

Portland TV Ruling Given

WASHINGTON (AP)—A communications Commission examiner recommended Tuesday that North Pacific Television, Inc. be granted a permit for a channel 8 television station in Portland, Ore.

The examiner recommended denial of competing applications of Westinghouse Radio Stations Inc., Portland Television Inc., and Cascade Television Co.

The companies whose applications were recommended for denial have 20 days in which to file exceptions and ask for oral argument. If this is not done the application of North Pacific Television will be granted automatically in 40 days.

North Pacific is owned by the operators of radio station KGW in Portland. The principal stockholder is KING of Seattle. There also are a number of Portland investors, including Gordon Orput, Paul Murphy, Henry Kuckenberg, Prescott Cookings and W. C. McColl.

Man Made Lakes To Be Named

WALLA WALLA (AP)—A bill to name the three lakes behind McNary, John Day and The Dalles dams on the Columbia River was introduced in the House at Washington by Rep. Holmes (R-Wash) Tuesday.

The bill provides for naming the McNary reservoir as Lake Walla Walla, John Day reservoir as Lake Umatilla and The Dalles reservoir as Lake Celilo.

The proposal, advanced originally by Col. F. S. Tandy, Walla Walla district Army Engineer, was endorsed recently by the Umatilla Development Assn. as well as by Washington interests.

Rep. Holmes reported Tuesday, however, that Rep. Coon (D-Ore), who was asked to cosponsor the measure, decided to seek further reaction from his district before taking a stand on naming the lakes.

New Building Method Used

NEW YORK (AP)—A New York builder has achieved his goal of putting up the aluminum outside walls of a 22-story office building in just one day.

The job was done by 61 workmen in 9 1/2 hours yesterday. Normally it would take 8 to 10 weeks, said Norman Fishman, president of the realty firm that is constructing the building at 57th street and Park Avenue.

Hundreds of watchers gathered on sidewalks and stared in amazement as the aluminum sheets, each two stories high, were bolted into place on the previously constructed framework.
