WALL STREET

NEW YORK (AP)—The stock market declined Tuesday in a moderate manner.

Although the fall was one of the steepest of the past two weeks, losses seldom went past a point. There were plenty of small gains scattered throughout the list.

Business was dull at an estimated 1,700,000 shares. That compares with 1,800,000 shares traded Monday when the market was rising a little.

White House Seeks Anti-Red Rulings

WASHINGTON (AP)—The government has asked Congress for far-reaching power to dissolve Communist-honeycombed labor unions. A request for this and other new anti-subversive authority was sent to Capitol Hill yesterday by Atty. Gen. Brownell, who said he has the backing of the White House.

Brownell proposed that the Subversive Activities Control Board (SACB) be empowered to disband in a new department to dissolve business firms it finds are Communist-infiltrated and in a position to harm national security.

The attorney general also suggested that Congress permit the government to bar subversives from privately owned defense plants.

The union-dissolution power was proposed as a drastic substitute for a Taft-Hartley Act requirement that union officials file non-Communist oaths with the National Labor Relations Board before their unions can be eligible for board services.

Sen. Ferguson of Michigan, chairman of the Senate Republican Policy Committee, promptly introduced two bills to implement Brownell's recommendations.

The Justice Department is known to have had trouble trying to enforce the non-Communist oath requirement.

In the seven years since the Taft-Hartley Act became law, the department has investigated scores of cases of union officials suspected of filing false non-Communist affidavits, but there have been only four convictions, and one of these was reversed.

According to Justice Department authorities, the difficulty stems from language requiring union officials to certify only that they are not Communists at the time of filing. They say an official with Red connections could resign from the Communist party to take the oath, then rejoin the next day.

These officials said they hoped the union-dissolution weapon would impel Red dominated labor organizations to purge themselves.

Whirlybird Pilot Rescues Fliers

FAIRBANKS, Alaska — An Air Force helicopter pilot, maneuvering his plane in the air currents swirling around lofty Mt. McKinley yesterday rescued a flier and his wife who had been marooned for four days on the peak's snowy slopes.

After three days of 100-mile-per-hour winds and fog, Capt. Ralph Searle of the 74th Air Rescue Squadron landed the 'copter at the 7,500-foot level of McKinley and picked up Mr. and Mrs. Dick Collins of Fairbanks.

Collins' light plane crashed last Thursday as he attempted to land supplies to a party climbing the highest peak on the North American continent. Collins and his wife escaped injury.

Wanted Man Held By Portland Cops

Sheriff Murray Britton was notified Tuesday that Portland police are holding Robert Ross Smith, 37, wanted here on a bogus check charge.

According to a complaint filed by District Attorney Frank Alderson, Smith cashed a spurious check for \$50 at the Crater Lake Cafe in Fort Klamath. Britton said a deputy sheriff will be sent to Portland to take the alleged bogus check writer into custody.

senator to get soft military treatment for a friend of draft age.

Let's now take a look at Secretary of War Stevens. Here is what he did: Being scared of McCarthy, he PALAVERED. Here is what he should have done: He should have said flatly, in the rugged language of the army: "Hell, NO! Why should I provide a soft berth for a rich kid who happens to be a protegee of yours when 20 million other American kids have had to go through the hard way and take it as it came?" "What kind of a guy do you think I am, anyway?" That would have ended it. All he would have had to do thereafter was to stand pat and the American people would have backed him up.

We must of course give Stevens credit for not just knuckling under to McCarthy's demand for preferential treatment for one of his men and hushing it up. That would have saved him from a nasty experience. But it would have been far better if he had handled the matter in the rugged, more elemental way. That would have inspired confidence in the army instead of tending to shake confidence.

But, since it was handled as it was, I think the public hearing—three-ring circus methods and all—has been a good thing for our country. It has given all of us the feeling that we have seen and heard all—that nothing has been hidden away from us in a bureau drawer.

But I think it's about time to call it a day.

Milk Prices To Stay Same

Market milk prices will remain the same as at present in the tri-county milk sales area, it was learned from Wilbur Haskins following a meeting of a committee of recommended reductions from the State Board of Agriculture.

Haskins represents the Klamath Grade A Producers Association which, with the Medford Milk League, makes up Tri-County Milk Sales of Klamath, Stikivou and Jackson counties.

The board recommended that the minimum prices be lowered, cuts to come out of producer prices, "based on the assumption that lower feed prices will bring the cost of production down."

Haskins pointed out that producers and distributors have recently given two voluntary price reductions, and that the "assumption" of lower feed costs is not now a fact in this area.

Retail milk prices were reduced one per quart on December 1 and a half cent again on April 1.

Producers are conducting a continuing analysis of feed costs to see if the state's assumption does become true, Haskins said.

Bawdyhouse Case Move Opens Today

A new attempt in the defense battle to obtain possession of an alleged confession in the Raymond J. Bodinet parlor house holdup case was launched Tuesday by A. C. Yaden, counsel for the alleged robber, slated to go on trial next Monday.

Yaden filed a motion in Circuit Judge David R. Vandenberg's court seeking an order to force District Attorney Frank Alderson to allow inspection of a confession to the holdup purportedly signed by Bodinet. Judge Vandenberg set 4 p.m. Tuesday to hear arguments on the motion.

This is the second attempt made by Yaden to obtain the Bodinet confession. Judge Vandenberg overruled the previous motion.

