AMAZINGLY EASY NEW WAY TO CLEAN RUGS, FURNITURE

WONDERFUL FOR CARS

Scuff marks and oil stains on door upholstery and car seats wipe away in a jiffy with Golden Lady super spot remover on the job. Just moisten a cloth with Golden Lady and watch it wipe away even the most stubborn spots. For a complete beauty treatment for your car, spray its upholstery with Blue Lady cleaner and wipe clean with a damp cloth. A quart bottle provides more than enough mixed solution to clean the entire interior of your car.

Save 83% On Average Cost of Rug Cleaning

Sending out a 9 x 12-foot rug for cleaning generally costs \$10.80, if your cleaner follows the standard rate of ten cents per square foot. Using marvelous new Blue Lady, you can do the job yourself for only \$1.75 (cost of a quart bottle in most stores), plus the few cents it costs you to operate your vacuum cleaner for a few minutes.

That means savings of about \$9 in just thirty to forty minutes.

'Golden Lady' Is Super Spot Remover

The Ideal Solution for removing stubborn spots and scuff marks from fabrics and upholstery is Golden Lady. This new Spray O'Clean product works wonders in removing mud, oil, grease and other spots which defy many brands of spot remover.

Users report instance after instance where Golden Lady has removed spots that have withstood laundering, dry cleaning, kerosene and "home-type" cleaning fluids.

Frequently a fine rug or an expensive drapery will have its appearance marred by one or two small, persistent spots that defy attempts to remove them. That's the place for Golden Lady! Dampen a cloth with this super spot re-

Useful On Drapes, Slip Covers, Fabric

There's hardly a cleaning chore in the house that defies these bright new Spray O'Clean products.

Drapes marked by sticky little fingerprints? Use Golden Lady super spot remover.

Grease spilled on the dining room rug? Use Golden Lady to remove the spot. Blue Lady to clean the entire rug.

Worried about moth damage to costly woolen blankets? Mothproof them by cleaning with marvelous new Pink Lady.

Dozens of uses for this remarkable trio of cleaners have been reported in areas where Spray O'Clean products have previously been introduced. Once you try them, and learn how effectively they clean textile fabrics of all kinds, your own ingenuity will probably suggest a number of other ways in which they'll prove useful to you.

A number of users, for example, report that Golden Lady is a marvelous emergency spotter for clothes, and that the use of Golden Lady to remove spots has frequently saved them the cost of a complete dry cleaning job.

One trial of these Spray O'Clean products will convince you that you'll want to have some on hand in your home.

Blue Lady brings you other new conveniences, too. Because it is fast acting, and fast drying, you can clean your rug in the afternoon and entertain company on it the same evening. Using Blue Lady eliminates the three to seven "ruggless" days you normally spend waiting for your rug to be returned from the cleaners.

Another feature is Blue Lady's "blendability," which makes it possible for you to clean a portion of a rug or sofa one day, then return to finish it the next. An uncleaned portion may be embarrassingly evident, but it disappears in a jiffy when cleaned—without leaving a telltale line to show where you resumed cleaning.

Exceptionally stubborn spots and grease marks are quickly removed by applying a small amount of Golden Lady super spot remover to rugs or fabrics, while bright new Pink Lady, similar to Blue Lady, contains an added substance to give longlasting mothproof protection to rugs and fabrics.

Each of these three products is a specialized remedy to household cleaning problems. Each is remarkably easy to use, and each is backed by the money-back guarantee of the manufacturer, Spray O'Clean Products, North Bend, Oregon. Try any or all of these three new cleaners. If you're not delighted with their results or satisfied that they are superior to any competitive rug or upholstery cleaner on the market, return unused portion for complete refund of your purchase price.

Spray O'Clean News

JUST SPRAY IT ON

AND WIPE CLEAN

Spray Your Way Through Housecleaning Chores

Just spray it on and wipe clean—it's as easy as it looks in the photographs above! Mix Pink or Blue Lady cleaners with water. Spray the mixed solution on rugs or upholstered furniture, then wipe clean with a damp cloth. Presto! Fabrics look fresh and new again, cleansed of the accumulated dirt and grime that shorten their life and detract from their appearance.

