FOURTH OF JULY picnic or special celebration? Then by all means take a cake that carries out the theme of Independence Day, complete with a replica of our first American flag (you need make only 13 dots in the field). It's easy to make this beautiful cake when you use Cinch Cake Mix.

New Beauty Aids On The Market

Surprisingly safe Nudit Special, formulated by Madame Helena Rubenstein, safely and pleasantly removes all traces of disfiguring hair from the face. Apply the rose-scented Nudit Special to the face with the special applicator enclosed in the package. After a few minutes wash it (and the unwanted hair) off with a face cloth.

Depilatories, the feminine world's best answer to unwanted, unsightly, excess hair, have long been limited to use on the arms and legs. In the past, women troubled with a fuzz on chins or lips have been forced to resort to bleaches or painful waxing to remove or disguise facial hair.

New Nudit Special is pleasant, easy to use, lightly rose-scented. It is expressly made for safe use on the face. It is effective in a matter of minutes.

It is formulated with soothing oils and removes all traces of unsightly hair below the skin so that the effects are long lasting. Nor does the hair return coarse and ugly as it does when removed with a razor.

Start by dampening the face. Apply a good coating of the formula to the areas afflicted with unwanted hair. Leave it for five to twelve minutes and with lukewarm water and a face cloth, wash it away. It is as simple as that.

COVER-UP STICK

Max Factor announces the release of Erace to the general public. Erace is the secret substance he created to hide imperfections, shadows and dark circles from the all-seeing eyes of TV and motion picture cameras.

In its new convenient form, Erace is as easy to use as a lipstick. This product lightens shadows, covers blemishes and hides dark circles under the eyes.

It is available in six specially

Cinch Flag Cake

Add only water to Cinch's Devil's Fudge Mix — follow the directions on the package. Add one cup chopped nuts to the batter and pour into a greased and dusted 9x9x2-inch square pan. Bake at 350 degrees for 35 minutes. Let cake cool for 10 minutes before removing from pan.

FROSTING

Prepare one-half envelope of unflavored gelatin following directions on the package, using only water. Sweeten and flavor with peppermint. Tint half the gelatin a bright red, the other half blue. Place in refrigerator until thickened but not stiff.

When cake is completely cool, spread peppermint flavored white frosting on top and sides. With a knife draw the outline for the flag in the center of the cake with dots of frosting placed close together with a decorating cone, or a paper cone.

Also use the frosting to frame the

formulated shades. To be used under make-up, Erace makes the wearer look younger and brighter by hiding marring discolorations and flaws. The handsome tube is of plain, polished brass with the product named debossed in black. The shade is noted on the bottom label.

No 'Average' Customer, Say Range Makers

There's no such thing as the "average" woman customer.

The market research experts at the Gas Appliance Manufacturers Association say that such a customer is neither a Miss nor a Mrs., but just a myth. If there were such a person, they say, all ranges would be exactly alike and there would be no necessity for introducing new models each year.

Since this is not so, range manufacturers are kept on their toes bringing up new models for the housewife.

One new range shown has the entire top hinged so it can be lifted in the air, exposing the whole interior for easy cleaning. Burners can be removed and replaced without fuss and bother.

Another has eliminated the spill-over mess by inserting aluminum bowl liners under the burners. Another model has a glass window built into the oven door and an interior light that goes on at the touch of a button. A third has a periscope built in the top of the range for a view into the oven. These features keep unwanted heat

from being admitted to the kitchen by eliminating unnecessary opening of the oven door.

Makers of electric kitchen appliances have gone pretty fancy, too. It is now possible to have your ovens set into the walls and exterior finish may be nickel or copper to harmonize with your kitchen colors.

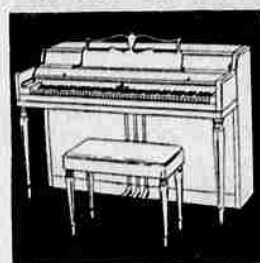

Another popular model has a center griddle. New models come in pastel shades as well as white and feature no-burn heating units. Appliance manufacturers have taken into consideration all needs, from the small bachelor apartment to the brand new dream home where east is no object.

NESTLE COLORHAIR, the new hair-conditioning hair coloring, keeps your hair naturally soft and lustrous as you color it. Simple and clean to use, at home, Colorhair comes in a kit that contains everything needed for a complete application: a pair of plastic mitts, a dual-purpose applicator that both parts off and colors the hair, and a mixer bottle from which it is applied. Colorhair won't wash out or fade away — in shades from pale blonde to black. It is available at several local stores.

AIRLIFT

SAIGON, Indochina (AP) — A U. S. Air Force Globemaster left Saigon late Wednesday with the second 100 of the 500 Dien Bien Phu wounded being evacuated to France via the United States.

Built by **WURLITZER** to last for life!

Finest of materials, six solid Oak back posts, Mountain Spruce sounding board, full metal plate. Lovely mellow tone and fast responsive action... and some exclusive basic scientific advances in acoustical design. Applying modern research and efficiency to an old industry, Wurlitzer presents this finer spinet piano. Piano pictured above delivered with bench for \$591.00. Or rent it if you wish and apply all rent, for a reasonable time, towards purchase price. Many other styles in all the new attractive finishes to choose from.