Bodinet was arrested January 8 after his alleged partner in a holdup at Myrtle's parlor house, Edwin Coyle, 28, was shot and killed by a city policeman. The two men were reported to have gagged and bound four women in the place. Elizabeth Caldwell, Negro maid, escaped her bonds while the holdup was in progress and summoned police.

District Attorney Alderson, who will direct the prosecution at the trial, has as his chief witness Paula Benton, alleged operator of the parlor house. Alderson says the alleged bandits took more than \$100 from her. The trial is scheduled to start at 10 a.m. Monday.

FINED

Raymond Dismas Hoover, 22, accused by state police of driving an automobile while his license was suspended, was fined \$100 Monday afternoon. When he was unable to pay the fine, District Judge D. E. Van Vactor ordered Hoover committed to the county jail for 47 1/2 days. Police say it was his second offense.

Angler Fined For Overlimit

Lewis Gene Gregg is perhaps lamenting the fact that he is such a proficient angler.

Gregg and Robert Lynden Blazier and Elmer Eligh Whitlock were brought before District Judge D. E. Van Vactor Monday afternoon on charges of exceeding the bag limit for trout. They had been fishing on Sun Creek near Fort Klamath at the time of their arrest by state police.

During the hearing it developed that the three men had a total of 36 fish. Under the law each fisherman was allowed a catch of 10 trout. Blazier said he only caught eight fish and Whitlock said he bagged nine.

Judge Van Vactor, who is known for his mathematical skill, figured it out this way:

After all catches had been tallied there were six trout over the limit. As it was conceded that Blazier and Whitlock hadn't caught the limit, Gregg was held responsible for the six excessive trout. He was fined \$5 per illegal fish, plus court costs. Judge Van Vactor allowed him to settle the score for \$50 cash.

LATE

OXNARD, Calif.—Hundreds of Oxnard residents were almost an hour late to work yesterday because a bird flew low over a 16,000-volt power line with a piece of wet string and short circuited the Southern California Edison Co. lines. This caused a circuit breaker to cut the power from a 66,000-volt power line feeding Oxnard. The bird got away with his life.

Tri-Hi-Y Delegates Back From Government Program

The Tri-Hi-Y delegates from Klamath Union High School have returned from Salem where they attended the annual YMCA Youth and Government program May 7 and 8.

Donna Beckwith, senior, replaced Ann Pedersen who became ill, and substituted as reading clerk of the Senate. Other delegates included Janis Bubb, senior; Karen Porter and Betty Jucker, juniors; Sharon Taylor and Sharon Bliss, sophomores. Unable to attend were Tom Skiens and Wes Sine, Hi-Y delegates.

Each club present had prepared original bills to sponsor before the state youth legislature, but of the 90 bills, only seven were passed and one was vetoed by the youth governor, Laurel (Skip) Alexander, Beta Hi-Y delegate from Grants Pass. That bill would have revised the state constitution to provide for election of a lieutenant governor.

The KUHIS Sophomore Tri-Hi-Y bill, to require automobile drivers to pass a vision test upon renewal of their driver's license, became amalgamated in another bill and passed.

The other local bills were screened in committees.

Bills passed by the youth legislators included a Senate bill establishing a full time board of probation and parole; a Senate bill amending a state corporation bill; a Senate bill providing that no motor license may be issued to minors 16 to 18 years unless licensees can meet requirements of proof of financial responsibility.

A Senate bill providing caution signs on designated railroad crossing on all federal and state highways in Oregon; a Senate bill relating to divorce and establishing uniformity in divorce laws; a House bill setting a minimum penalty of five years imprisonment for a first offense and not less than 10 years for subsequent offenses involving unauthorized sale of narcotics.

Secretary of the Interior Douglas McKay addressed a joint session of the youth legislature on Saturday. Governor Paul Patterson made the introductory speech Friday morning.

Although the purpose of the program is to acquaint youth with the methods by which Americans make laws, there was a social note Saturday evening was a "Governor's Ball" at which Sharon Taylor was elected to reign as queen.

The annual Youth and Government program is sponsored by the YMCA and supported by the Oregon State Chest, and agency of United Fund.

Cadillac

The "Stranger" Everyone Knows!

The big car eases out from the boulevard and comes to a soft, silent stop. A man steps out from behind the wheel and heads for his destination.

The license plate reveals him to be a person from another state—a "stranger," so to speak.

But the golden crest on the hood of his motor car tells everyone something about him. For it is the famous crest of Cadillac—and no man is wholly a stranger, wherever he be, when he drives this distinguished car.

Any owner can tell you, out of his own personal experience, that a Cadillac is a virtual "letter of introduction" for the man who sits at its wheel.

He becomes, in a sense, the "stranger" everyone knows—a member of the most distinguished motoring fraternity in all the world.

This priceless aspect of Cadillac ownership is but one of the many rewards which come to the owners of Cadillac cars.

In fact, it might even be considered an extra dividend—for it comes in addition to the car's great and distinguishing beauty... its brilliant and inspiring performance... its magnificent comfort and luxury... and its remarkable economy of operation.

As a matter of fact, it would be a formidable task to recite even a basic portion of Cadillac's cardinal virtues for 1954—for the car is superlative in every respect and has been markedly advanced in every phase of appearance and operation.

Of course, it would take only an hour on the highway to understand what it all means in terms of pleasure and satisfaction—and that's why we suggest that you come in and see us—soon.

Why not make it today?