Spray O'Cleaning gives a real beauty treatment to rugs and furnishings, reawakening original lustre and softness you may have forgotten.

Many users report that they were unaware how drab and dingy their furnishings had become, until Spray O'Cleaning showed them for the first time how much dirt remained in rugs and furniture after it was supposedly cleaned by other methods.

Dirt and grime collect relentlessly in even the best-kept homes. But, because the process is a gradual one, it takes something like Spray O'Cleaning to demonstrate just how much original beauty has been covered over by filmy layers of dust particles.

For proof of Spray O'Clean's cleaning magic, watch the towel with which you wipe furnishings after spraying. You'll be amazed at how quickly the towel becomes soiled and smudged, because of Spray O'Clean's extra-deep penetration and the thoroughness with which it routs out dirt. For this reason, however, it is important that you begin with a clean cloth and turn it frequently, to avoid wiping dirt right back onto the fabric.

Spray O'Clean Products Eliminate Drudgery From Housecleaning

Brightest news of the week comes from the three lovely Ladies who make up a family of remarkably effective new cleaning products. Labeled Pink Lady, Blue Lady, and Golden Lady, the trio promises to beautify your furnishings easily and inexpensively.

Exceptionally easy to apply, they make rugs, upholstered furniture and draperies look like new again . . . in a matter of minutes. Best of all, by eliminating old fashioned drudgery these new cleaners let you spray your way through housecleaning.

'Pink Lady' Mothproofs As It Cleans

A fast new way to mothproof rugs, drapes and upholstery is now available locally. The product is Spray O'Clean's magic Pink Lady rug and upholstery cleaner, which mothproofs as it cleans.

Pink Lady does both jobs at once, making fabrics spotlessly clean and fresh in appearance, while providing them with long-lasting protection against damage by moth larvae.

It is based on the same chemical formula developed by Spray O'Clean company for its remarkable new Blue Lady cleaner.

Each performs the same cleaning tasks quickly and effectively. The only major differences, other than the color of the products and their labels, are these: Blue Lady cleans, while Pink Lady cleans and mothproofs. Blue Lady costs only \$1.75 per quart in most stores. Pink Lady only \$1.95. For the added protection against moth damage provided by Pink Lady, the price difference is negligible.

DRIES IN A JIFFY

Each of these new cleaners makes short work of traditionally difficult or inconvenient cleaning tasks. Pink Lady (and Blue Lady, as well) offers a real shortcut to the lengthy drying period required with many other kinds of cleaners. A full-sized rug or an entire living room suite can be cleaned after lunch with Pink Lady, and be completely usable by dinnertime. There's no lengthy

heavy work of cleaning for you; by combining the force of pressure spraying with the insistent cleansing action of surging foam, they cut through accumulated grime and dirt . . . working it right to the surface of the fabric, where it's quickly and easily wiped away with a damp cloth.

The basic product of the three is Blue Lady, a super-safe and extra-effective cleaning formula. Its sister product, Pink Lady, has the same marvelous cleaning qualities, with one important addition. Pink Lady contains a mothproofing substance which gives rugs and upholstery long term protection against damage by moth larvae.

A quart of either Pink or Blue Lady, mixed with a gallon of water, forms enough mixed solution to clean an entire 9x12-foot rug plus one or two average size chairs, or enough solution to clean an entire living room suite.

Golden Lady is used full strength, and gives you a fast-acting cleaner to remove the most stubborn spots and stains, including oil and grease marks.

"mustn't touch" periods, and no week-long wait for furnishings to be returned from the dry cleaners.

Completely laboratory tested, Pink Lady and Blue Lady are extra safe to use. They're harmless to the most delicate fabrics and upholstery, and they're non-toxic to you. Each is non-inflammable and non-explosive, as added protection to you. Each has been developed to be as completely foolproof as modern science can make it.

Try Pink Lady or Blue Lady this week, see how they'll renew the lustre, the color, and the freshness of tired-looking furnishings. It's all so easy to do—just spray it on and wipe clean.
