# Ike Defends Program As Best For US

WASHINGTON (AP) — President Eisenhower says his legislative program is designed to build the kind of national strength which will "lead us most certainly to a life that is secure and peaceful."

### Bible School To Be Held

Daily Vacation Bible School at Bible Baptist Church, 2244 Ward Street, will begin Thursday, June 10, at 8:55 a.m. and will continue through a 12 day session closing June 25.

A feature of the opening day will be the second annual balloon ascent in which each child present attaches his name to a balloon and releases it. Last year a balloon was found in Bonanza.

There will be classes for all ages from four years through high school. Special activities are planned for high school young people.

A "tent city" has been erected on church property in which many classes will be held. There will be a contest between the boys and girls for the duration of the school, each team earning points for attendance, achievement, etc. The winners will be allowed to sleep in "tent city" the night of the 25th and have breakfast the next morning.

Dr. Neil Winegard of the Western Conservative Baptist Theological Seminary in Portland is serving as temporary pastor through the summer months and, with his wife and family, will be on hand to assist with the school.

Look For The Blue Bus

that in this day "It is perfectly necessary that the government do for us, and with us, many things that at one time in history would have been considered reprehensible to our form of government . . ."

Then he ticked off programs in the same fields he listed at last week's news conference — social security, agriculture, tax revision, slum clearance and housing.

He termed these "proper spheres for governmental action." But he cautioned that "because they come so close to the daily lives of every citizen, it is up to all of us . . . to see that all of that service is limited to what must be and need be, and doesn't overstep and get into something where they (the people in government) are being merely busybodies."

Turning then to his legislative program, the President declared no such dangers are inherent in it.

"At this moment," he went on, "there is before the Congress a whole series of these things that they have been devised to help define this line between the proper functions of government and those fields which it should not enter and should not invade."

Then he said the administration program attempts to "establish before all of us that kind of a strength, at home and abroad, that will lead most surely to a life that is secure and peaceful."

Eisenhower flew to Dover, Del., and then motored 40 miles to Chestertown. He returned the same way late yesterday.
