Ambulance Call False Alarm

Answering a call that a car was overturned and a man pinned in the wreckage, Kaler's Ambulance Service made a fast run to the state line on Highway 97 a short distance north of Cal-Ore Tavern, about 3 a.m. today.

Arriving at the scene the car was found, bottomside up, with the top crushed so badly it would seem impossible for the driver to get out, but no driver was located.

After checking at Dorris and finding no driver or details of the accident, the ambulance returned to the garage, and the trip was marked up as a "dry run."

GERTRUDE LAWRENCE AS "Mrs. A"

She was born in the slums of London, became one of the theatre's most famous stars... glamour, sparkle, high emotion — the stuff of which legends are made. He was a stuffy, Boston blue-blood, shocked at her gay extravagances. Yet between them they shared a love that comes tremblingly alive. Eden Urges Asian Pact For Defense

LONDON (AP) — Foreign Secretary Anthony Eden suggested a Southeast Asian defense system Wednesday that would include non-aggression pacts with the Communists.

Just back from the Geneva conference, Eden told the House of Commons: "I hope it will be possible to agree to some system of Southeast Asian defense to guard against aggression."

"I hope we could have a reciprocal arrangement for both sides to take part, such as Locarno, and we could have a defensive alliance such as NATO is in Europe."

Locarno was a series of five treaties negotiated in the Swiss city of that name in October, 1925, and France, Britain, Italy and Poland on the other. The aim was to guarantee continuation of peace and existing territorial boundaries. It proved effective until the rise of Hitler.

Eden spoke in a voice charged with emotion and some members took his remarks as criticism of U. S. Secretary of State Dulles as he declared:

"My belief is that, by refraining from any precipitous move toward the formation of a NATO system in Southeast Asia, we have helped to create the necessary conditions in which both systems can properly be brought into being."

Dulles, in a speech at Seattle June 10, rejected British and French arguments against joint action on Indochina before the breakup of the Geneva Conference. Eden told Commons bluntly that Britain was "at no time willing to support armed intervention at Dien Bien Phu," and drew cheers from the house as he explained:

"First we were advised that air action alone could not have been effective, secondly any such military intervention could have destroyed the chance of a settlement at Geneva, and thirdly it might well have led on to general war in Asia."

Former Prime Minister Clement Attlee, Labor Party opposition leader, praised Eden's work at Geneva and declared: "I think the real obstacle to settlement in Korea is the failure to recognize China's position and the United Nations."

Cheers came from all sides as Attlee gave his wholehearted support to the forthcoming Churchill-Eisenhower meeting at Washington and said he hoped it would lead to talks later with Soviet Premier Georgi Malenkov.

Further Study Of Cancer Seen

NEW YORK (AP) — Further study and experiments are necessary, the tobacco industry says, to pin down the causes of cancer and heart disease.

It views as "preliminary" an American Cancer Society report indicating cigarette smoking cuts the life span. The tobacco industry's attitude was made public Tuesday in a statement issued through Dr. Clarence Cook Little, newly appointed director for a scientific committee set up to study the effects of tobacco on health.

Dr. Little termed "of vital interest" the findings of the scientists who made the study for the American Cancer Society but took the position that more proof is needed.

GOP Predicts Fall Victory

ALBUQUERQUE (AP) — Leonard Hall, Republican national chairman, says the Republicans will "pick up seats in both houses of Congress" in November because of the "good economic prospects" of the nation.

"I think the American people are in favor of Eisenhower's program and will elect men to Congress who will support that program," Hall said last night in an interview.

He said Democrats saying they are in favor of the President's program still present "an almost solid phalanx" against it when Congress votes.
