Britain, U.S. Talks Said Planned If Geneva Fails

LONDON (AP)—Britain has moved a step closer to the Indochina war arena. American and British sources say she has agreed to join Allied talks on united military action in the Far Eastern battlefield. The report came as London newspapers voiced fears Britain would drift into a serious split with the United States over Allied action in Indochina. Moscow radio asserted that British refusal to join in "new aggressive plans" had "isolated" the United States at Geneva. The American-proposed parley is expected to take place within the next three weeks in either Washington or Singapore. Informants said it would discuss plans for: 1. Underwriting any sort of political settlement in Indochina that might emerge from the Geneva parley. 2. Saving Indochina from being overrun by the Communist-led Vietminh if the peace talks fail. The Conservative Daily Mail said public opinion in the two countries "can hardly be blamed for its bewilderment now." "Policy, at least in Washington,

Navy Security Checks Reported

NEW YORK (AP)—Adm. Robert B. Carney, chief of naval operations, says Navy security checks were as tight as possible even before Sen. Joseph R. McCarthy's Army probe. Carney, speaking yesterday before the Public Relations Society of America, was asked if the Navy made "any tightening of security checks" stemming from the Ft. Monmouth probe by the Wisconsin Republican senator's subcommittee. "No, we have not," said Carney, adding: "They were as tight as we could make them. . . Within the limits of the investigative resources we had, we were doing the most we could to make damn sure we were locating and getting rid of the subversives." "We have no place for them."

Also planned is a special grand procession for each party when troop representatives will place a troop contribution for the "World Friendship Fund," in a special container to help pay expenses for American campers in other countries and for residents of other countries who come to America.
