McCarthy Offers To Turn Over Communist Evidence

WASHINGTON (AP)—Sen. McCarthy (R-Wis.) says he will turn over to an arm of the Hoover Commission evidence he contends will show Communists have wormed their way into the Central Intelligence Agency. On his return yesterday from an 18-day vacation, McCarthy told newsmen "I would be glad" to supply this information about the supersecret espionage agency to a Hoover Commission "task force" headed by retired Gen. Mark Clark. He insisted this was no announcement that his Senate Investigations subcommittee was dropping plans he had announced previously for a probe of CIA. "We are not going to forget about the situation," he said. However, he said that "We never conduct a parallel investigation" in a field being investigated by persons he trusts. He said he has confidence in Clark, former Far East commander who is now president of the Citadel, a military college at Charleston, S.C. McCarthy, during the hearings into his dispute with Army officials, said red infiltration of the CIA was one of the worst situations confronting the United States. CIA Director Allen W. Dulles called that false and said he had asked McCarthy last October for any information he had about his agency, but never received a reply. McCarthy's subcommittee started last year to inquire into some CIA operations, but Dulles blocked the investigation by refusing to let his employees testify on grounds that security might be jeopardized. McCarthy met yesterday with two members of his subcommittee, Senators Mundt (R-SD), and Dirksen (R-Ill), and told newsmen later he had no immediate plans to call a meeting to consider what to do about two staff aides denied Defense Department clearance to handle secret documents. The subcommittee and the department have declined to name the two who were refused clearance. Widely published reports have named them as Donald A. Surine and Thomas Laventa. McCarthy said he had "complete confidence" in every investigator on the subcommittee staff. The three Democratic members and Sen. Potter (R-Mich.) have said there is need for a housecleaning, a move McCarthy has said he would oppose. "Perhaps it was an unusual co-

incidence that the ones who did not get clearance were the two who were investigating Struve Hensel (assistant secretary of defense)," McCarthy said. Hensel has said McCarthy once conceded to him he had no basis for the original accusations against the assistant secretary. "Absolutely untrue," McCarthy commented yesterday.

They were stopped at a traffic light and the trio tossed pepper into their eyes, grabbed the bag of money, hit Father Ward when he protested, and fled.
