Blow Up Cities?

Geo. N. Taylor

The "H" bomb of today equals millions of tons of dynamite in explosive power. One such bomb would turn New York City into dust and flame in an instant.

Stores, docks, factories, office buildings, homes and people would be mere bursts of flame or float away as dust.

Contrast: One, God's love that gave Christ, his only-born Son, to die for us.

Two: Christ arose from the dead and gave us cheer and hope, such as this world cannot know. Three: Judgment Day, out for the wicked, Christ will turn them into dust and give us resurrection glory and eternal life. But all rests on your receiving Christ into your heart as your own Lord and Saviour. So goes this world. This message is by Portland, Ore., Lumberman and Wife.
