It Happened This Way in New Pine Creek

By IRVIN FARIS

That wise old owl — the red siren that squats up there atop that tall pole across the street has acquired a habit of screaming a long loud hoot at 12 o'clock each noon. He lets everyone on the line town here who's confused about the time know that it's time to eat. If you're standin' right under him when he hoots, plug your ears and hang on to your false teeth! He really means business! Nerves and stomachs are gradually becoming adjusted to his startling pronouncement.

Ell says: "Biggest job in America today is the synchronization of the aims of capital, industry and labor in the common cause of promoting the best conceivable national health — for strength and for world wide competitive production." Who cares? Russia.

Mr. and Mrs. Clayton Bradley returned last Sunday afternoon. They were thrilled with a wonderful trip — having spent most of a week with old friends and acquaintances in and around Modesto. One of Mrs. Bradley's former music pupils, Miss Barbara Rouse, of Houghson, California, was crowned queen of Job's Daughters in an elaborate ceremony attended by some 300 persons. The big social event was held in the Houghson Gymnasium, followed by a formal dance. Barbara had, in a recent letter, expressed the wish that if only her former music teacher, (Mrs. Bradley) could play the special music for this grand occasion — how wonderful it would be. So in gratitude Mrs. Bradley talked hubby into taking a vacation just before leaving so she could do the honors for her former pupil. They were special guests in several homes, met all their old friends and made many new ones. They brought home with them a youthful fellow who will spend the summer with them.

Week ago Monday, Ralph Brice narrowly escaped death when he drove his car into Tandy Creek with a terrible impact. In avoiding hitting some cattle on the road, he said he swung over just too far and struck the concrete abutment on the Tandy Creek bridge. The sudden jolt snapped a piece of the front bumper and flung it 30 or 40 feet. It nearly hit John O'Neil who was going after his cows on horse back about that time along the lane inside his fence. The sedan was towed down here behind the garage and the disaster car was called for Brice. He was so lucky — that man — all he got was some bad bruises and terrible shock. He came home from the hospital the following day. The car, aside from one good tire, is worth about 15 cents.

Mrs. R. A. Scarborough returned last Saturday afternoon from Stockton, California, where she spent a few days. She brought her mother, Mrs. Rothwell, home with her who will visit here for awhile. By the way, I was very cleverly reminded that her son, Don, was one of the students who graduated a few Fridays ago from the Alameda Union High school. I knew it too just like a bunch of quail know they're being hunted but jump out from a club of shelter and boom! Get it right in the neck.

Mr. and Mrs. C. H. Henderson and family of El Cajon, California, visited for a couple of days last week with Mr. and Mrs. Elmer Harris and family. Mr. Henderson is a brother to Mrs. Harris.

Mrs. Kathryn Dick was hostess to the Needle Club last Friday afternoon at her home. Present were Mrs. Dorothy McDonald, Mrs. Susan Vincent, Mrs. Bernice Moffitt and Mrs. Belle Moffitt. Mrs. Hilda Holt, Mrs. Alpha Hartog, Mrs. Clara Cloud, Mrs. Hilda Lenkeit, Mrs. Bona Paris and six children. The ladies had a very good time swapping yarns, sewing and a knittin'. Ice cream with

strawberry topping, chocolate cake and punch was served for refreshment. The meeting will be a picnic to be held at a nice spot which will be chosen later.

The Youth Club will sponsor a dance which will be held July 24 at the Grange Hall. Epler's Western Swing Band will furnish the music. Proceeds of the dance will go toward the construction of the new fire hall. Hooray!

Many local farmers are pitching in at haying a short first crop of alfalfa, trying to out-smart the weavils in the hope of getting a longer, cleaner second crop. Much of the meadow hay appears to be short too, due to frosts and backward weather. But if the weather stays like it has for the last two days, with perhaps a storm which is threatening right now, it might snap the meadows up a bit. Gee! the last two days have been most ideal. The way it looks right now — hay will be at a premium next fall.

Mrs. Mayme Bryan who has been visiting her mother, Mrs. A. H. Daugherty, left last Sunday morning for her home.

So says Cliff, "Wish I was three men about now." He has just been swamped with work lately with the farmers getting ready for harvest and those already going breakin' down. But he's a happy garage man — havin' his harvest too.

With the Willow Ranch mill struck, business has been lookin' down the nose lately but there will be better days. Soon the differences will be steam-ironed out and there is any profit left the wheels will be turning again. It's a free country and the right to strike is the working man's only recourse. Many have thought it untimely when business was somewhat on the drag anyway. But who knows what's ahead.

There was considerable jitters here last Monday morning when Alvin Butler discovered upon opening his store that the rear door of his building had been jimmied. The night latch had been broken off and the would-be thieves would have gained entrance had it not been for the inner safety bar which was thrown across the door.

Even this bar was bent but it seemed to withstand the force that was apparently applied in the attempt breakin. This criminal intent which is rare in these parts — has alerted everyone now. Since then there has probably been more keys turn latches than for the past decade in this peaceful little village.

But one day last week there was a fight to the death being waged up at the old Sherrard place where Verle Cook and his family are living. Slow going Mr. Blow Snake versus Mr. Smarty Noise, the rattler.

The oldest boy, Dick, picked up a big stick, heaved it and the end of it struck death to Mr. Blow Snake. In the meantime, Mr. Smarty Noise, noising his hypnotic tail, headed for cover. Rocks and sticks flew in his direction but he made his getaway and was lost in the brush.

The boys rightfully had been taught to kill any snake they might see for rattlers were known to inhabit that canyon above the house. But the moral of the story is — let two adversaries alone. The fact of nature is, had they done so the blow snake would have killed the rattler and had the blow snake gotten away it would have been all right anyway — he's harmless and is death on field mice. The rattler probably catches mice too but still he's death to man when bitten.
