take the 1,200-foot eastern hill position the French seized Saturday.  
The vital stronghold is only 1/2 of a mile from the deeply breached heart of Dien Bien Phu. The French still held it Tuesday, after beating off violent rebel counterattacks Sunday and Monday.  
Heavy fog under the leaden skies of the threatening spring monsoon cut the French aerial assaults against the jungled hills surrounding Dien Bien Phu. But the American-supplied fighters and bombers ranged far to the northeast and north of Hanoi, blasting out big sections of the main highways over which Red China sends thousands of tons of war equipment to the rebels.  
The worsening weather offered a boon to the Vietnamese, who still could send in human waves of foot soldiers, where the French tanks and other mechanized equipment would bog down as the area grows muddier.

# Sportsmen End Drive

Klamath Sportsmen's Association members are reminded to be sure and turn in their membership books prior to the 8 o'clock meeting at the city library basement, says Harvey Morgan.  
The current membership drive will end tonight, he said, and stubs must be in the hands of the committee prior to the meeting.  
A full evening's entertainment is planned, including announcing the winners of the membership drive. Refreshments will be served.

# Reformatory Men Win Diplomas

HAGERSTOWN, Md. (AP) — A full-scale commencement exercise — complete with speakers, a band and refreshments — was held here yesterday for 20 young men graduating from high school.  
After the ceremonies the graduates went back to finish out their terms in the State Reformatory for Males. They had been awarded certificates for completing study courses equivalent to high school while in jail.

# Swallowed Pencil Needs Surgery

HARTFORD, Conn. (AP) — Michael Egan, 8, put a four-inch pencil in his mouth as he worked out a stickler on his fourth-grade arithmetic test yesterday in Southwest School.  
"I let go and it went down my throat," he told a doctor. "I tried to cough it up but it went right down."  
It took surgery at St. Francis Hospital to get the pencil out of his stomach.

# ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.  
Limited space prohibits telling you more here, but if you will write me I will reply at once and tell you how I received this wonderful relief.
