Police Kill Berserk Man After Duel

INDIANAPOLIS (AP)—A 54-year-old man on convalescent leave from a mental hospital fought a death duel with 200 policemen in his West Side home yesterday and wounded eight officers before he was killed.

When the gunfire finally was stilled the body of Howard Ellis lay behind a bookcase barricade, riddled by 26 bullets. His dirty white frame house was splintered by thousands of rounds of ammunition.

Ellis' wife Janie, first target of his rage, suffered minor wounds in the left leg and left hand.

One patrolman, Paul White, 30, was in critical condition with wounds in the chest, neck and arm.

Two others were listed in serious condition. They were Dora Ward, 27, shot in the head, and Marlin Lyon, 39, shot in the right side.

Central state hospital said Ellis had been on leave for a year and a half and had been checked by monthly reports.

Five foster children who had been placed in the Ellis home by the Welfare Department slipped out of the house before the shooting started and were not harmed.

Central state hospital said Ellis had been on leave for a year and a half and had been checked by monthly reports.

Ellis kept up a heavy fire. Finally an armored car roared up to the back door, and three heavily armed officers leaped through the door and ended the battle.

"It just had to be that way," Mrs. Ellis said softly when they told her at General Hospital that her husband was dead.

Alligator Stops Traffic

MIAMI, Fla. (AP)—A 12-foot alligator is back in the Everglades after tugging traffic on U.S. 1 north of Miami for nearly an hour.

Sheriff's Deputies Richard Wright and Robert Laichak suffered rope burns in the battle to subdue the huge reptile which was first spotted by a motorist along the busy highway last night.

Wright said they couldn't figure what to do when they arrived, since there's a \$300 fine for shooting an alligator.

"It lay there peacefully enough until three Humane Society workers arrived," Wright said. "But when we started to rope it, it went wild."

Four ropes were tossed over the creature's snout and neck. It whirled and lunged, snapping its huge jaws and thrashing its tail.

More than 100 persons assembled and shouted encouragement while perspiring officers struggled with the "gator."

Wright said it was more than a mile from where the 'gator was found to the nearest water.

"This alligator looked like the daddy of them all," said Charles W. Pusey, executive vice president of the Humane Society. "He was the biggest alligator I ever saw."

Pusey said he was turned over to conservation officers for release in Everglades National Park.

Union Faces Injunction

By THE ASSOCIATED PRESS
The CIO International Woodworkers of America Union was ordered Wednesday night to restrain pickets from stopping trains attempting to enter or leave the Rayonier, Inc. pulp and paper plant near Hoquiam, Wash.

The injunction, issued in Federal Court at Seattle, and a brief flare-up of violence in a Southern Oregon picket line were the main developments as the CIO union and its counterpart in the American Federation of Labor continued on strike at major timber operations throughout the Pacific Northwest.

Federal Judge George H. Boldt, granting the injunction sought by the Northern Pacific Railroad, held picketing the rail lines disrupted interstate commerce. He said the picketing constituted violence and inciting of violence.

The ruling, issued after a hearing which lasted until late Wednesday night, made permanent a temporary injunction granted last week when the railroad asked the court to restrain pickets representing two IWA locals from blocking rail lines at Hoquiam.

At Sweet Home, Ore., meanwhile, an AFL official accused of carrying a picket sign onto railroad property in an attempt to stop a lumber shipment in a "hot cargo" dispute, was charged with trespassing. The official charged was Dale Atkins, secretary of the AFL Lumber and Sawmill Workers local at Sweet Home.

Union officers said the lumber shipment will be termed "hot" wherever it goes.

Minor violence was reported in picket lines at the Red Bluff Lumber Co. at Prospect, Ore. Company and union officials said this flew when two men went through a picket line set up by the CIO woodworkers.

The company has continued to operate, despite the picketing.

U. S. Steel Raises Prices

PITTSBURGH (AP)—U. S. Steel Corp., which produces more than one-third of the nation's steel, announced an increase in prices averaging \$3 a ton. The present price of basic carbon steel is \$120 a ton.

The price increase comes just two days after the nation's No. 1 producer signed a contract with the CIO United steelworkers giving 150,000 employees a five-cent hourly wage hike and improved pension and insurance programs.

Other basic steel producers are expected to follow U. S. Steel's example in upping prices since they also reached agreement with the union on similar contracts.

The company did not say immediately when the increases will become effective.

Only Wednesday Benjamin F. Fairless, chairman of U. S. Steel, said the increases are necessary because of the new USW contract.

Union officials estimated that the improved pension and insurance programs will cost the company seven cents an hour and bring the total package to 12 cents. The company would not comment on the total cost.

The increase in steel prices may touch off a series of price hikes in the cost of number of finished products made of steel. That means the hike might touch the pocketbook of nearly every American.
