

State Flower Show Planned

The program for the third course of the State Flower Show School, which will be held here June 28, 29 and 30 under the auspices of the Oregon State Federation of Garden Clubs, has been announced by the local chairman, Mrs. Scott McKendree.

The program follows:
 Monday — 9 a.m., registration; 9:30, announcements; 9:45, flower show practice; Staging—duties of judges, Mrs. Orrin Hale, instructor; 11, horticulture: roses and delphinium, Mrs. Hale, instructor; 12, lunch; 1 p.m., flower arrangement:
 Tuesday — 9 a.m., registration; 9:30, announcements; 9:45, point scoring — roses and delphinium, Mrs. Hale; 10:30, horticulture — fruits and vegetables; 11:30, point scoring—class participation, Mrs. Hale; 12, lunch; 1 p.m., flower arrangement: color—emphasis on analogous harmonies; 2:30, point scoring—class participation, Rae Pennington.
 Wednesday: 9 a.m., written examinations for garden club members only. Examinations are compulsory only if the student is studying for an accredited judgeship. Students will be required to judge a small flower show in connection with the examination.
 Because of the value of the courses offered and the qualifications of the instructors, the school has been opened to the general public. Fee for the school is \$5 for two days; \$3 for one day.
 Persons particularly interested in flower arranging who will not be able to attend all classes may attend the lecture and demonstration sessions by Rae Pennington for a fee of \$3 for two afternoons; \$2 for one afternoon.
 Advance registrations may be made with Mrs. McKendree, 1893 Del Moro, phone 4349.

design — emphasis on scale and proportion, Rae Pennington, instructor; 2:30 to 3, point scoring, class participation, Rae Pennington, instructor.

Accountants Hold Meetings

Many public accountants from this area plan to attend the annual convention of the Oregon Association of Public Accountants, Margaret Wheeler, member of the board of governors, announced today.

Inter-professional and inter-business cooperation will be emphasized at the convention, being held June 24-26 at Prineville. Principal speakers include: B. Franzwa, Oregon Bankers Association; Frank Spears, Oregon Bar; W. A. Dalberg, University of Oregon; Daniel Brajch, Gonzaga University.

Meeting in conjunction with the OAPA on the final day of the convention will be the newly organized Oregon Committee on Tax and Accounting Information, Mrs. Wheeler reported. She added that all public accountants are invited to attend this session.

Russians Stage Big Air Show

MOSCOW (AP)—The Soviet Air Force staged a giant air show yesterday but the 667 planes that took part included no new types. Even the four-jet intercontinental bomber flown over Red Square on May Day was absent from the display.

A quarter of a million Russians, headed by Premier Georgi Malenkov and Communist party secretary Nikita Krushchev watched the show at Moscow's Tushino Field.

The aircraft ranged from four tiny radio-controlled gliders to 102 two-jet bombers.

Spud Committee To Hold Meeting

A meeting of the joint potato advertising committee for Klamath-Tulelake-Central Oregon has been scheduled by Chairman H. W. Steinhilber for 1:30 p.m. Wednesday June 23 at the office of Ross Aubrey, 2237 South Sixth Street.

It is probable that a decision will be reached as to whether advertising undertaken for Klamath Basin potatoes will include Central Oregon potatoes also.

A proposal made earlier in the year suggested a combined promotion under the name Klamath-Deschutes Russets. More recently a separate opinion seems to favor a separate promotion for Klamath Basin potatoes.

Separate promotion for Klamath is reported to be favored by some Bay area wholesalers who have been handling the crop.

Promotion proposals are to be outlined at the meeting by Mills Poland of Pacific National Advertising Agency, which has been retained to survey market outlets and suggest approaches to the advertising problem.

Stolen Autos Found In Mine

WILKES-BARRE, Pa. (AP)—Fourteen badly damaged stolen automobiles have been found in an abandoned mine shaft near this anthracite city.

Police arrested John O'Boyle, 20, of nearby Plymouth yesterday in connection with the thefts.

Police Chief Larry Kendig said the youth had used the mine pit to dispose of cars during the last seven months. He said O'Boyle had several hundred dollars worth of automobile accessories in the basement of his home.

