

# Military Junta Takes Over As Guatemala Leader Quits

**By JACK RUTLEDGE**  
**GUATEMALA** (AP)—Leftist President Jacobo Arbenz Guzman resigned under the pressure of the army and military reverses last night. He handed over the government reins to a military junta headed by Col. Carlos Enrique Diaz, 39-year-old army chief of staff.

Diaz in a broadcast pledged the army to continue the war against the invading forces led by Col. Carlos Castillo Armas, but the signal in government appeared to switch the end of the Communist's strong influence on the regime Arbenz had led. Army leaders are known to have become increasingly opposed recently to the Regid's strong influence on the government.

The ouster of the 41-year-old Arbenz followed reports of a big rebel victory at Zacapa, key railroad center 75 miles northeast of the capital. Army forces, particularly their artillery, were reported shattered there.

News of the army reverses was followed by a rising tide of popular support for the rebels, whose "Radio Liberation" had called Saturday for the armed forces to revolt, jail Arbenz and form a military junta to negotiate a ceasefire.

With the rebels reported last night some 70 miles from the capital and moving on it, the battle for Guatemala was expected here to end within 48 hours. The Communists, backed by hastily armed and trained labor groups, were expected to try to keep up the fight, however.

# U.S. Popular In Bolivia

**LA PAZ, Bolivia** (AP)—This is a Latin-American country where the United States is popular. Newspapers of the ruling National Revolutionary Movement (MNR) vie with each other to print material favorable to Uncle Sam. Hardy's newspaper appears without a single picture of the President Eisenhower.

This is the background: A revolution two years ago threw the army conservatives out of office and brought the MNR of President Victor Paz Estenssoro to office. The MNR had always been unfriendly to the owners of the tin mines — Patino, Hochschild and Aramayo. It proceeded to nationalize their holdings.

Today there is little demand for Bolivia's tin. The price is about 90 cents a pound, in many cases less than tin costs to mine. That figure is less than half the wartime price and compares with the \$1.30 of 1948.

Bolivia must import much of the flour, meat, and rice that feed its three million people. There is no money to pay for them, under present conditions. The United States stepped in to save the situation this year with an outright gift of 12 million dollars in food. The Bolivian government asks the food for local money and uses the resulting funds to rebuild the country — under U.S. supervision.

The results in good will have been enormous.

# NAACP Plans Court Fight

**DALLAS** (AP)—The leader of the Negroes' anti-segregation battle has indicated his organization will stand for no trifling with the Supreme Court's school decision.

Thurgood Marshall says the National Assn. for the Advancement of Colored People (NAACP) will go to court against local school boards which balk.

Marshall arrived yesterday for the annual national convention of the NAACP in this segregated city. As special counsel for the NAACP, he was a powerful factor in the May 17 decision of the Supreme Court which outlawed segregation in public schools.

"While the governors want to circumvent the Supreme Court," he said, "we are going to circumvent the governors."

"Since the Supreme Court spoke, there is no use listening to anybody else.

"In suits, if they have to be filed, the school boards will be the defendants."

However, he would not deny desegregation governors the right to speak out against the court's ruling. And he said he favors court action to compel admission of Negro students to schools only as a final resort.

Today, Marshall was discussing with other Negro lawyers how to handle any possible suits. The lawyers will confer with state NAACP presidents tomorrow, opening day of the six-day convention. About

700 delegates are expected. The lawyers said the convention will consider other fields in which it will fight segregation. He mentioned transportation, housing, recreation and employment. But, he added, "schools are most important to me."

## Primitive Medicine

Supernatural powers, spirits, and demons rule the cults of primitive medical practice in many remote sections of the world. The medicine man, with his symbolic paraphernalia, is thought to possess the "power" to reveal the cause of illness and to provide curative drugs.

The dramatic and mysterious have always appealed to man's imagination, sometimes to the point of destroying his perspective. However, questions pertaining to pain and illness are always best answered by your family physician. We are qualified to prepare any medicine he may prescribe.
