

### Revival Of Inflation Feared By Businessmen

NEW YORK (AP)—In June the thoughts of businessmen are turning to the chances of a revival of inflation.

The critical months—March, April and May—have gone to business' liking, because the decline slackened instead of picking up momentum as some previously feared it might.

Today, just a few weeks away from the summer austerities, businessmen talk about a waning recession's being replaced by a new spurt of inflation based on these possibilities:

1. War, a threat of war, or just more military aid to our allies, might start war-boom psychology among the buying public, they argue. Some think that might mean scare buying, such as sparked inflation early in the Korean conflict.
2. Government stockpiling plans for nonferrous metals has already firm prices, as intended. Threat of a steel strike—now being played down—might send manufacturers scurrying to order steel. Stepped-up activity in the metals industries, even if artificially induced, might spread to other parts of the economy.
3. Easy money—a government policy for several months now—and assurance of more strenuous measures if needed to halt deflation, convince many businessmen that inflation might find fertile ground in which to germinate.

The administration, however, has made clear its stand on that: it wants neither inflation nor deflation but balance.

Still, it's no secret that inflation, in moderation, is more attractive to most people than deflation.

### Plane Falls, Eight Die

DULUTH, Minn. (AP)—A Minnesota National Guard plane, bucking low visibility in a heavy fog, plummeted into a gravel pit near the Duluth Airport last night, carrying eight troopers to their deaths and injuring six others, four critically.

"We heard the roar of the planes engines so close and loud we thought it was coming down our chimney," said Mrs. Russell Westberg, who lives about a city block away.

"Then there were a couple of terrible crashes and everything was quiet."

Lt. Col. Ralph M. Jerome, commander of the 179th Fighter-Interceptor Squadron, said the ship was returning from a practice flight to Indianapolis, where the 14 aboard had seen the annual Memorial Day speedway race.

Jerome said bodies of five men were taken from the scattered wreckage and that three more had died en route or shortly after reaching hospitals. All but one of the victims was attached to the squadron and lived in this area.

A BRONZE PLAQUE in honor of those who gave their lives for their country was unveiled at Memorial Day rites when Coleman O'Laughlin presided at the ceremony. The new shaft, which replaced the old plywood one, is constructed of sandstone on a concrete base. Funds were donated by individuals and groups to finance the project.

### Ike Asks More Funds

WASHINGTON (AP)—President Eisenhower Tuesday asked Congress for an extra defense appropriation of \$1,100,000,000 for military construction.

The only indication of just where the money would be spent came in the White House announcement that \$503,000 of the total would be used for Army construction of a communications system in Alaska.

Murray Snyder, assistant presidential press secretary, said the overall amount includes the expense of constructing sites for Nike guided missiles, and for troop housing.

Legislation to authorize the military construction work and family housing projects now is pending in Congress. The President's request Tuesday was for Congress to provide the money, once the projects are authorized. It would be used in the fiscal year beginning July 1.

### CHICAGO GRAIN

CHICAGO (AP)—Mild hedging pressure sent wheat down on the board of Trade Tuesday as the first car of new crop wheat of the year arrived at Kansas City.

Losses in the bread cereal ran to several cents at the extreme. The market lacked commercial support and the only export business was limited to a couple of cargoes of spring wheat to Israel.

July soybeans jumped several cents on short covering but new crop months were weak, reflecting substantial moisture in the Midwest over the weekend. Oats eased but corn held quite steady.

### Rebels Flee Under Heavy French Fire

HANOI, Indochina (AP)—Vietminh troops fleeing from their ill-fated siege of Yen Phu boarded sampans and junk Tuesday to cross the Day River under French air bombardment. Their goal was the relative safety of the limestone hills to the west.

Tanks, armored cars, mobile artillery and infantry pressed the cleanup offensive 30 miles south of Hanoi, where 12 rebel battalions were routed from their siege positions by about 8,000 French Union troops in a sudden offensive last week.

They were reported to have pushed the rebels back six miles in this action on the southern rim of the Red River delta.

Elsewhere, however, the Vietminh clung to the initiative. Red infiltrating units stepped up attacks near this French headquarters city. They captured one little post and the French said the defenders had "some losses."

Twenty-seven more survivors of Dien Bien Phu—the medical men who administered to nearly 3,000 French Union wounded during and after the savage battle for the fortress which the rebels won May 7—came back to Hanoi Tuesday night.

Released by the Vietminh, three doctors and 24 medical corporals headed by Maj. Paul Grauwlin landed in a Dakota transport.

The French speeded defense plans for the Chobon Valley as speculation spread that four rebel divisions knifed toward the delta from Dien Bien Phu planned to hit that sector first.

For the past week the French have been mopping up shadow patrols infiltrating into the area 40 miles southwest of Hanoi. Some French sources estimated the enemy's main striking force could reach the valley on the Black River in about four weeks.

### Memorial Day Problem Solved

NEW YORK (AP)—Memorial Day solved a protocol problem for the Waldorf-Astoria Hotel yesterday.

In residence there were President Eisenhower, here to deliver a speech; Emperor Haile Selassie of Ethiopia; Prime Minister Adnan Menderes of Turkey; Maj. Gen. Fermin Gutierrez de Sota, Spanish deputy chief of state; and Rear Adm. Anibal O. Olivieri, Argentina's secretary of the Navy.

The hotel usually honors a guest of such rank by flying their nation's flags. But this time there wasn't enough flagpoles.

After a look at the calendar, the hotel's general manager, Harold K. Hastings, declared the United States flag should fly alone.

On Memorial Day, he said, "you fly but one flag."
