Union Strikes Door Plant

PORTLAND (AP)—A major Portland door plant, operated by M and M Woodworking Co., was struck Tuesday by the AFL Lumber and Sawmill Workers Union. It was the first post-holiday activity in the Pacific Northwest lumber strike now in its 16th day and it idled about 300 men. Negotiations continued for the M and M plywood division which has 2,500 employees in three states, and those plants operated normally. The strike was called through-

out the region June 21 by the AFL and the CIO International Woodworkers in support of a 12 1/2-cent hourly pay increase. Employers offered only to renew existing contracts.

There have been some scattered settlements since the strike started, on varying terms, but there has been no major change in the position of either the unions or the employers.

A federal mediator, Bob McClelland, said Friday he was trying to arrange a meeting and Tuesday he reported he did not expect replies for a day or two yet since his inquiries went to association secretaries and others who would need to confer first with their principals.

Allies Push German Plan

LONDON (AP)—The United States and Britain pushed ahead today with plans to give West Germany almost full sovereignty—including two occupation zones if France does not ratify the European army plan. Political and legal experts of the two Allied nations opened meetings at the Foreign Office yesterday to draft a program of joint U.S.-British action to be launched if the European Defense Community is not set up soon. The conferences here are expected to conclude before the end of this week. Under study are proposals to:

1. Give the West German government almost complete independence in the American and British zones, including powers to raise a defense army.
2. Abandon the U. S. - British-French High Commission in Bonn and set up American and British embassies.

Such action would leave the French zone, in southwest Germany, the sole occupied territory in the federal republic and would put the French under acute German pressure to get out of that. The drafting of plans here was ordered by President Eisenhower and Prime Minister Churchill at their meeting in Washington last week. They agreed then that West Germany should be given "its place as an equal partner in the community of western nations."

The French were not invited to take part in the talks here, the first such omission of France from joint Allied planning on Germany since the war.

Oregon Wheat Loadings Start

PORTLAND (AP)—D. A. Nelson started wheat shipments Tuesday from his ranch to the North Lexington elevator in Morrow County, marking the start of the Oregon wheat harvest. It was the first delivery of the year. Nelson also was first in 1953.

Because of the cool June the harvest is running a week or 10 days later than last year.

Red Leaders Discuss Geneva

TOKYO (AP)—Red China's Premier Chou En-Lai and Ho Chi Minh, leader of the Vietnam rebels, spent three days together on the Indochina border discussing the Geneva conference, Peiping radio said Wednesday.

The two Red leaders held a secret conference from Saturday to Monday, exchanging views "with respect to the question of the restoration of peace in Indochina and related questions," the broadcast heard here said.
