Oppenheimer Gets Written Report OK

WASHINGTON (AP)—The Atomic Energy Commission has confirmed that Dr. J. Robert Oppenheimer can present written—but not oral—arguments for study by the commission when it reviews his security case.

Oppenheimer had asked permission to present both written and oral arguments for the AEC review. The AEC last night officially confirmed earlier reports that only written arguments would be allowed.

Just a little difference in ingredients makes a big difference in cooking results

Snowdrift is just a little lighter than any other shortening—and that can make the big difference in giving your family lighter, more digestible fried foods.

Snowdrift gives just a little more safety than ordinary shortening, because it fries perfectly at correct high temperatures. That can make the big difference in digestibility of fried foods. Snowdrift's ingredients are just a little costlier than any other solid shortening (yet you pay no more). That can make the big difference in better tasting foods, whether fried or baked.

No other shortening at any price is so creamy, so digestible — and so light!