MR. AND MRS. A. L. (POP) Reid, owners of "Pop's Place," celebrated their 57th wedding anniversary on June 10. They were married in Chicago in 1897 and came to Klamath Falls in 1930 from Portland. For several years they operated the Men's Hand Laundry, putting up the building for the business at the corner of Eleventh and Klamath Streets. They were in business there until 1943 when they bought the cafe, Aline Hymel Reid, 83, was born in New Orleans. Mr. Reid, was born in New Brunswick, Canada, 81 years ago. They have no children.

House Studies Aid Budget

WASHINGTON (AP)—President Eisenhower's \$31-billion-dollar foreign aid budget for next year — a prime target for economy advocates — gets its first test this week.

The House Foreign Affairs Committee starts today to decide the actual amounts it will propose authorizing for the year beginning July 1. The final bill may be ready for House action later in the week.

The committee, meeting behind closed doors, already has partly remodeled the program to replace some outright economic gifts with loans and the use of surplus food.

Efforts to cut the total are anticipated, both in final committee sessions and on the House floor.

The measure would set a ceiling on the aid program, with the actual appropriations voted later, perhaps after further trimming.

The administration requested \$3,477,700,000. Of this \$1,580,000,000 is earmarked for global military assistance, with the remainder split between economic aid, technical (Point Four) assistance and other programs.

The largest single amount — 800 million dollars — is budgeted for special military assistance to Indochina.

The administration has requested authority to use this sum anywhere else in Asia, in case Indochina falls or the war ends.

The committee already has adopted an amendment to limit the use of 500 million dollars in economic funds to ship surplus agricultural products abroad, to replace direct dollar aid.

In addition, the committee is discussing proposals to earmark another 300 or 400 million dollars for loans and guarantees, instead of using them for outright grants.

Atomic Airplane Power Predicted

WASHINGTON (AP)—Robert LeBaron, a government atomic specialist, predicted today that the United States will have an airplane driven by nuclear power within six or seven years.

LeBaron is chairman of the Military Liaison Committee to the Atomic Energy Commission but he devoted most of a copyrighted interview with the Magazine U. S. News and World Report to a discussion of peacetime uses of atomic energy.

New FHA Rules Announced

WASHINGTON — Senator Guy Cordon announced that the Federal Housing Administration has ruled that barbecue pits, swimming pools, kennels, and similar luxury items no longer are eligible for FHA home modernization and repair financing.

Senator Cordon said that in addition to luxury items, the list includes 2 other items which are barred by the new ruling in that they "do not substantially protect or improve the basic livability of the property to be improved."

Oregon's senior senator said he had been told by acting commissioner Norman P. Mason that "vigorous administrative action" was needed to enhance the usefulness of the American public of the FHA modernization and repair loan program.

"Uncle Sam unfortunately has been underwriting the financing of items which lend themselves to selling abuses and which most certainly are not basic to the livability

Cordon Asks Mine Program

WASHINGTON — Senator Guy Cordon said he has asked the Office of Defense Production to determine the feasibility of a stepped up chrome production program.

The present government-backed program for chrome production runs until 1957 or until 200,000 tons of the critical mineral has been produced.

However, the procurement program has lagged and only an estimated total of 60,000 tons had been acquired by the government as of this month.

A total of \$20,000,000 was set aside to finance the chrome program. Thus far, under \$5,700,000 of this amount has been spent. The average per-ton price of the chrome thus far procured has been about \$24.

Senator Cordon, in asking the ODP study to determine if the program could and should be stepped up, recalled that he had been largely responsible for the extension to chrome of the defense minerals procurement program.

China Announces Census Figures

LONDON (AP)—Peiping radio says China's population is more than 600 million. The figure includes the island of Formosa, controlled by Generalissimo Chiang Kai-shek's Nationalist forces.

A broadcast heard here last night said Peiping's National Census Office reported a total of 601,912,371 people, as of midnight June 30, 1953.

of the American home," Senator Cordon said. He added that the basic purpose of the program — "to help home owners to modernize and repair their properties" — must not be impaired.
